Toddlers on Technology A. DeSollar, H Leathers, Patti Summers, 2013-04-08 TODDLERS ON TECHNOLOGY Does your toddler seem to know more about the iPad than you do? Welcome to the world of the Digitods: the young children born into the era of mobile technology. These kids are learning faster and better than any generation that has come before them. And they are loving it! Take a look at toddlers using an iPad. They are pictures of concentration. Their hands are moving and their eyes are constantly scanning the screen. They are in an active state of learning: their neurons are firing on all cylinders! It is not surprising that they find learning such an enjoyable activity, with the bright colors, interesting activities and cheery voices urging them on. Have you ever tried getting a Digitods attention when he is working with an iPad? It is not easy. Often, the child is so fixated on the work that he protests when he has to move on, even to something as interesting as a snack. It just underscores what teachers have always known. Good learning is addictive: the more you get, the more you want. Digitods are racing down the information superhighway and we have to be ready for them! But what does this entail? The answer to this ever-

important question lies within. Patti Wollman Summers has written the first book on the subject by an early childhood educator. Ms. Summers collaborates with Heather Ibrahim-Leathers, a mom who provides many practical tips, and Ann DeSollar-Hale, PhD, a neuropsychologist who gives a full account of the research so far in our Science section. Learn why interacting with an app is so fascinating to a young child. Discover what constitutes a good app, and how to match an app to your child's temperament and learning style. Read a description of many excellent apps in our App Reviews section, and learn how to balance your child's digital work with real-life, see-saw activities. For parents of children under six who are concerned about their child's development in a surprisingly unfamiliar world, *TODDLERS ON TECHNOLOGY* is a must-read! Dimensions of Iconicity Angelika Zirker, Matthias Bauer, Olga Fischer, Christina Ljungberg, 2017-09-08 This volume addresses five different Dimensions of Iconicity. While some contributions examine the phonic dimensions of iconicity that are based on empirical, diachronic and theoretical work, others explore the function of similarity from a cognitive point of view. The section on multimodal dimensions takes into account philosophical, linguistic and literary perspectives in order to analyse, for example, the diagrammatic interplay of written texts and images. Contributions on performative dimensions of iconicity focus on Buddhist mantras, Hollywood films, and the dynamics of rhetorical structures in Shakespeare. Last but not least, the volume also addresses new ways of considering iconicity, including notational iconicity, the interplay of iconicity, ambiguity, interpretability, and the iconicity of literary analysis from a formal semanticist point of view.

Positioned for Miracles Dr Jerry Stott,2016-06-01 Haven't we all heard amazing stories from missionaries and wondered why those same miracles don't happen here? Dr. Stott not only shares incredible miracle stories, but also teaches through the Scripture how we can all experience the miraculous in everyday life. I am greatly blessed by this writing. You will find it difficult to put this book down once you start reading it. I advise you to do it in one sitting. I recommend this book for edification, motivation and Holy Ghost inspiration. Dr. Leslie Keegel Foursquare National Leader, Sri Lanka Co-chair, Foursquare Global Council I'm convinced that Jerry has much to teach us as he shares the glorious, the confusing, the frustrating, and the embarrassing in his pursuit of God's miracle working power--yet you will find that he does so with vulnerability and wonder. Dr. James C. Scott Jr. Director, Foursquare Missions International Vice President, Foursquare Global Church Operations The Spirit's miraculous power seems to follow Jerry everywhere he goes and it inspires me to want to contend for nothing less. Rev. Mike Kai Senior Pastor, Inspire Church Hawaii In this magnificently-written tapestry of scriptural teaching, effective demonstration, and transparent emotion, Dr. Jerry Stott clearly presents what it takes to live a life of miracles. Rev. Jerry and Kimberly Dirmann Senior Pastors, The Rock, a multi-site Foursquare church based in Anaheim, California

Drivers and characteristics of wastewater agriculture in developing countries: results from a global assessment
 Raschid-Sally, L., Jayakody, P., 2009 In 4 out of 5 cities in developing countries, wastewater is used to cultivate perishable crops for urban markets. Such practices create a health risk but provide important livelihood benefits. This study through an analysis of 53 cities in developing countries, contributes to understanding the factors that drive wastewater use. The main drivers are (1) increasing urban water demand without wastewater treatment causing pollution of irrigation water sources; (2) urban food demand favoring agriculture close to cities where water sources are polluted; and (3) lack of cheaper, similarly reliable or safer water sources. Poverty, which constrains the infrastructure needs of urbanization, is an added factor. The study makes policy recommendations stressing on, effectively applying the WHO guidelines, linking investments in water supply with sanitation for maximum beneficial impact on water pollution, and involving actors at both the national and local level, for water quality improvements and health risk reduction
