**Digital Memory** Iris Groschek, Habbo Knoch, 2023-06-23 Erinnerung an nationalsozialistische Verbrechen im digitalen Raum: Reflexionen, Experimente und Erfahrungen von Gedenkstätten. Welche Chancen und Herausforderungen bieten digitale Transformationsprozesse für die Gedenkstättenarbeit im 21. Jahrhundert? Im vorliegenden Heft werden Fragen, Ansätze und Konzepte dazu vorgestellt. Damit soll ein Beitrag zur aktiven Gestaltung der neuen Hybridität geleistet werden, die aus dem Zusammenwirken von Gedenkstätten an historischen Tatorten des Nationalsozialismus und den digitalen Welten entsteht. Diskutiert werden sowohl Rahmenbedingungen des digitalen Transformationsprozesses im Zusammenspiel von digitalen Medien und historischem Lernen als auch Repräsentationen des Holocausts in VR- und Computerspielwelten. Zudem stellt das Heft konkrete Anwendungsbeispiele aus dem Bereich der Gedenkstätten vor, etwa Crowdsourcing-Kampagnen und verschiedenste interaktive Elemente in Ausstellungen. Von einer (Un-)Angemessenheit von Selfies bis hin zur Entwicklung eines partizipativen Gedächtnisses werden die Möglichkeiten von Social Media gerade im Bildungsbereich thematisiert. Mit Beiträgen von Henning Borggräfe, Tobias Ebbrecht-Hartmann, Karola Fings, Swenja Granzow-Rauwald, Christian Günther, Natascha Höhn, Steffi de Jong, Juhi Kulshrestha, Thomas Lutz, Mykola Makhortykh, Alexandra Reuter, Jan Schenck, Pia Schlechter, Martina Staats, Roberto Ulloa, Aleksandra Uрман und Felix Zimmermann.

Jews and Germans in Eastern Europe Tobias Grill, 2018-09-24 For many centuries Jews and Germans were economically and culturally of significant importance in East-Central and Eastern Europe. Since both groups had a very similar background of origin (Central Europe) and spoke languages which are related to each other (German/Yiddish), the question arises to what extent Jews and Germans in Eastern Europe share common historical developments and experiences. This volume aims to explore not only entanglements and interdependences of Jews and Germans in Eastern Europe from the late middle ages to the 20th century, but also comparative aspects of these two communities. Moreover, the perception of Jews as Germans in this region is also discussed in detail.

The Oil and Gas Journal ,1928

**Uncertainty for Safe Utilization of Machine Learning in Medical Imaging, and Perinatal Imaging, Placental and Preterm Image Analysis** Carole H. Sudre,Roxane Licandro,Christian Baumgartner,Andrew Melbourne,Adrian Dalca,Jana Hutter,Ryutaro Tanno,Esra Abaci Turk,Koen Van Leemput,Jordina Torrents Barrena,William M. Wells,Christopher Macgowan,2021-09-30 This book constitutes the refereed proceedings of the Third Second International Workshop on Uncertainty for Safe Utilization of Machine Learning in Medical Imaging, UNSURE 2021, and the 6th International Workshop on Preterm, Perinatal and Paediatric Image Analysis, PIPPI 2021, held in conjunction with MICCAI 2021. The conference was planned to take place in Strasbourg, France, but was held virtually due to the COVID-19 pandemic.For UNSURE 2021, 13 papers from 18 submissions were accepted for publication. They focus on developing awareness and encouraging research in the field of uncertainty modelling to enable safe implementation of machine learning tools in the clinical world. PIPPI 2021 accepted 14 papers from the 18 submissions received. The workshop aims to bring together methods and experience from researchers and authors working on these younger cohorts and provides a forum for the open discussion of advanced image analysis approaches focused on the analysis of growth and development in the fetal, infant and paediatric period.

**Wirkung einer ammonium- im Vergleich zu einer nitratbetonten Stickstoffdüngung auf die Wurzelentwicklung, den Ertrag und die Stickstoffeffizienz von Winterweizen unter Felddbedingungen auf einem Schwarzerde-Standort** Tobias Kirschke,2022\* N-Düngerform, Nitrifikationsinhibitor, Ammonium-N, Nitrat-N, Wurzelentwicklung, N-Effizienz, Winterweizen, Felddbedingung.

Sustainable Land Management in a European Context Thomas Weith,Tim Barkmann,Nadin Gaasch,Sebastian Rogga,Christian Strauß,Jana Zscheischler,2020-08-28 This open access book presents and discusses current issues and innovative solution approaches for land management in a European context. Manifold sustainability issues are closely interconnected with land use practices. Throughout the world, we face increasing conflict over the use of land as well as competition for land. Drawing on experience in sustainable land management gained from seven years of the FONA programme (Research for Sustainable Development, conducted under the auspices of the German Federal Ministry of Education and Research), the book stresses and highlights co-design processes within the “co-creation of knowledge”, involving collaboration in transdisciplinary research processes between academia and other stakeholders. The book begins with an overview of the current state of land use practices and the subsequent need to

manage land resources more sustainably. New system solutions and governance approaches in sustainable land management are presented from a European perspective on land use. The volume also addresses how to use new modes of knowledge transfer between science and practice. New perspectives in sustainable land management and methods of combining knowledge and action are presented to a broad readership in land system sciences and environmental sciences, social sciences and geosciences. This book received the Gerd Albers Award. The prize is awarded by the International Society of City and Regional Planners (ISOCARP).

*The Russian Army and the Jewish Population, 1914–1917* Semion Goldin, 2022-06-01 This book represents a new reading of a key moment in the history of East European Jewry, namely the period preceding the collapse of the Russian Empire. Offering a novel analysis of relations between the Russian army and Jews during the First World War, it points to the army and military authorities as the 'gravediggers' of the Jews' fragile co-existence with the tsarist regime. It focuses on various aspects of the Russian army's brutal treatment of Jews living in or near the Eastern Front, where three quarters of European Jewry were living when the war began. At the same time, it shows the enormous harm this anti-Jewish campaign wreaked on the Russian empire's economy, finances, public security, and international status.

**Brainlesion: Glioma, Multiple Sclerosis, Stroke and Traumatic Brain Injuries** Alessandro Crimi, Spyridon Bakas, Hugo Kuijf, Farahani Keyvan, Mauricio Reyes, Theo van Walsum, 2019-02-08 This two-volume set LNCS 11383 and 11384 constitutes revised selected papers from the 4th International MICCAI Brainlesion Workshop, BrainLes 2018, as well as the International Multimodal Brain Tumor Segmentation, BraTS, Ischemic Stroke Lesion Segmentation, ISLES, MR Brain Image Segmentation, MRBrainS18, Computational Precision Medicine, CPM, and Stroke Workshop on Imaging and Treatment Challenges, SWITCH, which were held jointly at the Medical Image Computing for Computer Assisted Intervention Conference, MICCAI, in Granada, Spain, in September 2018. The 92 papers presented in this volume were carefully reviewed and selected from 95 submissions. They were organized in topical sections named: brain lesion image analysis; brain tumor image segmentation; ischemic stroke lesion image segmentation; grand

challenge on MR brain segmentation; computational precision medicine; stroke workshop on imaging and treatment challenges.

**Arts & Humanities Citation Index** ,1994 A multidisciplinary index covering the journal literature of the arts and humanities. It fully covers 1,144 of the world's leading arts and humanities journals, and it indexes individually selected, relevant items from over 6,800 major science and social science journals.

**Current Catalog** National Library of Medicine (U.S.),1993 First multi-year cumulation covers six years: 1965-70.

**Brainlesion: Glioma, Multiple Sclerosis, Stroke and Traumatic Brain Injuries** Spyridon Bakas,Alessandro Crimi,Ujjwal Baid,Sylwia Malec,Monika Pytlarz,Bhakti Baheti,Maximilian Zenk,Reuben Dorent,2023-07-17 This book constitutes the refereed proceedings of the 8th International MICCAI Brainlesion Workshop, BrainLes 2022, as well as the Brain Tumor Segmentation (BraTS) Challenge, the Brain Tumor Sequence Registration (BraTS-Reg) Challenge, the Cross-Modality Domain Adaptation (CrossMoDA) Challenge, and the Federated Tumor Segmentation (FeTS) Challenge. These were held jointly at the Medical Image Computing for Computer Assisted Intervention Conference, MICCAI 2022, in September 2022. The 46 revised full papers presented in these volumes were selected from 65 submissions. The presented contributions describe the research of computational scientists and clinical researchers working on brain lesions - specifically glioma, multiple sclerosis, cerebral stroke, traumatic brain injuries, vestibular schwannoma, and white matter hyper-intensities of presumed vascular origin.

**Safe Medical Devices for Children** Institute of Medicine,Board on Health Sciences Policy,Committee on Postmarket Surveillance of Pediatric Medical Devices,2006-01-20 Innovative medical devices have helped reduce the burden of illness and injury and improve the quality of life for countless children. Mechanical ventilators and other respiratory support devices rescue thousands of fragile newborns every year. Children who once would have died of congenital heart conditions survive with the aid of implanted pacemakers, mechanical heart valves, and devices that close holes in the heart. Responding to a Congressional request, the Institute of Medicine assesses the system for postmarket surveillance of medical devices used with children. The book specifically examines: The Food and Drug Administration's monitoring and use of adverse event reports The agency's monitoring of manufacturers' fulfillment of commitments for postmarket studies ordered at the time of a device's approval for marketing The adequacy of postmarket

studies of implanted devices to evaluate the effects of children's active lifestyles and their growth and development on device performance Postmarket surveillance of medical devices used with children is a little investigated topic, in part because the market for most medical products is concentrated among older adults. Yet children differ from adults, and their special characteristics have implications for evaluation and monitoring of the short- and long-term safety and effectiveness of medical devices used with young patients.

Individualized Medicine Tobias Fischer,Martin Langanke,Paul Marschall,Susanne Michl,2015-01-16 In 2009 the University Medicine Greifswald launched the “Greifswald Approach to Individualized Medicine” (GANI\_MED) to implement biomarker-based individualized diagnostic and therapeutic strategies in clinical settings. Individualized Medicine (IM) has led not only to controversies about its potentials, but also about its societal, ethical and health economic implications. This anthology focusses on these areas and includes – next to clinical examples illustrating how the integrated analysis of biomarkers leads to significant improvement of therapeutic outcomes for a subgroup of patients – chapters about the definition, history and epistemology of IM. Additionally there is a focus on conceptual philosophical questions as well as challenges for applied research ethics (informed consent process, the IT-based consent management and the handling of incidental findings). Finally it pays attention to health economic aspects. The possibilities of IM to initiate a paradigm shift in the German health care provision are investigated. Furthermore, it is asked whether the G-DRG system is ready for the implementation of such approaches into clinical routine.
