His game My Virtual Girlfriend went nine months with only modest sales until late in December of 2010, when he gathered what he'd learned about app discoverability and used it to propel the game to the Top 100 list for its category. Furthermore, the game has only gained momentum, sitting in the Top 25 for over a year. Though Mike overcame the challenges of app development, he knows exactly what it's like for a developer to spend time and money on a project that falls flat.
