Brother Tariq Caroline Fourest, 2010-06 The name of Tariq Ramadan is well known in the West. Thanks to his urbane manner and articulate way of expressing himself - in a number of languages - this Swiss-born academic is a regular contributor to television and radio features dealing with Islam (and Islamism) and the West. In England, his reputation as a "moderate" has won him praise - and even an invitation from the Prime Minister to serve on the government's task force on preventing extremism. Meanwhile, as the grandson of Hassan al-Banna, founder of the Muslim Brotherhood, Ramadan enjoys a certain status in Islamic circles - a kind of ambassador for his grandfather's brand of political Islam. So who is the real Tariq Ramadan and what does he stand for? In this incisive and insightful study of the man, well-known French writer and journalist Caroline Fourest dissects the public pronouncements of Tariq Ramadan. Drawing on his numerous books, articles and speeches as sources, she demonstrates with chilling clarity that the West has been beguiled by Ramadan's doublespeak. Tariq Ramadan is slippery. He says one thing to his faithful Islamist followers and something else entirely to his Western audience. His choice of words, the formulations he uses - even his tone of voice - vary, chameleon-like, according to his audience. In

most people, this would be merely funny or irritating, but Tariq Ramadan is too influential a figure to be dismissed so lightly. Caroline Fourest does an incalculable service. In this long-overdue English translation of *Brother Tariq* she proves, once and for all, that Tariq Ramadan is not to be trusted. Ramadan has been portrayed as the Martin Luther King of Islam. This study reveals that he is a far more sinister character at the forefront of a militant and reactionary Islam.

Islam and the Arab Awakening Tariq

Ramadan,2012-10-12 One of the most important developments in the modern history of the Middle East, the so-called Arab Spring began in Tunisia in December 2010, bringing down dictators, sparking a civil war in Libya, and igniting a bloody uprising in Syria. Its long-term repercussions in Egypt and elsewhere remain unclear. Now one of the world's leading Islamic thinkers examines and explains it, in this searching, provocative, and necessary book. Time Magazine named Tariq Ramadan one of the most important innovators of the twenty-first century. A Muslim intellectual and prolific author, he has won global renown for his reflections on Islam and the contemporary challenges in both the Muslim majority societies and the West. In *Islam and the Arab Awakening*, he explores the uprisings, offering rare insight into their origin, significance, and possible futures. As early as 2003, he writes, there had been talk of democratization in the Middle East and North Africa. The U.S. government and private organizations set up networks and provided training for young leaders, especially in the use of the Internet and social media, and the West abandoned its unconditional support of authoritarian governments. But the West did not create the uprisings. Indeed, one lesson Ramadan presents is that these mass movements and their consequences cannot be totally controlled. Something irreversible has taken place: dictators have been overthrown without weapons. But, he writes, democratic processes are only beginning to emerge, and unanswered questions remain. What role will religion

play? How should Islamic principles and goals be rethought? Can a sterile, polarizing debate between Islamism and secularism be avoided? Avoiding both naive confidence and conspiratorial paranoia, Ramadan voices a tentative optimism. If a true civil society can be established, he argues, this moment's fragile hope will live.

What I Believe Tariq Ramadan, 2009-10-06 Tariq Ramadan is very much a public figure, named one of Time magazine's most important innovators of the twenty-first century. He is among the leading Islamic thinkers in the West, with a large following around the world. But he has also been a lightning rod for controversy. Indeed, in 2004, Ramadan was prevented from entering the U.S. by the Bush administration and despite two appeals, supported by organizations like the American Academy of Religion and the ACLU, he was barred from the country until spring of 2010, when Secretary of State Hillary Clinton finally lifted the ban. In *What I Believe*, Ramadan attempts to set the record straight, laying out the basic ideas he stands for in clear and accessible prose. He describes the book as a work of clarification, directed at ordinary citizens, politicians, journalists, and others who are curious (or skeptical) about his positions. Aware that that he is dealing with emotional issues, Ramadan tries to get past the barriers of prejudice and misunderstanding to speak directly, from the heart, to his Muslim and non-Muslim readers alike. In particular, he calls on Western Muslims to escape the mental, social, cultural, and religious ghettos they have created for themselves and become full partners in the democratic societies in which they live. At the same time, he calls for the rest of us to recognize our Muslim neighbors as citizens with rights and responsibilities the same as ours. His vision is of a future in which a shared and confident pluralism becomes a reality at last.

The Future of Political Islam in the Arab World Tariq Ramadan,2012-10-02 The strength of the initial revolutionary movements in Tunisia, Egypt, Libya or Syria lay in not having a specific leadership. Rather, these movements comprised men and women from different classes, backgrounds and religions, all coming together. In Egypt this was very apparent – many came together from a variety of secular, leftist and Islamist groups – there was no leadership. It was clear from the very beginning that these were not ‘Islamist revolutions’ as some labeled them. The Islamists in many of these countries joined the efforts afterwards; in fact, in the beginning the Islamists were very hesitant to become involved. The first to push the Islamist movement to participate were the young members of Tunisia’s Al-Nahda. For the Muslim Brotherhood in Egypt, the group’s leadership initially said that they would not be involved, but they were then encouraged to do so by the younger generation. Within the Brotherhood it was quite clear that there was – and remains – a fracture concerning strategy. Whilst the lack of a central leadership brought the initial movements strength, it was to become their weakness. Why? We know now that following the removal of the dictators it quickly became apparent that there was a lack of vision and clarity about what the people actually wanted. All we know is what they didn’t want; so we are still unsure as to what the future will hold. Across the board, the movements’ early strength became their weakness. From the secularists to the Islamists, these pertinent questions persist: what is the future and what do they want? These questions must be applied from the outset in order to understand the strengths and weaknesses of these

movements. Ultimately, the situation is complex, with many issues to consider; this is where we are—a complex region facing complex challenges with complex dimensions. Consequently, it pays to be cautious when attempting to predict future developments in Muslim-majority countries. The current period is quite critical—a turning point. Something has changed and we can't go back. It is now up to the young generation, even the Islamists. My position on this is quite clear – it can't be done by killing or torturing people – if someone is dealing with politics, be they secular or Islamist, it doesn't matter; as long as he or she is non-violent and respects the rule of law and the democratic process, he or she is entitled to be involved in the process and be part of the political discussion. Why? because it is good for all of us; it is good for you because there is nothing in Islam – and this is my position – that says that religion should take over the state. It should be about democratic and majority processes—this is Islamic.

Shadows of the Pomegranate Tree Tariq Ali, 2013-10-15
“Tariq Ali captures the humanity and splendor of Muslim Spain . . . real history as well as fiction . . . a book to be relished and devoured” (The Independent). The savagery of the Reconquest tore apart the world of the Banu Hudayl family. For the doomed Muslims of late-fifteenth-century Spain, the approaching forces of Christendom bring not peace but the sword. Capturing the brutality of a war both military and cultural—and the price paid by the innocent—Tariq Ali opens his *Islam Quintet* with a harrowing and profound historical fiction.

Western Muslims and the Future of Islam Tariq Ramadan, 2003-11-27 Tariq Ramadan, one of Europe's leading thinkers and one of Islam's most innovative and important voices, explores in this volume what it means to be a Western Muslim, addressing a topic that is vitally

important to the futures of both Islam and the West. Ramadan claims that a silent revolution is sweeping Islamic communities in the West, as Muslims actively seek ways to live in harmony with their faith within a Western context. French, English, German, and American Muslims--women as well as men--are reshaping their religion into one that is faithful to the principles of Islam, dressed in European and American cultures, and definitively rooted in Western societies.

The Clash of Fundamentalisms Tariq Ali, 2003-04-17 In this timely and important book, new in paperback, Tariq Ali is lucid, eloquent, literary and painfully honest as he dissects both Islamic and Western fundamentalism.

Interpretations of Jihad in South Asia Tariq Rahman, 2020-09-07 In the wake of radical Islamist terrorist attacks described as jihad worldwide and in South Asia, it is imperative that there should be a book-length study of this idea in this part of the world. The focus of the study is the idea of jihad with its changing interpretations mostly those available in exegetical literature of key figures in South Asia. The hermeneutic devices used to understand the meaning of the Quranic verses and the Prophetic traditions relating to jihad will be the focus of this study. The main thrust of the study is to understand how interpretations of jihad vary. It is seen as being both defensive and aggressive by traditionalists; only defensive and mainly about moral improvement by progressive Muslims; and being insurrectionist, aggressive, eternal and justifying violence against civilians by radical Islamists. One purpose of the book is to understand how the radical interpretation came to South Asia. The book also explains how theories about jihad are influenced by the political and social circumstances of the period and how these insights feed into practice legitimizing militant movements called jihad

for that period.

Arab Filmmakers of the Middle East Roy

Armes,2010-08-23 In this landmark dictionary, Roy Armes details the scope and diversity of filmmaking across the Arab Middle East. Listing more than 550 feature films by more than 250 filmmakers, and short and documentary films by another 900 filmmakers, this volume covers the film production in Iraq, Jordan, Lebanon, Palestine, Syria, and the Gulf States. An introduction by Armes locates film and filmmaking traditions in the region from early efforts in the silent era to state-funded productions by isolated filmmakers and politically engaged documentarians. Part 1 lists biographical information about the filmmakers and their feature films. Part 2 details key feature films from the countries represented. Part 3 indexes feature-film titles in English and French with details about the director, date, and country of origin.

The Arab Awakening Tariq Ramadan,2012 Across the

Arab world millions of women and men have taken to the streets, showing that dictators can be overthrown without weapons. But what happens now? Tariq Ramadan is one of the most acclaimed figures in the analysis of Islam and its political dimensions today. In *The Arab Awakening* he explores the opportunities and challenges across North Africa and the Middle East, as they look to create new, more open societies. He asks- can Muslim countries bring together Islam, pluralism and democracy without betraying their identity? Will the Arab world be able to reclaim its memory to reinvent education, women's rights, social justice, economic growth and the fight against corruption?

Can this emancipation be envisioned with Islam, experienced not as a straitjacket, but as an ethical and cultural wealth? Arguing that the debate cannot be reduced to a confrontation between two approaches - the modern and secular versus the traditional and Islamic - Ramadan demonstrates that not only are both of these routes in crisis, but that the Arab world has an historic opportunity- to stop blaming the West, to jettison its victim status and to create a truly new dynamic. Tariq Ramadan offers up a challenge to the Middle East- what enduring legacy will you produce, from the historic moment of the Arab Spring?
