Marine Ornamental Shrimp Ricardo Calado,2009-03-16 Marine ornamental shrimp are amongst the most heavily traded invertebrate species in the aquarium industry. The majority of traded species are still collected from the wild, having a major effect on ocean ecosystems. An increase in the amount of culture of these species is now a major priority for those in the trade and for marine conservationists. Marine Ornamental Shrimp provides a global overview of the biology, culture and conservation of the major families of marine ornamental shrimp. Coverage in this thorough volume includes ecological aspects, reproductive biology, major techniques used in culture systems for maturation, larviculture, and juvenile growth, and details of the main conservation issues surrounding these important species including a discussion of the negative aspects of wild specimen collection and the ongoing efforts to mitigate such impacts. Marine Ornamental Shrimp is an important and extremely timely publication which will be an essential reference and manual for all those involved in the trade and culture of marine ornamental species, including aquaculture scientists and personnel in aquaria. Conservation biologists and invertebrate zoologists will also find much of importance within this book. Libraries in all universities and research establishments where aquaculture and biological sciences are studied and taught should have copies of this book on their shelves.

The United States and the Transatlantic Slave Trade to the Americas, 1776–1867 Leonardo Marques,2016-10-25 An investigation of US participation in the transatlantic slave trade to the Americas, from the American Revolution to the Civil War While much of modern scholarship has focused on the American slave trade's impact within the United States, considerably less has addressed its effects in other parts of the Americas. A rich analysis of a complex subject, this study draws on Portuguese, Brazilian, and Spanish primary documents—as well as English-language material—to shed new light on the changing behavior of slave traders and their networks, particularly in Brazil and Cuba. Slavery in these nations, as Marques shows, contributed to the mounting tensions that would ultimately lead to the U.S. Civil War. Taking a truly Atlantic perspective, Marques outlines the multiple forms of U.S. involvement in this traffic amid various legislation and shifting international relations, exploring the global processes that shaped the history of this participation.

Address in Portuguese and Spanish Martin Hummel,Célia dos Santos Lopes,2020-07-20 The volume provides the first systematic comparative approach to the history of forms of address in Portuguese and Spanish, in their European and American varieties. Both languages share a common history—e.g., the personal union of Philipp II of Spain and Philipp I of Portugal; the parallel colonization of the Americas by Portugal and Spain; the long-term transformation from a feudal to a democratic system—in which crucial moments in the diachrony of address took place. To give one example, empirical data show that the puzzling late spread of Sp. usted 'you (formal, polite)' and Pt. você 'you' across America can be explained for both languages by the role of the political and military colonial administration. To explore these new insights, the volume relies on an innovative methodology, as it links traditional downstream diachrony with upstream diachronic reconstruction based on synchronic variation. Including theoretical reflections as well as fine-grained empirical studies, it brings together the most relevant authors in the field.

Lançar luzes e facilitar a compreensão, extraídas da interpretação jurisprudencial da Corte Superior, acerca de temas jurídicos e nuances relacionadas ao direito fundamental aos alimentos é de

extrema relevância, tanto para os estudos acadêmicos como para os profissionais atuantes na magistratura, na advocacia e nas demais áreas de atividades orientadas para o Direito de Família, ramo da ciência jurídica em que a juridicidade convive com emoções intensas e conflitos de elevada sensibilidade e complexidade. No desempenho de sua missão constitucional de uniformizar a interpretação do ordenamento jurídico federal em todo o Brasil, o Superior Tribunal de Justiça é constantemente desafiado a buscar novas soluções para tensionadas relações jurídicas familiares veiculadas em milhares de ações de alimentos, que ali aportam em grau recursal, sendo enfrentadas por meio de abordagens criativas e diversificadas, com o fim de colaborar para a prestação jurisdicional mais humana, eficaz e adequada. Esta obra coletiva, em volume dedicado aos aspectos precípuos processuais, traz claras mostras de como a cooperação, a diversidade e o senso de originalidade podem contribuir para o aprimoramento do conhecimento e da prática do Direito de Família relacionado aos alimentos em perspectiva judicatória. Escritos por profissionais provenientes de diversos estados da Federação e com matizadas atribuições, os textos que a compõem abordam assuntos polêmicos e atuais, sempre acompanhados do posicionamento prevalente no Superior Tribunal de Justiça a tal respeito. Souto de Moura Francesco Dal Co,Nuno Graça Moura,2019-10-22 I look beyond solution; I look for an expression.--Eduardo Souto de Moura The architect Eduardo Souto de Moura (b. 1952) has won many accolades, including the 2011 Pritzker Architecture Prize. Based in Porto, Souto de Moura studied under Fernando Távora and worked under fellow Portuguese architect Álvaro Siza, with whom he continues to collaborate. Souto de Moura established his own practice in 1980, and his wide-ranging influences, including Mies van der Rohe and Donald Judd, can be seen in the stunning variety of his work, from his acclaimed private houses, to the striking Paula Rego Museum in Cascais and the Braga Municipal Stadium, to his work in historical contexts such as the Convento das Bernardas in Tavira. This beautifully illustrated retrospective provides the most comprehensive account of Souto de Moura's career to date. Drawings, notes and sketches from his archive, and newly commissioned photographs complement essays by scholars and prominent architects that trace Souto de Moura's career, contextualize his work within the larger trends of contemporary international architectural culture, and highlight the originality of his design strategy.

Imminent Commons: Urban Questions for the Near Future Hyungmin Pai,Alejandro Zaera-Polo,2022-02-04 The cities of the world stand at a crossroads. Amidst radical social, economic, and technological transformations, will the city become a driving force of creativity, diversity, and sustainability, or will it be a mechanism of inequality, despair, and environmental decay? At this critical moment, where do the stakes lie and what are the agents of change? From the time of its birth, the city has been held together by the commons. The book includes essays by Alejandro Zaera, Hyungmin Pai, Maider Llaguno, Nerea Calvillo, Hyewon Lee, Lindsay Bremner, Alex Ivancic, Iñaki Abalos, Charles Waldheim, David Gissen, Carlo Ratti, Daniele Belleri, Antoine Pico, Saskia Saseen, Adam Greenfield, Jesse LeCavalier, Philip Rode, Duncan McLaren, Julian Agyeman, Gunter Pauli, Gramazio and Kohler, Mario Carpo, Dirk E. Hebel, Marta H. Wisniewska, Felix Heisel, Mitchell Joachim, and Christian Hubert. The first publication of the Seoul Biennale of Architecture and Urbanism 2017, proposes a framework that sets basic commons ? an evolving network of agencies, resources and technologies ? as the critical issue in the move towards a sustainable and just urbanism. It shows an exploration not of distant utopias, but of the very near future, because the emerging commons is changing the way we connect, make, move, recycle, sense, and share, and the way we manage air, water, energy and the earth. Whether met with fear or hope, they will very soon change the way we live in the city.
