Eardrums Tyler Whitney, 2019-06-15 In this innovative study, Tyler Whitney demonstrates how a transformation and militarization of the civilian soundscape in the late nineteenth and early twentieth centuries left indelible traces on the literature that defined the period. Both formally and thematically, the modernist aesthetics of Franz Kafka, Robert Musil, Detlev von Liliencron, and Peter Altenberg drew on this blurring of martial and civilian soundscapes in traumatic and performative repetitions of war. At the same time, Richard Huelsenbeck assaulted audiences in Zurich with his "sound poems," which combined references to World War I, colonialism, and violent encounters in urban spaces with nonsensical utterances and linguistic detritus—all accompanied by the relentless beating of a drum on the stage of the Cabaret Voltaire. *Eardrums* is the first book-length study to explore the relationship between acoustical modernity and German modernism, charting a literary and cultural history written in and around the eardrum. The result is not only a new way of understanding the sonic impulses behind key literary texts from the period. It also outlines an entirely new approach to the study of literature as the interaction of text and sonic practice, voice and noise, which will be of interest to scholars across literary studies, media theory, sound studies, and the history of science.

Sacred Evil Heather Graham, 2020-11-16 Return to the world of the FBI's Krewe of Hunters as they try to stop a resurrected evil from taking more

lives, in book 3 of this thrilling series from New York Times bestselling author Heather Graham. The details of the crime scene are no coincidence. The body—a promising starlet—has been battered, bloodied and then discarded between two of Manhattan’s oldest graveyards. One look and Detective Jude Crosby recognizes the tableau: a re-creation of Jack the Ripper’s gruesome work. But he also sees something beyond the actions of a mere copycat. Something more dangerous...and unexplainable. As the city seethes with suspicion, Jude calls on Whitney Tremont, a member of the country’s preeminent paranormal investigating team, to put the speculation to rest. Yet when Whitney and Jude delve deeper, what they discover is more shocking than either could have predicted, and twice as sinister... Previously published in 2011

Here & Hereafter Tyler Henry, 2022-03-29 From
Tyler Henry, celebrated medium, comes the ultimate

self-help guide detailing the insights the departed have communicated about how to live our best, most meaningful lives. Do you want to live more meaningfully, and in turn fulfill your life's potential? Do you want to have the capability to transform your life and make it infinitely better, by paying attention to what those who have lived and died have come to understand about the meaning of life itself? As one of the world's most accomplished mediums, Tyler Henry has had thousands of communications with those who've already gone through humanity's final frontier: physical death. The life lessons he's learned from those conversations have been truly transformative. In *Here & Hereafter* Tyler explains that by listening and learning from the departed, following their guidance, and paying attention to what they might have done differently, we can get more fulfillment and purpose from our own lives. *Here & Hereafter* will shed light on the most powerful understandings Tyler has gained from modern day mediumship—and explain how those understandings can lead us to live a more meaningful life.

HEAR Danilo Mandic, Caterina Nirta, Andrea Pavoni, Andreas Philippopoulos-Mihalopoulos, 2023-02-14 Hearing is an intricate modality of sensory perception. It is continuously enfolded in the surroundings in which it takes place. While passive in its disposition, hearing is integral to the movement and fluctuations of one's environment. At all times, hearing remains open, (in)active but attuned to the present and continuously immersed in the murmur of its

background. A delicate perception that is always situated but fundamentally overarching and extended into the open. Hearing is an immanent modality of being in and with the world. Beyond the capacity of sensory perception, hearing is also the ultimate juridical act, a sense-making activity that adjudicates and informs the spatio-temporal acoustics of justice. This penultimate volume of 'Law and the Senses' gathers contributions from across different disciplines working on the relationship between law and hearing, the human vocalisations and non-human echolocations, the spatial and temporal conditions in which hearing takes place, as well as the forms of order and control that listening entails. Through notions and practices of improvisation and noise, attunement and audibility sonic spatiality and urban sonicity they explore, challenge and expand the structural and sensorial qualities of law. Moreover, they recognise how hearing directs us to perceiving and understanding the intrinsic acoustic sphere of simultaneous relations, which challenge and break the normative distinctions that law informs and maintains. In an attempt to hear the ambiguous, indefinable and unembodied nature of hearing, as well as its objects – sound and silence – this volume approaches hearing as both an ontological and epistemological device to think with and about law.

Whitney Houston Tyler Hall, 2017-01-12 Whitney Houston was an American singer, actress, producer, and model. In 2009, Guinness World Records cited her as the most awarded female act of all time. Houston is one of pop music's best-selling music

artists of all-time, with an estimated 170-200 million records sold worldwide. She released seven studio albums and two soundtrack albums, all of which have diamond, multi-platinum, platinum or gold certification. Houston's crossover appeal on the popular music charts, as well as her prominence on MTV, starting with her video for How Will I Know, influenced several African American women artists who follow in her footsteps. Houston is the only artist to chart seven consecutive No. 1 Billboard Hot 100 hits. She is the second artist behind Elton John and the only woman to have two number-one Billboard 200 Album awards (formerly Top Pop Albums) on the Billboard magazine year-end charts. Houston's debut album, Whitney Houston (1985), became the best-selling debut album by a woman in history. Rolling Stone named it the best album of 1986, and ranked it at number 254 on the magazine's list of the 500 Greatest Albums of All Time. Her second studio album, Whitney (1987), became the first album by a woman to debut at number one on the Billboard 200 albums chart. Houston's first acting role was as the star of the feature film The Bodyguard (1992). The film's original soundtrack won the 1994 Grammy Award for Album of the Year. Its lead single, I Will Always Love You, won the Grammy Award for Record of the Year and became the best-selling single by a woman in music history. With the album, Houston became the first act (solo or group, male or female) to sell more than a million copies of an album within a single week period under Nielsen SoundScan system. The album makes her the top female act in the top 10 list of the best-selling albums of all

time, at number four. Houston continued to star in movies and contribute to their soundtracks, including the films *Waiting to Exhale* (1995) and *The Preacher's Wife* (1996). The *Preacher's Wife* soundtrack became the best-selling gospel album in history. On February 11, 2012, Houston was found dead in her guest room at the Beverly Hilton, in Beverly Hills, California. The official coroner's report showed that she had accidentally drowned in the bathtub, with heart disease and cocaine use listed as contributing factors. News of her death coincided with the 2012 Grammy Awards and featured prominently in American and international media.

Flaming Tree Phyllis A. Whitney, 2017-08-29 On the California coast, a physical therapist unlocks a young boy's terrible secrets, in this novel from "the Grand Master of her craft" (Barbara Michaels). In search of solitude in the wake of her son's tragic death, recently divorced physical therapist Kelsey Stewart accepts an invitation to stay at her aunt Elaine's seaside inn in Carmel, California. No sooner does Kelsey arrive than she becomes moved by another tragedy: On a bright sunny day, local boy Jody Hammond fell from the Point Lobos cliff into the pounding waves of the Pacific and was left with a devastating brain injury. He now stares into an empty void and hasn't spoken a single word since the accident. Compelled to aid in the boy's recovery, Kelsey visits the Hammonds' Flaming Tree ranch, where Jody's tyrannical father, Tyler, has given up hope. Kelsey can offer that, and the effort might revive her own crushed spirit as well. But as she

falls in love with the mysterious Tyler, she also begins to unravel the family's secrets. When she begins to fear that Jody's silence is coming from a very dark place, her mission will become one of life and death—because what's buried in the boy's memories could be murder. *Flaming Tree* is a twisting tale of deception, danger, and discovery from an Edgar Award-winning and New York Times—bestselling master of suspense. This ebook features an illustrated biography of Phyllis A. Whitney including rare images from the author's estate.

The Palgrave Encyclopedia of Urban Literary Studies Jeremy Tambling,2022-10-29 This encyclopaedia will be an indispensable resource and recourse for all who are thinking about cities and the urban, and the relation of cities to literature, and to ways of writing about cities. Covering a vast terrain, this work will include entries on theorists, individual writers, individual cities, countries, cities in relation to the arts, film and music, urban space, pre/early and modern cities, concepts and movements and definitions amongst others. Written by an international team of contributors, this will be the first resource of its kind to pull together such a comprehensive overview of the field.

Leviathans Blaine Lee Pardoe,William H. Keith, Jr.,S. M. Stirling,Steven Mohan, Jr.,Harry Turtledove,Michael J. Ciaravella,Tyler Whitley,Bryn Bills,2021-02-28 IT IS THE DAWN OF A NEW AGE... At the beginning of the 20th century, the

world was forever changed by the discovery of electroid, a strange liquid that allowed for lighter-than-air travel. Militaries around the world rushed to develop new vessels based on this amazing invention, resulting in a class of flying ships unlike anything ever seen before...the leviathan. Now, the skies are filled with massive armored warships that soar through the air, armed with devastating cannons that can lay waste to an enemy vessel in moments. The nations of the world have entered into a dangerous new arms race, and all it will take is the right spark to set off a war that will ensnare the nations on and around the European continent...and may engulf the world... Kirberger's monthly gazette of English literature ,

A Recital Paper Paul Herman Rappolt, 2017 In selection of content for my master's recital, I attempted to create an emotional experience through a musical journey. It is my view that an effective program not only contains moving individual pieces of music, but moves on a larger scale as well and the succession of pieces should retain a logical, overarching development. To create a cohesive program, I took the various aspects of each piece into consideration, such as style, tempo, timbres, and energy level. A static stream of any of these aspects can lose the interest of an audience, negatively impacting the overall flow. The intention was to use an array of

these elements to create a progression or sequence of musical events that would hold the attention of the audience throughout the recital. I carefully arranged my pieces in an order that provides variety within a developmental contour. --
