The American Constitution Jesse H. Choper,2001 One of the very few constitutional law course books that still devotes significant space to constitutional-criminal procedure (e.g., search and seizure, right to counsel, police interrogation and confessions). Also contains a substantial section on the death penalty and related problems. Designed for those who want to teach criminal procedure in a class that also includes the standard components of a constitutional law course, such as the right of privacy (or autonomy or personhood), freedom of expression and freedom of religion, federalism and separation of powers.

Constitutional Law Jesse H. Choper,2006 When Mr Gruber shows Paddington an outdoor painting exhibition he is inspired to take up a new hobby! After attending an Outside Exhibition, Paddington is inspired to take up painting himself. He gets busy with his own paints and holds his own exhibition, but is discouraged by the problems of self portraiture – forgetting what he looks like in the mirror! Then a mystery art collector buys up his entire works. This is just the boost he needs, and he's soon busily trying his first family portrait! Read by THE WONDERFUL JIM BROADBENT!!!

Knowledge Management Strategies: A Handbook of Applied Technologies Lytras, Miltiadis D.,Russ, Meir,Maier, Ronald,Naeve, Ambjørn,2008-04-30

We recognize knowledge management as a socio-technical phenomenon where the basic social constructs such as person, team, and organization require support from information communication technology applications. In an era of business transition, the effective management of knowledge is proposed as a strategy that effectively utilizes organizational intangible assets. Knowledge Management Strategies: A Handbook of Applied Technologies provides practical guidelines for the implementation of knowledge management strategies through the discussion of specific technologies and taxonomies of knowledge management applications. A critical mass of some of the most sought-after research of our information technology and business world, this book proves an essential addition to every reference library collection.

Constitutional Rights and Liberties Jesse H. Choper,2001 Extracted from the more extensive Constitutional Law by the same authors, this casebook is designed for a course that emphasizes individual rights and liberties. The many notes, comments and questions that appear throughout aid a students understanding. The authors have drawn heavily on scholarly literature about the decisions of the Burger and Rehnquist Courts. This literature stimulates critical examination of present and potential future developments in constitutional law.
