**Little Nemo - The Complete Comic Strips (1913 - 1914) by Winsor McCay (Platinum Age Vintage Comics)** Winsor McCay, 2013 This comic ebook presents Little Nemo - The Complete Comic Strips (1913 - 1914) by Winsor McCay: 52 full color comic strips in ultra high definition (each page ca. 1700 pixels by 2200 pixels) for your eReader. Little Nemo is the main fictional character in a series of weekly comic strips by Winsor McCay that appeared in the New York Herald and William Randolph Hearst's New York American newspapers respectively from October 15, 1905 - July 23, 1911 and September 3, 1911 - July 26, 1914. The strip was first called Little Nemo in Slumberland and then In the Land of Wonderful Dreams when it changed papers in 1911. Although a comic strip, Little Nemo is far from a simple children's fantasy; it is often dark, surreal, threatening, and even violent. The original set-up of the comic revolved around the nightly dreams of a little boy named Nemo (meaning nobody in Latin). The purpose of his early dreams was to reach 'Slumberland', the realm of King Morpheus, who wanted him as a playmate for his daughter, Princess Camille. The last panel in each strip was always one of Nemo waking up, usually in or near his bed, and often being scolded (or comforted) by one of the grownups of the household after crying out in his sleep and waking them. In the earliest strips, the dream event that woke him up would always be some mishap or disaster that seemed about to lead to serious injury or death, such as being crushed by giant mushrooms, being turned into a monkey, falling from a bridge being held up by slaves, or gaining 90 years in age. Later on, when Nemo finally did reach Slumberland, he was constantly being woken up by Flip, a character who originally wore a hat that had 'Wake Up' written on it. Flip would go on to be one of the comic's seminal characters. Other notable recurring characters included: Dr. Pill, The Imp, the Candy Kid and Santa Claus as well as the Princess and King Morpheus. Certain episodes of

the strip are particularly famous. These include the Night of the Living Houses wherein Nemo and a friend are chased down a city street by a gang of tenement houses on legs; the Walking Bed, in which Nemo and Flip ride over the rooftops on the increasingly long limbs of Nemo's bed; and the Befuddle Hall sequence, wherein Nemo and his friends attempt to find their way out of a funhouse environment of a Beaux-Arts interior turned topsy-turvy. McCay's mastery of perspective, and the extreme elegance of his line work, make his visions graphically wondrous.

**Ulama Sulawesi Selatan; Biografi Pendidikan dan Dakwah** H. Muhammad Ruslan, MA.,Drs. H. Waspada Santing, 2007-05-31 Ulama adalah sebuah nama. Nama yang sarat makna dan kompleks, sehingga tidak mudah mengungkapkan semuadimensi maknanya secara komprehenship. Dalam kesadaran itulah, buku Ulama Sulawesi Selatan; Biografi Pendidikan dan Dakwah ini digagas, ditulis, dan diterbitkan. Ada 14 ulama yang riwayat hidupnya, karyakaryanya, suka-duka perjuangannya dalam membina umat dan menebarkan 'aromas syiar Islam, dituliskan secara sekilas dalam buku ini. Walau:pun penulisannya tidak sampai di ceruknya yang terdalam, tapi kami berharap energi, jiwa, keikhlasan, dan model perjuangan ke-14 ulama itu, menjadi renungan Anda, para pembaca. Semoga,

. renungan itu mampu memunculkan motivasi baru untuk menata langkahpengabdian dan pembinaan, sesuai dengan corak dan dinamika kehidupan umat yang dihadapinya. Jumlah 14 ulama tersebut, adalah bilangan yang sangat sedikit dibandingkan dengan banyaknya ulama di Sulawesi Selatan. Penentuan angka itu pulalah yang menjadi salah satu materi diskusi paling serius di antara anggota tim. Akhirnya, disepakati kriteria: Pertama, ulama bersangkutan sudah menjalankan peran dakwah dan pembinaan umat sebelum proklamasi kemerdekaan. Kedua, ulama bersangkutan punya pesantren atau lembaga pendidikan yang menjadi pusat kegiatan pembinaan umat yang dilakukannya secara tekun dan Terus-Menerus. Ketiga, Ulama bersangkutan sudah wafat. Alasannya, Tidak mudah menuliskan riwayat hidup seorang tokoh yang karya dan pengabdiannya masih terus berproses

*Information Systems Theory* Yogesh K. Dwivedi,Michael R. Wade,Scott L. Schneberger,2011-09-21 The overall mission of this book is to provide a comprehensive understanding and coverage of the various theories and models used in IS research. Specifically, it aims to focus on the following key objectives: To describe the various theories and models applicable to studying IS/IT management issues. To outline and describe, for each of the various theories and models, independent and dependent constructs, reference discipline/originating area, originating author(s), seminal articles, level of analysis (i.e. firm, individual, industry) and links with other theories. To provide a critical review/meta-analysis of IS/IT management articles that have used a particular theory/model. To discuss how a theory can be used to better understand how information systems can be effectively deployed in today's digital world. This book contributes to our

understanding of a number of theories and models. The theoretical contribution of this book is that it analyzes and synthesizes the relevant literature in order to enhance knowledge of IS theories and models from various perspectives. To cater to the information needs of a diverse spectrum of readers, this book is structured into two volumes, with each volume further broken down into two sections. The first section of Volume 1 presents detailed descriptions of a set of theories centered around the IS lifecycle, including the Success Model, Technology Acceptance Model, User Resistance Theories, and four others. The second section of Volume 1 contains strategic and economic theories, including a Resource-Based View, Theory of Slack Resources, Portfolio Theory, Discrepancy Theory Models, and eleven others. The first section of Volume 2 concerns socio-psychological theories. These include Personal Construct Theory, Psychological Ownership, Transactive Memory, Language-Action Approach, and nine others. The second section of Volume 2 deals with methodological theories, including Critical Realism, Grounded Theory, Narrative Inquiry, Work System Method, and four others. Together, these theories provide a rich tapestry of knowledge around the use of theory in IS research. Since most of these theories are from contributing disciplines, they provide a window into the world of external thought leadership.

**Talking about Food** Sofia Rüdiger, Susanne Mühleisen, 2020-06-15 All humans eat and all humans speak – activities which in social life often, but not always, co-occur: We talk while eating and drinking with others, but food is also a prominent literal and metaphorical discursive topic which contributes to establishing communities and identities. This omnipresence of eating and drinking in our daily lives has led to a public fascination with foodways. The contributions in this edited collection investigate the connection between language and food from a variety of perspectives. As food discourses operate on local, global, and mediated levels, they are intertwined

with notions of identity and culture and thus shed light on intimate understandings of ourselves as human beings. Talking about Food – The Social and the Global in Eating Communities provides up-to-date and thought-provoking contributions to the linguistics of food. The book is essential reading for anyone interested in food-related subjects.

Negotiating Cultural Encounters Han Yu, Gerald Savage, 2013-03-05 Discusses the challenges of intercultural communication in engineering, technical, and related professional fields. Given today's globalized technical and engineering environment, intercultural communication is an essential topic for engineers, other technical professionals, and technical communicators to learn. Engineering programs, in particular, need to think about how to address the ABET requirement for students to develop global competence and communication skills. This book will help readers learn what intercultural communication is like in the workplace—which is an important first step in gaining intercultural competence. Through narratives based on the real experiences of working professionals, *Negotiating Cultural Encounters: Narrating Intercultural Engineering and Technical Communication* covers a range of design, development, research, and documentation projects—offering an authentic picture of today's international workplace. Narrative contributors present firsthand experience and perspectives on the complexities and challenges of working with multicultural team members, international vendors, and diverse customers; additional suggested readings and discussion questions provide students with information on relevant cultural factors and invite them to think deeply and critically about the narratives. This collection of narratives: Responds to the need for updated firsthand information in intercultural communication and will help us prepare workplace professionals. Covers various topics such as designing e-commerce websites, localizing technical documentation, and translating workplace safety materials.

Provides hands-on studies of intercultural professional communication in the workplace Is targeted toward institutions that train engineers for technical communication tasks in diverse sociocultural environments Presents contributions from a diverse group of professionals Recommends additional material for further pursuit A book unlike any other in its field, *Negotiating Cultural Encounters* is ideal for all engineering and technical communication professionals seeking to better communicate their ideas and thoughts in the multicultural workplaces of the world.
