Naked Leslie Masters MD,2010-05 In, *Naked. This is My Story...This is Our Song...*, Dr. Masters has, with finesse and conviction, written a basic primer on personal storytelling. With her own mesmerizing story woven throughout, Dr. Masters successfully connects the real with the surreal. *Naked* is a story within a lesson and a lesson within a story. More than that *Naked* is life...life bubbling over with success, tragedy, pain, renewal, failure, transformation, and redemption. It is a guttural look at what it means to be a human being...both contemptible and beyond contempt. *Naked* is the true story of Leslie Masters, a 45 year old physician, single mother of three, soccer mom, cheer and gymnastics coach, cosmetic medicine expert, entrepreneur, small business owner, imperfect, spiritual human being. As she tells her story in the first person singular, Dr. Masters lures the reader onto the mindboggling and at times bewitching trail of recovery and discovery. From DEA officers in her office to mice in her kitchen, Dr. Masters' artistry in storytelling will make you laugh, make you cry and introduce you to emotions you have not known before. With the benevolence and compassion of a trusted friend she holds out her hand and both invites and emboldens the reader to tell the one story that only they can tell...their own story. Dr. Masters reaches deep within the wisdom of the ages and from Plato to Jesus, Buddha to Einstein and Sigmund Freud to Bill Wilson, Dr. Masters helps us transform teachings into right here, right now applications. What makes this book special is that it is wretched, raucous, raw and real. Dr. Masters shows with brutal honesty, courage and sophistication just what telling your story is all about. Leslie is bright, articulate, and funny...and what she becomes to the reader is a treasured intimate friend. Before the final page has been turned, Dr. Masters has become Leslie...a flawed, broken, faulty, incomplete member of humanity. The result is a captivating work that is relevant, and even necessary, in the world that we all live in today. Fueled by the power of truth, this is a story that needs to be heard.

Allied Participation in Vietnam Lt. Stanley Larsen,James Lawton Collins, Jr.,2015-10-02 More than forty nations provided assistance to the Republic of Vietnam in its struggle against North Vietnam. This aid ranged from economic and technical assistance to educational and humanitarian contributions. Hundreds of Free World civilians worked in Vietnam as doctors, teachers, and technical specialists. Eight nations also provided military assistance. The flags of these Free World countries-the United States, the Republic of Korea, Thailand, Australia, New Zealand, the Philippines, the Republic of China, and Spain-flew alongside the colors of the Republic of Vietnam at the headquarters of the Free World Military Assistance Forces in Saigon. The military contributions of these nations included combat troops, army medical teams, and individual political warfare advisers. The degree of assistance and co-operation among the concerned Free World nations resulted from years of work and involvement. While many nations expressed sympathy for the plight of South Vietnam, aid did not always come easily, quickly, or to the extent desired. Many nations, beset by their own internal economic and political problems, could do little to help; others did nothing. The story of the efforts of the contributing nations and the efforts to enlist their aid is the subject of this monograph.

How to Be Invisible J. J. Luna, 2000-07-07 For most of us, privacy means an unlisted telephone number. But what about your Social Security number? Your credit card numbers? Your bank account statements? Your personal health data? You may think this information is also secure, but if you've ever ordered anything over the Internet, or if your credit card is on file at the local video store just in case you never return that copy of Titanic, or if you throw out bank statements without shredding them, then this information is now in the public domain and can easily be discovered and used against you by a private eye, a computer hacker, or even a vengeful neighbor or former lover. Once people gain control of even a shred of your personal information, they can gain control of your life. They can transform this information into access to your assets, your loved ones, even your identity.

And once your privacy is gone, there's very little you can do to get it back. J. J. Luna, a highly trained and experienced security consultant, can show you how to achieve the privacy you crave, whether you just want to shield yourself from casual scrutiny or take your life savings and disappear without a trace. He reveals the shocking secrets that private detectives use to uncover information, and then shows you how to safeguard against them. Filled with vivid real-life stories drawn from the headlines and from Luna's own consulting experience, *How to Be Invisible* is the essential guide to preserving your personal security. Privacy is commonly lamented as the first casualty of the Information Age-- but that doesn't mean you have to stand for it.

Roman Villas J.T. Smith,2012-10-12 Roman Villas explores the social structures of the Roman world by analysing the plans of buildings of all sizes from slightly Romanized farms to palaces. The ways in which the rooms are grouped together; how they intercommunicate; and the ways in which individual rooms and the house are approached, reveal various social patterns, which question traditional ideas about the Roman family and household. J. T. Smith argues that virtually all houses were occupied by groups of varying composition, challenging the received wisdom that they were single family houses whose size reflected only the owner's wealth and number of servants. Roman Villas provides a meticulously documented and scholarly examination of the relationship between the living quarters of the Roman and their social and economic development which introduces a new area in Roman studies and a corpus of material for further analysis. The inclusion of almost 500 ground plans, drawn to a uniform scale, allows the reader to compare the similarities and differences between house structure as well as effectively illustrating the arguments.

All the Laws but One William H. Rehnquist, 2007-12-18 In *All the Laws but One*, William H. Rehnquist, Chief Justice of the United States, provides an insightful and fascinating account of the history of civil liberties during wartime and illuminates the cases where presidents have suspended the law in the name of national security. Abraham Lincoln, champion of freedom and the rights of man, suspended the writ of habeas corpus early in the Civil War—later in the war he also imposed limits upon freedom of speech and the press and demanded that political criminals be tried in military courts. During World War II, the government forced 100,000 U.S. residents of Japanese descent, including many citizens, into detainment camps. Through these and other incidents Chief Justice Rehnquist brilliantly probes the issues at stake in the balance between the national interest and personal freedoms. With *All the Laws but One* he significantly enlarges our understanding of

how the Supreme Court has interpreted the Constitution during past periods of national crisis--and draws guidelines for how it should do so in the future.
