The Global Climate Regime and Transitional Justice Sonja Klinsky,Jasmina Brankovic,2018-04-27 Geopolitical changes combined with the increasing urgency of ambitious climate action have re-opened debates about justice and international climate policy. Mechanisms and insights from transitional justice have been used in over thirty countries across a range of conflicts at the interface of historical responsibility and imperatives for collective futures. However, lessons from transitional justice theory and practice have not been systematically explored in the climate context. The comparison gives rise to new ideas and strategies that help address climate change dilemmas. This book examines the potential of transitional justice insights to inform global climate governance. It lays out core structural similarities between current global climate governance tensions and transitional justice contexts. It explores how transitional justice approaches and mechanisms could be productively applied in the climate change context. These include responsibility mechanisms such as amnesties, legal accountability measures, and truth commissions, as well as reparations and institutional reform. The book then steps beyond reformist transitional justice practice to consider more transformative approaches, and uses this to explore a wider set of possibilities for the climate context. Each chapter presents one or more concrete proposals arrived at by using ideas from transitional justice and applying them to the justice tensions central to the global climate context. By combining these two fields the book provides a new framework through which to understand the challenges of addressing harms and strengthening collective climate action. This book will be of great interest to scholars and practitioners of climate change and transitional justice.

Shaping Social Identities After Violent Conflict Felicia Pratto,Iris Žeželj,Edona Maloku,Vladimir Turjačanin,Marija Branković,2017-12-13 This book examines the identities of young adults in Bosnia-Herzegovina, Serbia, Kosovo, and Macedonia. With research drawn from a large multidisciplinary project exploring a potential for reconciliation in post-conflict societies, the authors

discuss the interplay between ethnic, religious and national identities that have been the source of recent violent conflicts. They focus on people aged 18-30, representing generations that are socialized after the wars, but live in ethnically divided societies burdened with a difficult history. Another aim of the project was to compare majority and minority perspectives within each country, and to provide a unique view on how to reinterpret and build more inclusive social identities. Scholars and organizations interested in areas of social psychology, political science and sociology will find this research of great value.

Pietre e fucili Stefano Petrungraro,2013-12-10T00:00:00+01:00 False voci, campane e bandiere: nella Croazia di fine Ottocento i contadini e le contadine si allarmano e danno voce al proprio malcontento. Croati e serbi protestano contro le decisioni del ceto politico al potere, contestano le elezioni e gli elettori. A tentare di mantenere l'ordine vi sono i gendarmi, che vigilano, sparano, arrestano. Viene quindi la volta di magistrati e avvocati difensori, che giudicano quegli atti di ribellione. La ricerca ricostruisce i fatti e li scandaglia al fine di gettare una nuova luce sulla fine del secolo croato e sul conflitto sociale che lo attraversa. Le proteste collettive e la loro repressione vengono decostruite per comprendere gli effetti dell'abolizione del Confine militare e come vengono vissuti i processi di integrazione nazionale, di apprendistato alla politica nelle campagne, di democratizzazione della società.
