**Industry of Thieves** Paul Todd, 2009-08 There is a very greedy industry in this country called Freight Brokers, most people do not know exists, but they effect the stability of our entire economy. This unregulated industry is intentionally ripping off every American consumer and business in this country, causing the price of everything we buy to increase under a blanket of lies then pass blame to the oil industry. This book introduces and exposes an industry within this nation that is partly responsible for this nations hard economic times and empowers the reader with the knowledge to save every family in this country between \$100 - \$400 every month. This book gives various real-world examples that will floor the reader, yet provide reason why every product and raw material cost so much in the United States, yet proves that if these costs were saved, businesses overhead would significantly decrease which saves millions of jobs, home-owners would have enough to pay mortgages, and the auto industry can be saved.--Cover.

**Trucking in the Age of Information** Dale Belman, Chelsea White, 2018-01-18 Trucking in the Age of Information provides a comprehensive overview of the contemporary trucking industry. Prior research on trucking has focused on the effects of deregulation on the industry, but the industry's current transformation is driven by information technology, emerging business strategies, globalization of commodity production and the rise of package express and logistics. The volume brings together acknowledged and emerging

scholars of the industry including Thomas Corsi (University of Maryland), Chelsea White III (Georgia Tech), Starr McMullen (Oregon State University), Will Mitchell (Duke University), Jeff Liker (University of Michigan), Francine LaFontaine (University of Michigan), Kristen Monaco (California State University at Long Beach) and Michael Conyngham (International Brotherhood of Teamsters) to address issues including technological change, third party logistics, lean trucking, driver safety and health, homeland security and the consolidation of trucking services. Each chapter provides an overview of industry issues and a discussion of current research.
