Merger Masters Kate Welling, Mario Gabelli, 2018-11-06 Merger Masters presents revealing profiles of monumentally successful merger investors based on exclusive interviews with some of the greatest minds to practice the art of arbitrage. Michael Price, John Paulson, Paul Singer, and others offer practical perspectives on how their backgrounds in the risk-conscious world of merger arbitrage helped them make their biggest deals. They share their insights on the discipline that underlies their fortunes, whether they practice the “plain vanilla” strategy of announced deals, the aggressive strategy of activist investment, or any strategy in between on the risk spectrum. Merger Masters delves into the human side of risk arbitrage, exploring how top practitioners deal with the behavioral aspects of generating consistent profits from risk arbitrage. The book also includes perspectives from the other side of the mergers and acquisitions divide in the form of interviews with a trio of iconic CEOs: Bill Stiritz, Peter McCausland, and Paul Montrone. All three took advantage of M&A opportunities to help build long-term returns but often found themselves at odds with the short-term focus of Wall Street and merger investors. Told in lively, accessible prose, with bonus facts and figures for transaction junkies, Merger Masters is an incomparable set of stories with plenty of unfiltered lessons from the best managers of our time.

The Corporate Contract in Changing Times Steven Davidoff Solomon, Randall Stuart Thomas, 2019-03-08 Over the past few decades, significant changes have occurred across capital markets. Shareholder activists have become more prominent, institutional investors have begun to wield more power, and intermediaries like investment advisory firms have greatly increased their influence. These changes to the economic environment in which corporations operate have outpaced changes in basic corporate law and left corporations uncertain of how to respond to the new dynamics and adhere to their fiduciary duties to stockholders. With The Corporate Contract in Changing

Times, Steven Davidoff Solomon and Randall Stuart Thomas bring together leading corporate law scholars, judges, and lawyers from top corporate law firms to explore what needs to change and what has prevented reform thus far. Among the topics addressed are how the law could be adapted to the reality that activist hedge funds pose a more serious threat to corporations than the hostile takeovers and how statutory laws, such as the rules governing appraisal rights, could be reviewed in the wake of appraisal arbitrage. Together, the contributors surface promising paths forward for future corporate law and public policy.
