Christian Missions in East Bengal S. M. Tanveer Ahmed, 2018-02-08 As the first Bengalee Archbishop of South Asia, Theotonius Amal Ganguly, CSC, made a remarkable contribution in the expansion of Christian missionary activity in Bengal through all the three political regimes that Bangladesh went through. In the four hundred years of the history of the Catholic Church in Bangladesh, his appointment as the archbishop not only highlights his role in serving the Catholic Church, but also the importance of Catholic missionary activities in Bangladesh. To explore the history of Protestant missionary activities during the last century, research was carried out and books were published. These scholarly activities left a noticeable gap in the area of the history of the Catholic Church in Bangladesh. This book is a bold attempt to fill in that gap, which led to serious research culminating in the publication of this book. What makes this book remarkable and outstanding is the use of unused sources to reconstruct the life and times of Archbishop Theotonius Amal Ganguly in the sociopolitical background of Bangladesh, especially his role in the liberation war of 1971. His heroic role in the liberation war indelibly earned him a place in the mainstream history of Bangladesh.

The Exotic Rissole Tanveer Ahmed, 2011 I put some rissoles in sandwiches for you two. Dig in. Lynchy grabbed two and handed me one. We bit into them while sipping our SodaStream-manufactured soft drink. A rush came over me as I tasted the spice-free rissole bursting across my taste buds. It was worth the wait.

Fragile Nation Tanveer Ahmed, 2016-11-14 A glimpse into the inner lives of psychiatrist Dr Ahmed's patients in the melting pot of outer Sydney. The stories vary from closet gay Muslims, to health food fundamentalists. It is an account of the modern condition viewed through the microcosm of the consulting room. Funny, insightful, heartbreaking and inspiring, this gripping book will entertain and challenge.

_____ A terrific book here full of insight, information and highly interesting people...gives the book a warm and beating heart. This is a very important book...an insight into the fantastic variety of human responses to adversity. -- Gabrielle Lord, best-selling author Society is stretching the definition of mental health. As Tanveer notes, mental health has been equated with emotional distress. We are changing our view of trauma, seeking counsellors for all occasions. What's going on? Tanveer's case studies illuminate these trends. But readers will find them interesting for their own sake, stories of humanity. His book is nothing

less than an account of how we live now: from Mujahideen to McMansions. -- Bob Carr, former NSW Premier Tanveer Ahmed's *Fragile Nation* comes as revelation to me. I have following his writing for many years and have always been impressed by his knowledge, valuable insights and willingness to express unpopular truths. But I was riveted by his stories of the people he cares for as a psychiatrist working in Western Sydney: angry white men, alienated youth seduced by Islam, damaged refugees, the children of tiger mothers. Amazing people revealed with sensitivity and candour, blessedly free of the ideological claptrap that often captures the saintly souls who work in the helping professions. Here's to Tanveer Ahmed - Australia's Theodore Dalrymple. -- Bettina Arndt, author and clinical psychologist. Dr Ahmed argues clearly and forcefully for a less mechanistic and bureaucratic psychiatry, which harms our culture and society as well as individuals. His book will be unwelcome in the very circles where it is most needed. --Theodore Dalrymple, UK Psychiatrist and Author This is a fantastic read. *Fragile Nation* offers a compelling account of the way that culture, morality and psychology intersect and influence individual behaviour in a transnational world. -- Frank Furedi, author and emeritus professor of sociology at the University of Kent, United Kingdom

‘Out of School’ Ethnic Minority Young People in Hong Kong Miron Kumar Bhowmik, Kerry John Kennedy, 2016-02-19 This book offers a comprehensive overview of ‘out of school’ ethnic minority young people in Hong Kong. The focus is on the extent of the phenomena, reasons behind it and a description of ‘out of school’ life. Employing qualitative research methods and adopting a case study approach that involved fieldwork comprising 15 in-depth interviews and 2 observations with 11 ‘out of school’ ethnic minority young people, this book provides detailed insights into the phenomena. Information gained from an additional 22 in-depth interviews with 20 other stakeholders related to ethnic minority education, from time spent at three schools and key document analysis are also incorporated. Drawing on critical race theory, this book presents a critical discussion of the ‘out of school’ issue for ethnic minority young people in a privileged Chinese context.

BollySwar: 1981 - 1990 Param Arunachalam, 2020-04-14 BollySwar is a decade-wise compendium of information about the music of Hindi films. Volume 6 chronicles the Hindi film music of the decade between 1981 and 1990. This volume catalogues more than 1000 films and 7000 songs, involving more than 1000 music directors, lyricists and singers. An overview of the decade highlights the key artists of the decade - music directors, lyricists and singers - and discusses the emerging trends in Hindi film music. A yearly review provides listings of the year's top artists and songs and describes the key milestones of the year in Hindi film music. The bulk of the book provides the song listing of every Hindi film album released in the decade. Basic information about each film's cast and crew is provided and detailed music credits are provided. Where available, music credits go beyond information regarding music directors, lyricists and singers, and include the names of assistants, arrangers, recordists, etc. Where applicable, music related awards are listed. Interesting trivia is listed for most films. This includes information about artist debuts, plagiarised or sampled songs, controversies and stories behind the making of the film and its music. This book is primarily meant as a quick reference for people looking for information related to a Hindi film or a song, but readers can also browse through the book to get an overview of the events that shaped Bollywood music in the decade. Given that Hindi films are a reflection of the Indian society, the reader can also glean insights about the country's socio-political and cultural environment from the book.

Modeling the Renewable Energy Transition in Canada Tanveer Ahmed, 2016-04-07 The work demonstrates a techno-economic model of power generation for the cost-effective integration of renewable energy sources, with the goal of reducing greenhouse gas emissions in Canada. The methodological approach outlined by the author is based on periodic simulation of price variations. The result demonstrates that a 10% transition to renewable energy generation is possible, practical and affordable when supported by an effective policy framework that does not need to introduce a feed-in tariff or loan-based financial mode.

Nanomedicine in Cancer Immunotherapy Prashant Kesharwani, 2024-01-19 Nanomedicine in Cancer Immunotherapy bridges the two disciplines of nanotechnology and immunology, summarizing the latest research into novel cancer treatments, often personalized to the patient. This book covers a wide range of nanomaterial types for use in cancer immunotherapy, including hydrogel, lipid, exosome, gold and peptide nanoparticles. The preparation, application, pros and cons of each nanomaterial class is reviewed, helping the reader understand the potential for each and tailor their selection to their needs. Nanovaccines are also covered, along with a clinical evaluation and market analysis of nanomedicines for immunotherapy, offering an important clinical and commercial overview of this rapidly developing field. Nanomedicine in Cancer Immunotherapy is an interesting reference for those working in the fields of nanotechnology, immunology and cancer therapeutics, as well as clinicians with an interest in novel nano-based cancer treatments. Provides a single source for a review of the latest research in the development of nanomaterials for cancer immunotherapy Introduces the reader to basic principles of immunology and immunotherapy to aid our understanding Details a wide range of nanomaterial classes for cancer immunotherapy, with advantages and disadvantages thoroughly analyzed

Arsenic in Bangladeshi Soils Related to Physiographic Regions, Paddy Management and Geochemical Cycling Md Tanvir Ahmed Chowdhury, 2016 The inherent concentrations and variability in arsenic and most other

elements, including nutrients, were greater in the Holocene floodplain soils compared to the Pleistocene terrace soils. Paddy soils in Bangladesh have a high potential for arsenic resupply from soil solid phase to soil solution phase. In the physiographically different soils across the landscape, there is less difference in nutrient/ toxin bioavailability in the paddy soils than might be predicted based solely on the total concentrations in the soils. Therefore, distinctions of soils based just on total concentrations are perhaps misleading, particularly, when elements mobility under reducing paddy environment is concerned. While the bioavailable/ phytoavailable fractions of the elements in soils are of major concern with respect to the uptake by the growing plants, it is of utmost importance to consider the labile concentrations of elements in soil solution rather than the soil total concentrations. The present study substantiates that arsenic is simply associated with less well weathered/ leached soils and sediments, suggesting that it was either due to the geological newness of Holocene sediments or differences between the sources of sediments that gave rise to the arsenic problems in soils of Bangladesh. The inherent biogeochemical variability along with the complexity of the nature and properties of the soils at local and regional levels across the landscape of the dynamic sedimentary depositional environment in Bangladesh should be considered, in any future research on arsenic in the soil-water-crop systems in Bangladesh environment.

Disentangling Migration and Climate Change Thomas Faist, Jeanette Schade, 2013-05-14 This book addresses environmental and climate change induced migration from the vantage point of migration studies, offering a broad spectrum of approaches for considering the environment/climate/migration nexus. Research on the subject is still frequently narrowed down to climate change vulnerability and the environmental push factor. The book establishes the interconnections between societal and environmental vulnerability, and migration and capability, allowing appreciation of migration in the frame of climate as a case of spatial and social mobility, that is, as a strategy of persons and groups to deal with a grossly unequal distribution of life chances across the world. In their introduction, the editors fan out the current debate and state the need to transcend predominantly policy-oriented approaches to migration. The first section of the volume focuses on “Methodologies and Methods” and presents very distinct approaches to think climate induced migration. Subsequent chapters explore the sensitivity of existing migration flows to climate change in Ghana and Bangladesh, the complex relationship between migration, demographic change and coping capacities in Canada, methodological challenges of a household survey on the significance of migration and remittances for adaptation in the Hindu Kush region and an econometric study of the aftermath of the 1998 floods in Bangladesh. The second part, “Areas of Concern: Politics and Human Rights”, deepens the analysis of discourses as well as of the implications of proposed and implemented policies. Contributors discuss such topics as environmental migration as a multi-causal problem, climate migration as a consequence in an alarmist discourse and climate migration as a solution. A study of an integrated relocation program in Papua New Guinea is followed by chapters on the promise and the flaws of planned relocation policy, global policy on protection of environmental migrants including both internally displaced peoples and those who cross international borders. A concluding chapter places human agency at centre stage and explores the interplay between human rights, capability and migration.

In Defence of Shame TANVEER. AHMED, 2020-07-13 Psychiatrist Dr Tanveer Ahmed looks at the history and contemporary rise of shame and its overlap with group identity and mental health. Dr Ahmed argues that the stigmatisation of shame is part of a wider tyranny of the positive. This stigmatisation of negative emotions limits human flourishing and contributes to the growth in disorders such as anxiety and self-harm, aspects of which are often grounded in unnamed and tamed shame.

Days of Wonders Russell Moon, 2012-12-08 Russell Moon, a volunteer performer in the London 2012 Olympic Opening Ceremony, gives us the inside story of the making of the Greatest Show on Earth. In 194 gripping, moving and funny pages we follow his adventures from first audition to final jaw-dropping performance. Bangladesh Ali Riaz, 2016-06-08 Bangladesh is a country of paradoxes. The eighth most populous country of the world, it has attracted considerable attention from the international media and western policy-makers in

recent years, often for the wrong reasons: corruption, natural disasters caused by its precarious geographical location, and volatile political situations with several military coups, following its independence from Pakistan in 1971. Institutional corruption, growing religious intolerance and Islamist militancy have reflected the weakness of the state and undermined its capacity. Yet the country has demonstrated significant economic potential and has achieved successes in areas such as female education, population control and reductions in child mortality. Ali Riaz here examines the political processes which engendered these paradoxical tendencies, taking into account the problems of democratization and the effects this has had, and will continue to have, in the wider South Asian region. This comprehensive and unique overview of political and historical developments in Bangladesh since 1971 will provide essential reading for observers of Bangladesh and South Asia.

Violence against Women in India N. Prabha Unnithan,Mahesh K. Nalla,2019-10-23 Women in India constitute nearly half of its population of over a billion people, and this book is a rigorous social scientific examination of the issue of violence against women in India. It draws from the latest criminological research on the nature and extent of such violence; discusses cultural myths and practices that underlie the problem; and examines policies and programs that respond to it. This collection will advance research, justice, and social action to tackle this heartbreaking problem. The chapters in this book were originally published as a special issue of the International Journal of Comparative and Applied Criminal Justice.

The Aid Lab Naomi Hossain,2017-02-16 From an unpromising start as 'the basket-case' to present day plaudits for its human development achievements, Bangladesh plays an ideological role in the contemporary world order, offering proof that the neo-liberal development model works under the most testing conditions. How were such rapid gains possible in a context of chronically weak governance? The Aid Lab subjects this so-called 'Bangladesh paradox' to close scrutiny, evaluating public policies and their outcomes for poverty and development since Bangladesh's independence in 1971. Countering received wisdom that its gains owe to an early shift to market-oriented economic reform, it argues that a binding political settlement, a social contract to protect against the crises of subsistence and survival, united the elite, the masses, and their aid donors in the wake of the devastating famine of 1974. This laid resilient foundations for human development, fostering a focus on the poorest and most precarious, and in particular on the concerns of women. In chapters examining the environmental, political and socioeconomic crisis of the 1970s, the book shows how the lessons of the famine led to a robustly pro-poor growth and social policy agenda, empowering the Bangladeshi state and its non-governmental organizations to protect and enable its population to thrive in its engagements in the global economy. Now a middle-income country, Bangladesh's role as the world's laboratory for aided development has generated lessons well beyond its borders, and Bangladesh continues to carve a pioneering pathway through the risks of global economic integration and climate change.
