Post-Liberal Statebuilding in Central Asia Lottholz, Philipp,2022-05-25 EPDF and EPUB available Open Access under CC-BY-NC-ND licence. Drawing on decolonial perspectives on peace, statehood and development, this illuminating book examines post-liberal statebuilding in Central Asia. It argues that, despite its emancipatory appearance, post-liberal statebuilding is best understood as a set of social ordering mechanisms that lead to new forms of exclusion, marginalization and violence. Using ethnographic fieldwork in Southern Kyrgyzstan, the volume offers a detailed examination of community security and peacebuilding discourses and practices. Through its analysis, the book highlights the problem with assumptions about liberal democracy, modern statehood and capitalist development as the standard template for post-conflict countries, which is widespread and rarely reflected upon.

Lost Kids Mona Gleason,Tamara Myers,Leslie Paris,Veronica Strong-Boag,2010-07-01 Children and youth occupy important social and political roles, even as they sleep in cribs or hang out on street corners. Conceptualized as either harbingers or saboteurs of a bright, secure tomorrow, they have motivated many adult-driven schemes to effect a positive future. But have all children benefited from these programs and initiatives? *Lost Kids* examines adults' misgivings about, and the inadequate care of, vulnerable children. From explorations of interracial adoption and the treatment of children with disabilities to discussions of the cultural construction of the hopeless child, this multifaceted collection rejects the

essentialism of the priceless child or lost youth 0 simplistic categories that continue to shape the treatment of those who deviate from the so-called norm.

The Management of Complex Projects Stephen Pryke, Hedley Smyth, 2012-11-20 Value is added to projects through the relationships surrounding the client; the focus of this book is therefore the client as project, rather than the building on the ground. It shows how to create and maintain effective relationships between the client and the project team, as well as intra-coalition relationships. Students, academics and practitioners need to understand the changing nature of reforms from successive calls for change by the industry's various clients and client groups. Project team network relationships are a function of mindsets, behaviour and competencies of individuals and **The Management of Complex Projects: a relationship approach:**

- Explores the relationship at the project interface: client-design team-contractor, stakeholders and supply chain relations
- Examines different concepts to the development and management of relationships; formation and maintenance issues
- Highlights some of the key issues that require development, both academically and through applied research.

Most project management books cover tools and techniques; this one covers the softer skills and shows how crucial good relationships are to the successful management of projects.

RAPED by the STATE RANDAL R. CHANCE, 2004-05-06 A major goal of his work is to improve the daily treatment of young incarcerated Americans, with the hope of preventing these young people from entering into the Adult Criminal Justice System. Another goal is to improve the training for managers and administrators of these programs, so employees can be better selected, trained and treated; and they, then can serve as better role models and supervisors for the youth of America. Most juvenile misbehavior can be altered and turned in a positive direction, with decent personal treatment and adequate programs for their individual problems. To allow the continued mistreatment of these youth is to throw away their future and the future of America. Mr. Chance has discovered a multitude of problems within these systems through his investigations, inquiries and handling of thousands of complaints about the abuse, mistreatment, neglect and exploitation of both the youth in these systems; and the employees who work under unbearable conditions.

Tibetan Democracy Trine Brox, 2016-06-10 How do you govern 130,000 people from exile? Tibet - and the struggles of diaspora Tibetans - are elements of an ongoing and highly debated issue. The Dalai Lama's democratisation process during his time in India from 1959-2011, and the subsequent election of Lobsang Sangay as prime minister-in-exile, marked to the Tibetan people the move away from a seemingly feudal societal structure and traditional theocratic governance. Central to these Tibetan democracy aspirations is the

'freedom struggle' in which Tibetans dream of an ideal politics which includes both Tibetans residing in Tibet and those in exile, with the ultimate goal of returning to a self-ruled Tibet. However, some have questioned whether the fight for democracy has helped or hindered a united and free Tibet. To elucidate this complex debate Trine Brox has undertaken extensive fieldwork investigating how democracy is viewed and practised amongst Tibetans in exile. In so doing, she explores how the Tibetans living in India imagine, organise and negotiate governance that is modern and democratic, but uniquely Tibetan. This is an important book for those with an interest in Tibet, diaspora communities and democracy.
