

Tencent Technology (Shenzhen) Company Ltd.

WIPO

Tencent Min Tang,2019-07-04 In this book, author Min Tang examines the political economy of the China-based leading global Internet giant, Tencent. Tracing the historical context and shaping forces, the book illuminates Tencent's emergence as a joint creation of the Chinese state and transnational financial capital. Tencent reveals interweaving axes of power on different levels, particularly interactions between the global digital industry and contemporary China. The expansion strategies Tencent has employed—horizontal and vertical integration, diversification and transnationalization—speak to the intrinsic trends of capitalist reproduction and the consistent features of the political economy of communications. The book also pinpoints two emerging and entangling trends—transnationalization and financialization—as unfolding trajectories of the global political economy. Understanding Tencent's dynamics of growth helps to clarify the complex nature of China's contemporary transformation and the multifaceted characteristics of its increasingly globalized Internet industry. This short and highly topical research volume is perfect for students and scholars of global media, political economy, and Chinese business, media and communication, and society.

Landmark Copyright Cases in China Luo Dongchuan,2018-11-20 With China's third major amendment of its Copyright Law now well underway, the international significance of China's handling of copyright matters comes into clearer focus. This book, an English translation of Chief Judge Luo Dongchuan's recent selection and detailed analysis of twenty-five landmark copyright cases decided by the Chinese courts in the past few years, provides an in-depth understanding of the fundamental theories of copyright as interpreted in current Chinese jurisprudence and of the sophisticated balance of interests among copyright owners, communicators of works and the public domain in China. Following a comprehensive introductory chapter on the Chinese copyright system, both administrative and judicial, the presentation proceeds with annotated English texts of cases that determine the nature of a copyrightable work and elaborate on how copyright may be infringed under Chinese law. The subject matter of the cases includes such typical internationally important elements as the following: • architectural works; • sport; • music videos; • typeface libraries; • technical standards; • expressions of folklore; • Internet TV; • liability of service providers; • online rebroadcast; • revision of computer software; and • layout designs of integrated circuits. In addition to the texts and Dr. Luo's analyses, each case study includes comments from the exact judge of the particular case offering the reasoning for the decision. The value of this book to non-Chinese enterprises and individuals with Chinese connections or prospects is immeasurable. There are no peers for this book. Every professional, official, policymaker or academic interested in international copyright will welcome its prodigious first-hand communication about one of the most crucial aspects of global trade relations.

The Practitioner's Guide to Antitrust in China Becky Nao Koblitz,2015-08-27 Management and legal counsel of foreign companies operating in China as well as those outside China with Chinese business desperately need to keep up with the fast-paced antitrust developments in the most dynamic market in the world. The author of this book, Becky Koblitz, is a seasoned antitrust lawyer for a major U.S. law firm in Beijing. She has decades of legal experience as a prosecutor at the Antitrust Division of the U.S. Department of Justice, as well as in-house counsel for a German subsidiary of a major American real estate development company and as a lawyer at law firms globally. Her rich experience in the U.S., Europe and China, now often regarded as the three centers of global antitrust, makes her the perfect candidate to write a book on China's antitrust development. Her book is a quick read that tells what there is to know about China's antitrust enforcement and includes practical advice and examples for the various aspects of antitrust: dealing with competitors, dealing within the supply chain, mergers, etc. She writes in a straight-forward language such that non-antitrust lawyers can get beyond stock phrases like illicit price coordination, abuse of dominance, or unilateral effect. Her book is a valuable and practical cookbook for antitrust compliance training and beyond. Another feature of the book is that it provides both legal and economic perspectives on antitrust analysis in China, which is important given that economic analysis is increasingly adopted by China's antitrust agencies and the Chinese courts. Thus understanding the logic and methodology behind economic analysis as applied to Chinese cases is key to conducting proper antitrust legal analysis that is tailored to the Chinese context. To write a book on the burgeoning antitrust enforcement and practice for the constantly evolving Chinese market is a real challenge. The trick, and it is not as easy as you would think, is to write simple declarative sentences, understandable to the antitrust layman, and at the same time not lose the rigor of antitrust analysis. I think this relatively short book is a remarkable achievement in meeting such a challenge, but I invite you to judge for yourself.

Selected Cases from the Supreme People's Court of the People's Republic of China Law Press China for,2019-11-08 This volume includes guiding cases of the Supreme People's Court, cases deliberated on by the Judicial Council/Committee of the Supreme People's Court, and cases discussed at the Joint Meetings of Presiding Judges from the various tribunals. This book is divided into four sections, including Cases by Justices, Selected Judicial Opinion(s), "Hot Cases" and "Typical Cases", which will introduce readers to Chinese legal processes, legal methodologies and ideology in an intuitive, clear, and accurate manner. This volume presents cases selected by the trial departments of the Supreme People's Court of China from their concluded cases. In order to give full weight to the legal value and social functions of cases from the Supreme People's Court, and to achieve the goal of "serving the trial practices, serving economic and social development, serving legal education and legal scholarship, serving international legal exchanges among

Chinese and foreign legal communities and serving the rule of law in China”, the China Institute of Applied Jurisprudence, with the approval of the Supreme People’s Court, opted to publish “Selected Cases from the Supreme People’s Court of the People’s Republic of China” in both Chinese and English, for domestic and overseas distribution.

Proceedings of the 2022 3rd International Conference on Modern Education and Information Management (ICMEIM 2022) Vishalache Balakrishnan,Intakhab Alam Khan,Mehmet Cüneyt Birkök,2023-02-10 This is an open access book. As the process of social modernization continues to advance, people realize that the key to social modernization is the modernization of people, and the modernization of people is inseparable from the modernization of education. It can be seen that education modernization is the foundation of social modernization. Education modernization is an important reform direction of education development, including modernization of education concept, modernization of education content, modernization of education equipment, modernization of teachers and modernization of education management. And information management is one of the important methods to realize education modernization Information management is the social activity of planning, organizing, leading and controlling information resources by means of modern information technology in order to effectively develop and utilize information resources. Simply put, information management is the management of information resources and information activities by human beings. Information management is a general term for the information that people collect, process and input and output in the whole management process. The process of information management includes information collection, information transmission, information processing and information storage. Using the new generation of information management technology to enhance the digitalization, networking and intelligence of education management, promote the transformation of education decision-making from experience-driven to data-driven, education management from one-way management to collaborative governance, education service from passive response to active service, and support the modernization of education governance system and governance capacity with information technology. Focusing on education and information management with modernization, this conference provides a platform for scholars in related fields to exchange and share information, discuss how the two affect each other, and: Promote the modernization of education by studying certain educational issues that exist. Open up new perspectives, broaden horizons, and examine the issues under discussion by participants. Create a forum for sharing, research and exchange at an international level, where participants will be informed of the latest research directions, results and content in different fields, thus inspiring them to come up with new research ideas. For those who cannot attend the conference, papers in the social sciences and humanities will be accepted and published in the form of conference proceedings.

Patent Cooperation Treaty Yearly Review 2022 World Intellectual Property Organization, Comprehensive facts, figures and analysis of the international patent system. Special theme: How the COVID-19 crisis affected PCT application filings.

WIPO Collection of Leading Judgments on Intellectual Property Rights (English and Chinese version) World Intellectual Property Organization,2019-11-18 This casebook of judgments by the Supreme People’s Court of the People’s Republic of China is the first volume in the WIPO Collection of Leading Judgments on Intellectual Property Rights. The WIPO Collection gives the global intellectual property community access to landmark judgments from some of the most dynamic litigation jurisdictions of the world, through a succession of volumes that illustrate intellectual property adjudication approaches and trends by jurisdiction or by theme.

Competition Law in China Jingyuan Ma,2020-05-13 This book offers a comprehensive introduction to the developmental history and structural framework of Chinese competition law from a law and economics perspective. It examines the philosophical foundations, the substantive law, and enforcement issues concerning competition law and policy in China by pursuing an economic and comparative approach. Further, the book presents and analyzes competition cases involving monopolistic agreements, abuse of dominant position, and concentration. The book will help professionals and business practitioners to understand the distinct features of competition law and policy in China, and how the substance and enforcement of the law can be compared with competition regulations in the US and EU from an economic perspective. Given its scope, it offers a valuable guide for academic, public sector and professional audiences alike, and will appeal to researchers, students and anyone with an interest in economic law and policy in China. The book can also be used as reading material to accompany courses such as China’s Competition Law and Policy, Comparative Competition Law, and Market Regulation in China for foreign students studying Chinese law and policy at the undergraduate, graduate and doctoral levels.

Corporate Financialization Marcelo José do Carmo,Mário Sacomano Neto,Julio Cesar Donadone,2023-03-30 The economic process of financialization is defined by many as the development of the dependence and subordination of the productive sector to the financial sector. Leading to an emphasis on maximizing shareholder value above all else, the financialization of the economy and production has an enormous impact on the everyday life of ordinary people including the erosion of employment right, the rise of precarious work, and rising inequalities. Using multicase study research and an exploratory approach, this book analyzes the financialization process in the ten companies with the highest market capitalization worldwide including tech firms, oil companies and banks. This book analyzes indicators of financialization in large corporations including a comparison between profitability sources; shareholding structure, acquisitions and sales of shares; mergers and acquisitions; the origins of directors; payment of

compensation to executives; dividend payments to shareholders and stock repurchases; employee salaries; and employment levels. The data demonstrates that what would once have been considered non-core business activities have become more profitable than core business activities in many of these companies. In some cases, these companies are responsible for large investment funds and financial-type institutions which already surpass the largest banks in terms of assets under management. Meanwhile, the average salaries at some of these companies have been falling in real terms due to the rise of outsourcing and the use of cheap or precarious labour. Adopting an economic sociology approach, this book marks a significant contribution to the literature on financialization in economics, sociology and business.

Patent Cooperation Treaty Yearly Review – 2020 WIPO,2020-07-15 Comprehensive facts, figures and analysis of the international patent system. Special theme: The top 50 PCT clusters.

Patent Cooperation Treaty Yearly Review 2023 World Intellectual Property Organization,2023-06-08 Comprehensive facts, figures and analysis of the international patent system.

China's Anti-Monopoly Law Adrian Emch,David Stallibrass,2013-07-01 It probably goes without saying that anti-monopoly law and practice are of very recent vintage in China. In August 2008, 118 years after the Sherman Act and 50 years after the Treaty of Rome, China's Anti-Monopoly Law (AML) came into effect. Since then the enforcement of the AML has seen significant progress as well as considerable challenges. This volume, comprised of 27 highly informative contributions by more than 40 government officials, academics, economists, in-house lawyers, and private practitioners, introduces novice practitioners to the complexities of antitrust law in China and provides new insight for those already working in the field. Generally following the structure of the text of the AML, topics and issues covered include the following: an overview of the first five years of AML implementation; the institutional framework for antitrust enforcement in China; monopoly agreements between market players; abuses of dominance committed by a single company; problems and potential solutions for information exchanges between competitors; the economics underlying retail price maintenance; refusals to deal; procedural and substantive practice of merger decisions; the application of merger control to joint ventures; 'administrative monopolies' and the tension between competition and industrial policies; ways to seek legal redress; litigation (both administrative and civil) and the role of the courts; international cooperation efforts made in relation to Chinese antitrust enforcers; the relationship between the AML and China's anti-bribery rules; the treatment of vertical integration or cooperation; and how the AML rules apply to intellectual property rights. Throughout the book there are analyses of major judgments with key conclusions to be drawn from them, as well as comparisons with corresponding judgments in other jurisdictions. This book is the first comprehensive analysis of the AML, and as such will be of inestimable value to business persons and in-house counsel, as well as to academics in Chinese law and competition law from a global perspective.

Design, User Experience, and Usability: Design Thinking and Practice in Contemporary and Emerging Technologies Marcelo M. Soares,Elizabeth Rosenzweig,Aaron Marcus,2022-06-16 This book constitutes the refereed proceedings of the 11th International Conference on Design, User Experience, and Usability, DUXU 2022, held as part of the 23rd International Conference, HCI International 2022, which was held virtually in June/July 2022. The total of 1271 papers and 275 posters included in the HCII 2022 proceedings was carefully reviewed and selected from 5487 submissions. The DUXU 2022 proceedings comprise three volumes; they were organized in the following topical sections: Part I: Processes, Methods, and Tools for UX Design and Evaluation; User Requirements, Preferences, and UX Influential Factors; Usability, Acceptance, and User Experience Assessment. Part II: Emotion, Motivation, and Persuasion Design; Design for Well-being and Health.- Learning Experience Design; Globalization, Localization, and Culture Issues. Part III: Design Thinking and Philosophy; DUXU Case Studies; Design and User Experience in Emerging Technologies.

China's WTO Accession Reassessed Wang Luolin,2015-02-20 China's accession to the World Trade Organisation in 2001 was a highly significant event both for China and for the wider world. This book argues that, although at the time some people doubted the likely benefits, China's WTO accession has been highly successful. It discusses how China has abided by its commitment to WTO terms and how WTO membership has contributed to China's reform and opening up; explores how vastly increased co-operative exchange with many countries around the world has been mutually beneficial in a range of fields including trade, science and culture; and shows how China's WTO membership has been a great stimulus both for China's economy and the world economy. The book considers the subject from a number of perspectives, and draws out lessons for future reform and development for China, and for China's relations with the rest of the world, emphasising the need to maintain a win-win approach.

World Intellectual Property Indicators, 2017 World Intellectual Property Organization,2017-12-12 An authoritative annual survey of IP activity around the globe. As well as filing, registration and maintenance of patents, utility models, trademarks, industrial designs, microorganisms and plant variety protection, the 2017 edition also covers geographical indications for the first time, making it even more comprehensive. A special section on the operational performance of patent offices takes an in-depth look at application processing times, examination capacity and examination outcomes.

World Intellectual Property Indicators 2016 World Intellectual Property Organization,2016-11-23 A comprehensive picture of IP activity around the world based on statistics from national and regional IP offices, WIPO and the World Bank. Covers filing, registration and renewals data for patents, utility

models, trademarks, industrial designs, microorganisms and plant variety protection. Also includes an analysis of participation by women inventors in international patenting.

Privacy and Data Protection Law in China Chengxin Peng,Guosong Shao,2024-02-18 Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical guide to privacy and data protection law in China covers every aspect of the subject, including the protection of private life as a fundamental – constitutional – right, the application of international and/or regional conventions protecting the right to privacy, privacy rights in the context of electronic communications or at the workplace, and the protection of individuals regarding the processing of personal data relating to them. Following a general introduction about the country, the monograph assembles its information and guidance in two parts: (1) protection of privacy, including national case law regarding the protection of this fundamental right, specific legislation on the confidentiality of interpersonal communications, and sector-specific rules regarding privacy protection, such as privacy rights of employees, patients, consumers or celebrities; (2) personal data protection, including not only general rules on data quality, legitimate processing, data retention, data subject rights, security and accountability, but also specific provisions regarding the processing of health data or other sensitive personal information, further processing for research purposes, exemptions for law enforcement or national security purposes, and rules regarding liabilities, sanctions and redress.

The Chinese Anti-Monopoly Law Michael Faure,Xinzhu Zhang,2013-01-01 This book focuses on experiences with the Anti-Monopoly Law (AML) of 2007 in China. It uses carefully-chosen case studies to examine how the competition authorities in China discuss cases and how they use economic reasoning in their decision-making process. Bringing together comparative perspectives, the expert contributors discuss the practice of the Anti-Monopoly Law in China from the viewpoints of European and American competition policy. Several very current topics are given specific attention, including enforcement, the role of the state, how to define the relevant market and how to apply the AML to regulated industries. The book also indicates the scope for mutual learning on how to improve the AML. The Chinese Anti-Monopoly Law will appeal to competition lawyers, attorneys-at-law dealing with economic law generally, civil servants and policy makers, comparative lawyers and social scientists with an interest in developments in China.

Digital Transformation of Private Equity in China Ruihui Xu,Dawei Zhao,2023-12-29 This book studies and discusses the current situation and development trend of technology application in the private equity industry of China. This book provides answers to the following questions that are critical concerns of the industry. For applications of technologies in enhancing financial service quality and efficiency, how to introduce digital technologies into the business innovation and operation management process of the private equity industry? How can digital technology be used to promote the comprehensive digital transformation of the private equity industry? For regulation of the private equity industry, how to utilize digital technology to improve the regulatory means and tools of the private equity industry. How to use digital technology to prevent the risk of the private equity industry? The answers to the questions have theoretical significance and practical value for healthy development and supervision of private equity industry in China. China's private equity industry has made significant progress and attained remarkable achievements after more than 30 years of development, especially with the advancement of China's capital market reform. This book provides an overview of the private equity industry and a study of digital technology applications such as the Internet, big data, artificial intelligence, and blockchain. It is a valuable reference for researchers and practitioners in related fields, and it also sheds light on technology applications for practitioners and financial regulators in the private equity industry in China.

High Wire Angela Huyue Zhang,2024-04-09 High Wire provides a novel and comprehensive analysis of how China regulates its tech sector and more broadly governs its economy. It focuses on electronic platform regulation in three key areas: antitrust, data, and labor. It also explains how Chinese platforms regulate themselves outside of state control, and how the two modes--public and self-regulation--interact. Finally, High Wire shows how the current tech crackdown in China is shaping the country's transition from soft-tech to hard-tech and considers how China will regulate the rapidly expanding field of generative artificial intelligence.
