Alphabet Book: Angel's Awesome Books Angelique Marshall, 2020-11-09 Angel's Awesome Books are augmented reality books for children with voice recordings equipped with sound effects that educate children in a fun and creative way. Our Alphabet Book was designed to provide children with an augmented learning experience that is exciting and engaging. It is a great way to get your child to learn their alphabet. You can use our augmented reality app on your phone or smart device to point your camera at the letters, and your child will enjoy interacting with the characters while the app brings

the letters to life. Angel's AR -Awesome Alphabet Book - AR: Augmented Reality is a way for your child's natural world to be enhanced with additional superimposed elements over the real world. Alphabet Book - AR unique features support learning in children with developmental challenges such as autism. What is the difference between an augmented reality book and a typical book? A typical book is a collection of words or images on paper or a screen. The reader looks at the words and sees the images through the text, never questioning if it is real or not. An augmented reality book has the same content as an ordinary book, but when used with an ar app, the user can see the 3D characters in the book come to life. Why is Augmented Reality important in education? Augmented Reality is important in education because it provides a means for students to visualize the world around them. It also allows teachers to provide more information about what they are teaching. Augmented reading is also known to offer children with autism and learning disabilities a new way to learn and engage socially. When you use our augmented reality app, the book comes alive with sound and voices.
