

TinyCo, Inc.

United States. Congress. House. Committee on Agriculture

Federal Trade Commission Privacy Law and Policy Chris Jay Hoofnagle,2016-02-09 The Federal Trade Commission, a US agency created in 1914 to police the problem of 'bigness', has evolved into the most important regulator of information privacy - and thus innovation policy - in the world. Its policies profoundly affect business practices and serve to regulate most of the consumer economy. In short, it now regulates our technological future. Despite its stature, however, the agency is often poorly understood by observers and even those who practice before it. This volume by Chris Jay Hoofnagle - an internationally recognized scholar with more than fifteen years of experience interacting with the FTC - is designed to redress this confusion by explaining how the FTC arrived at its current position of power. It will be essential reading for lawyers, legal academics, political scientists, historians and anyone else interested in understanding the FTC's privacy activities and how they fit in the context of the agency's broader consumer protection mission.

Marc Andreessen Corona Brezina,2015-12-15 Netscape Navigator may no longer be a household name, but its creator, Marc Andreessen, has been one of the most ahead of his time go-getters in technology. This illuminating biography introduces readers to a technological pioneer, whose ideas consistently and boldly wandered well outside the box, creating more and more innovative products. Readers will be inspired by Andreessen's forward-thinking creations, including cloud-based technology as far back as the 1990s, and marvel at his bold, outspoken attitude on such social media platforms as Twitter.

**Advances in Computer Entertainment Technology** Adrian David Cheok,Masahiko Inami,Teresa Romão,2018-03-02 This book constitutes the refereed conference proceedings of the 14th International Conference on Advances in Computer Entertainment Technology, ACE 2017, held in London, UK, in December 2017. The 59 full papers presented were selected from a total of 229 submissions. ACE is by nature a multi-disciplinary conference, therefore attracting people across a wide spectrum of interests and disciplines including computer science, design, arts, sociology, anthropology, psychology, and marketing. The main goal is to stimulate discussion in the development of new and compelling entertainment computing and interactive art concepts and applications. The chapter 'eSport vs irlSport' is open access under a CC BY 4.0 license via link.springer.com.

*How to Play Video Games* Nina Huntemann,2019-03-26 Forty original contributions on games and gaming culture What does Pokémon Go tell us about globalization? What does Tetris teach us about rules? Is feminism boosted or bashed by Kim Kardashian: Hollywood? How does BioShock Infinite help us navigate world-building? From arcades to Atari, and phone apps to virtual reality headsets, video games have been at the epicenter of our ever-evolving technological reality. Unlike other media technologies, video games demand engagement like no other, which begs the question—what is the role that video games play in our lives, from our homes, to our phones, and on global culture writ large? How to Play Video Games brings together forty original essays from today's leading scholars on video game culture, writing about the games they know best and what they mean in broader social and cultural contexts. Read about avatars in Grand Theft Auto V, or music in The Legend of Zelda: Ocarina of Time. See how Age of Empires taught a generation about postcolonialism, and how Borderlands exposes the seedy underbelly of capitalism. These essays suggest that understanding video games in a critical context provides a new way to engage in contemporary culture. They are a must read for fans and students of the medium.

*Education for Library Cataloging* Dajin D. Sun,Ruth C. Carter,2013-10-28 Examine cataloging and classification training programs around the world Education for Library Cataloging: International Perspectives examines the global development of educational programs for cataloging and classification in the library and information field. Library school faculty and professional librarians from more than 20 countries discuss a wide range of topics, including formal school and continuing education of catalog librarians, education and training for paraprofessional staff in cataloging and technical services, changes in library school programs, and metadata and information organization instruction. Faculty members and seasoned librarians from Europe, Africa, Asia, Australia, Latin America, and the Middle East present case studies and overviews of library and information school programs, bibliographies of cited works in both Western and non-Western language literature, and plenty of helpful tables and charts. Articles presented in Education for Library Cataloging: International Perspectives are organized geographically to make it easier to check which countries are covered in each region, and to determine regional similarities and differences. Political, historical, cultural, religious, and linguistic factors were also considered to demonstrate the wide range of educational efforts and programs to cultivate cataloging professionals all over the world. Topics examined in Education for Library Cataloging: International Perspectives include: \* education and training development for librarians in the University of Botswana Library \* the library science school curricula in the Cross River State of Nigeria \* the training of students in cataloging via distant education in South Africa \* education programs in China \* the education for knowledge organization (including cataloging and classification) in India \* the current status of cataloging education in Japan \* on the job training of catalog librarians in South Korea \* the education for cataloging in Australia \* how catalog librarians are trained in Germany and Austria \* recent changes to the library education system in Poland \* a critical study of cataloging instruction within the library and information science programs in Spain \* a recent survey of graduate education and training for cataloging and classification in the United Kingdom \* an overview of the education for cataloging and classification in Mexico \* the current status of cataloging and classification education in Egypt \* recent changes to cataloging teaching in Israel \* the continuing education for catalogers in Saudi Arabia \* and much more Many of the articles presented in Education for Library Cataloging: International Perspectives document the initial efforts to introduce education for cataloging in particular countries, including Egypt and Japan. This book is an invaluable resource for library and information school educators, administrators, and students.
