*The Way It Was* Duane C. Spriestersbach, 1999-04-01 The fall of 1964 was an exciting time at the University of Iowa. Its fourteenth president, Howard Bowen, had just arrived, and on a sunny October afternoon he made his first speech to the faculty. This occasion was note worthy enough—former president Virgil Hancher had held the job for twenty-four years—to attract the attention of a professor of speech pathology who had previously confined his considerable energies to teaching and research. Bowen's vision of what the university could become was so intriguing, so compelling, that this professor wrote and offered to help him achieve his objectives in any way possible. This quixotic offer changed Duane Spriestersbach's life and becomes the starting point for his story of his years as a University of Iowa administrator. Drawing upon his personal files, the university archives, and interviews with many faculty members and administrators, Spriestersbach has created both an institutional and a personal history of the university. Judged by any standard, these years were tumultuous ones for higher education. Economic pressures from the state legislature, issues surrounding grants from such agencies as the National Institutes of Health and the National Science Foundation, the civil rights movement, student and faculty protests during the Vietnam era, massive changes in the physical and administrative shape of the campus, and the computerization of all parts of campus life had far-reaching consequences. Spriestersbach was at the center of these events at the University of Iowa; his perspective is unique, refreshing, and educational. Spriestersbach's account of the Vietnam years and of the evolution of computers at Iowa will be particularly interesting to readers. He reported to four presidents, served as acting

president, managed hundreds of meetings both dramatic and mundane, and reacted to many administrative restructurings. In this story of his life at the University of Iowa, he reveals the truth behind these words from his 1964 letter to President Bowen: "I think I am an idealist, a person with imagination, and a guy in a hurry. I believe investigation will show that I am a person with competitive administrative and executive abilities."

*The University of Iowa Guide to Campus Architecture, Second Edition* John Beldon Scott, Rodney P. Lehnertz, 2016-09-15 In this guide to the University of Iowa's architecture, revised and updated to reflect the numerous changes following the 2008 flood, John Beldon Scott and Rodney P. Lehnertz discuss and illustrate an ensemble of buildings whose stylistic diversity reflects the breadth of Iowa's contributions to research, education, and creative activities. Current students and their parents, alumni, and professional and amateur architecture enthusiasts will appreciate this informative tour of the university's distinctive campus.

Knowing Where It Comes From Fabio Parasecoli, 2017-08-15 Offering the first broadly comparative analysis of place-based labeling and marketing systems, *Knowing Where It Comes From* examines the way claims about the origins and meanings of traditional foods get made around the world, from Italy and France to Costa Rica and Thailand. It also highlights the implications of different systems for both producers and consumers. Labeling regimes have moved beyond intellectual property to embrace community-based protections, intangible cultural heritage, cultural landscapes, and indigenous knowledge. Reflecting a rich array of juridical, regulatory, and activist perspectives, these approaches seek to level the playing field on which food producers and consumers interact.

Iowa's Minerals Paul Garvin,2010-09-13 In his carefully written text, geologist Paul Garvin has combined scientific facts about minerals with an appreciation of their history and beauty to produce a book that will appeal to scholars, collectors, and the general public. Garvin begins with a brief treatment of the origins of Iowa's minerals, moving from the oldest - with ages well in excess of a billion years - to those most recently formed. He describes the state's major mineral occurrences, providing detailed information for both specialists and amateurs, including how to obtain access to collecting sites. A history of Iowa's mineral industries complements Garvin's more technical information; this history is supplemented with stories about the Cardiff Giant (who now has his own web page), Ottumwa's Coal Palace, and the meteor falls of the late nineteenth century.

**Old Capitol** Margaret N Keyes,2001-11 Built between 1839 and 1842, the domed structure of Iowa City's Old Capitol served as the third territorial capitol and the first state capitol of Iowa. In 1857, when the state government was moved to Des Moines, Old Capitol became the first building of the new University of Iowa. It remains today the centerpiece of this handsome campus. The story of its history and restoration, told in this elegantly illustrated book, is an intriguing account of historical architectural detection. Using primary sources, including manuscripts, vouchers, account books, newspaper stories, correspondence, and documents from the National Archives and Iowa repositories, Margaret Keyes portrays the major events of the total history of Old Capitol since its site was determined.

The Generic Closet Alfred L. Martin, Jr.,2021-04-06 Even after a rise in gay and Black

representation and production on TV in the 1990s, the sitcom became a generic closet, restricting Black gay characters with narrative tropes. Drawing from 20 interviews with credited episode writers, key show-runners, and Black gay men, *The Generic Closet* situates Black-cast sitcoms as a unique genre that uses Black gay characters in service of the series' heterosexual main cast. Alfred L. Martin, Jr., argues that the Black community is considered to be antigay due to misrepresentation by shows that aired during the family viewing hour and that were written for the imagined, traditional Black family. Martin considers audience reception, industrial production practices, and authorship to unpack the claim that Black gay characters are written into Black-cast sitcoms such as *Moesha*, *Good News*, and *Let's Stay Together* in order to closet Black gayness. By exploring how systems of power produce ideologies about Black gayness, *The Generic Closet* deconstructs the concept of a monolithic Black audience and investigates whether this generic closet still exists.

**Trade and Taboo** Sarah Bond, 2016-10-25 Applies new methodological approaches to the study of ancient history

**A Pictorial History of the University of Iowa** John C. Gerber, 2005 The founders of the new state of Iowa in 1847 waited only fifty-nine days to charter a university. Eight years later the first classes were held in a rented building, still very much on the edge of the western frontier, surrounded by prairie and pastureland. It is difficult to imagine such a scene today compared to the University of Iowa's contemporary setting, with its 26,000 students, its 250-plus buildings, huge medical complex, performing arts campus, and athletic facilities, all clustered around the grand centerpiece of the Old Capitol. First published in 1988, this gracefully written pictorial narrative

deftly compresses the history of this distinguished institution into a readable and entertaining text enriched by an impressive selection of over 350 photographs gleaned from the university's archives. Photos and text capture Iowa's major research accomplishments--in space exploration, medical research, educational testing, and the ground-breaking advanced degree programs for creative work in all the arts--as well as the many great moments in Hawkeye sports. Also included is an account of the evolution of the institution itself, of the significant teachers and administrators who guided the university's progress through world wars, periods of intense social upheaval, and the more tranquil years of strength and growth. With an all-new album of fifty color photos that both celebrate and define the last twenty years of the university's history, the expanded paperback edition of this classic book is an enduring testament to the unique character of the University of Iowa, its strong commitment to education, research, and the creative arts, and its remarkable service to the state.

**University of Northern Iowa** Gerald L. Peterson, 2000 The University of Northern Iowa has evolved from its humble beginnings in 1876 as a normal school with 27 students to a thriving educational community with a student body of over 13,000. But as this pictorial history vividly depicts, its founding principles have remained the same: a commitment to high-quality education, an impressive teaching staff, and eager students with a desire to learn. Originally established in a former home for the orphans of Iowa's Civil War veterans, the University of Northern Iowa has matured from a small teacher's college to the university which is internationally known today. Inspired leadership from university presidents helped bridge this transition, and to give guidance to an institution deeply affected by the Great Depression, emerging only to face new challenges brought on by World War II. WAVES and US Army Air Corps personnel trained here, and GIs were educated upon their return from service. Civil Rights, the anti-war movement, and the technology

revolution all helped shape the university into the excellent institution it is today.

Iowa's Remarkable Soils Kathleen Woida,2021-05 In language that is scientifically sound but accessible to the layperson, Kathleen Woida explains how Iowa's soils formed and have changed over centuries and millennia. Its soils are what make Iowa a premier agricultural state, both in terms of acres planted and bushels harvested. But in the last hundred years, large-scale intensive agriculture and urban development have severely degraded most of our soils. However, as Woida documents, some innovative Iowans are beginning to repair and regenerate their soils by treating them as the living ecosystem and vast carbon store that they are.

Replanting Cultures Chief Benjamin J. Barnes,Stephen Warren,2022-09-01 Replanting Cultures provides a theoretical and practical guide to community-engaged scholarship with Indigenous communities in the United States and Canada. Chapters on the work of collaborative, respectful, and reciprocal research between Indigenous nations and colleges and universities, museums, archives, and research centers are designed to offer models of scholarship that build capacity in Indigenous communities. Replanting Cultures includes case studies of Indigenous nations from the Stó:lō of the Fraser River Valley to the Shawnee and Miami tribes of Oklahoma, Ohio, and Indiana. Native and non-Native authors provide frank assessments of the work that goes into establishing meaningful collaborations that result in the betterment of Native peoples. Despite the challenges, readers interested in better research outcomes for the world's Indigenous peoples will be inspired by these reflections on the practice of community engagement.

**The Butterflies of Iowa** Dennis W. Schlicht,John C. Downey,Jeffrey C. Nekola,2007-05-01 This beautiful and comprehensive guide, many years in the making, is a manual for identifying the butterflies of Iowa as well as 90 percent of the butterflies in the Plains states. It begins by providing

information on the natural communities of Iowa, paying special attention to butterfly habitat and distribution. Next come chapters on the history of lepidopteran research in Iowa and on creating butterfly gardens, followed by an intriguing series of questions and issues relevant to the study of butterflies in the state. The second part contains accounts, organized by family, for the 118 species known to occur in Iowa. Each account includes the common and scientific names for each species, its Opler and Warren number, its status in Iowa, adult flight times and number of broods per season, distinguishing features, distribution and habitat, and natural history information such as behavior and food plant preferences. As a special feature of each account, the authors have included questions that illuminate the research and conservation challenges for each species. In the third section, the illustrations, grouped for easier comparison among species, include color photographs of all the adult forms that occur in Iowa. Male and female as well as top and bottom views are shown for most species. The distribution maps indicate in which of Iowa's ninety-nine counties specimens have been collected; flight times for each species are shown by marking the date of collection for each verified specimen on a yearly calendar. The book ends with a checklist, collection information specific to the photographs, a glossary, references, and an index. The authors' meticulous attention to detail, stimulating questions for students and researchers, concern for habitat preservation, and joyful appreciation of the natural world make it a valuable and inspiring volume.

You Never Get It Back Cara Blue Adams, 2021-12-15 The linked stories in Cara Blue Adams's precise and observant collection offer elegantly constructed glimpses of the life of Kate, a young woman from rural New England, moving between her childhood in the countryside of Vermont and her twenties and thirties in the northeast, southwest, and South in pursuit of a vocation, first as a research scientist and later as a writer. Place is a palpable presence: Boston in winter, Maine in

summer, Virginia's lush hillsides, the open New Mexico sky. Along the way, we meet Kate's difficult bohemian mother and younger sister, her privileged college roommate, and the various men Kate dates as she struggles to define what she wants from the world on her own terms. Wryly funny and shot through with surprising flashes of anger, these smart, dreamy, searching stories show us a young woman grappling with social class, gender, ambition, violence, and the distance between longing and having.

**We Heard It When We Were Young** Chuy Renteria, 2021-11-01 Most agree that West Liberty is a special place. The first majority Hispanic town in Iowa, it has been covered by media giants such as Reuters, Telemundo, NBC, and ESPN. But Chuy Renteria and his friends grew up in the space between these news stories, where a more complicated West Liberty awaits. *We Heard It When We Were Young* tells the story of a young boy, first-generation Mexican American, who is torn between cultures: between immigrant parents trying to acclimate to midwestern life and a town that is, by turns, supportive and disturbingly antagonistic. Renteria looks past the public celebrations of diversity to dive into the private tensions of a community reflecting the changing American landscape. There are culture clashes, breakdancing battles, fistfights, quinceañeras, vandalism, adventures on bicycles, and souped-up lowriders, all set to an early 2000s soundtrack. Renteria and his friends struggle to find their identities and reckon with intergenerational trauma and racism in a town trying to do the same. A humorous and poignant reflection on coming of age, *We Heard It When We Were Young* puts its finger on a particular cultural moment at the turn of the millennium.

*Farm House* Mary E. Atherly, 2009-08-01 Now available for the first time in paperback, *Farm House* tells the story of the first structure built on the Iowa State University campus. Mary Atherly provides a comprehensive history of the Farm House from its founding days to its role as the center

of activity for the new college to its second life as a welcoming museum visited by thousands each year. This second edition includes a discussion of the archaeological dig of 1991, which carefully excavated the area under the Farm House, and thoroughly documents the extensive renovation and reconstruction of the exterior of the house during the 1990s. New photographs add to the first edition's rich array of images and a foreword by Gregory Geoffroy, ISU's president since 2001, adds to its historical content. The history of Iowa's only land-grant university and its impressive cultural and educational impact on the state and the nation as it evolved from model farm to college to modern multipurpose university is inseparable from the history of the Farm House.
