*Urban Myths* John Tranter, 2009-11 'Urban Myths: 210 poems' collects the best work to date from a poet considered one of the most original of his generation in Australia. A generous selection of new work is also included. Smart, wry and very stylish, John Tranter's poems investigate the vagaries of perception and the ability of language to converge life, imagination and art so that we arrive, unexpectedly, at the deepest human mysteries.

**Women Poets and Urban Aestheticism A.**

Vadillo, 2005-09-08 This book re-examines cultural, social, geographical and philosophical representations of Victorian London by looking at the transformations in urban life produced by the rise and development of urban mass-transport. It also radically re-addresses the questions of epistemology and gender in the Victorian metropolis by mapping the epistemology of the passenger. Vadillo focuses on the lyric urban writings of Amy Levy, Alice Meynell, 'Graham R. Tomson' (Rosamund Marriott Watson) and 'Michael Field' (Katherine Bradley and Edith Cooper). Shortlisted for the ESSE Book Prize

*Manchester* Paul Dobraszczyk, Sarah Butler, 2020-11-19 What is Manchester? Moving far from the glitzy shopping districts and architectural showpieces, away from cool city-centre living and modish cultural centres, this book shows us the unheralded, under-appreciated and overlooked parts of Greater Manchester in which the majority of Mancunians live, work and

play. It tells the story of the city thematically, using concepts such as 'material', 'atmosphere', 'waste', 'movement' and 'underworld' to challenge our understanding of the quintessential post-industrial metropolis. Bringing together contributions from twenty-five poets, academics, writers, novelists, historians, architects and artists from across the region alongside a range of captivating photographs, this book explores the history of Manchester through its chimneys, cobblestones, ginnels and graves. This wide-ranging and inclusive approach reveals a host of idiosyncrasies, hidden spaces and stories that have until now been neglected.

### **Key Concepts in Urban Geography** Alan

Latham, Derek McCormack, Kim McNamara, Donald McNeill, 2008-12-19 This extraordinary collage of sophisticated essays on key terms in urban geography both provides a conventional basis to and recasts innovatively a burgeoning field in the discipline. - Roger Keil, co-Editor, International Journal of Urban and Regional Research The city is an obvious but confounding object of geographical analysis; urban structure and life are shaped by an astounding array of social, economic, and political dynamics. This volume embraces these complexities of city form in a wide-ranging, readable, well-informed, and highly interdisciplinary analysis of key topics in urban studies. With its fresh approach, this book provides an accessible entry point for the newcomer to urban geography, yet also delivers creative insights for those with greater familiarity. - Professor Steven K. Herbert,

University of Washington Organized around 20 short essays, *Key Concepts in Urban Geography* provides a cutting-edge introduction to the central concepts that define contemporary research in urban geography. Involving detailed and expansive discussions, the book includes: An introductory chapter providing a succinct overview of the recent developments in the field. Over 20 key concept entries with comprehensive explanations, definitions and evolutions of the subject. A glossary, figures, diagrams and suggested further reading. This is an ideal companion text for upper-level undergraduate and postgraduate students in urban geography and covers the expected staples of the subdiscipline from global cities and urban nature to transnational urbanism and virtuality.

As the twilight of all history draws, the clock ticks down toward the end of days and the greatest showdown between good and evil the world has ever seen.

Urban Legends Peter L'Official, 2020-07-21 A cultural history of the South Bronx that reaches beyond familiar narratives of urban ruin and renaissance, beyond the "inner city" symbol, to

reveal the place and people obscured by its myths. For decades, the South Bronx was America's "inner city." Synonymous with civic neglect, crime, and metropolitan decay, the Bronx became the preeminent symbol used to proclaim the failings of urban places and the communities of color who lived in them. Images of its ruins—none more infamous than the one broadcast live during the 1977 World Series: a building burning near Yankee Stadium—proclaimed the failures of urbanism. Yet this same South Bronx produced hip hop, arguably the most powerful artistic and cultural innovation of the past fifty years. Two narratives—urban crisis and cultural renaissance—have dominated understandings of the Bronx and other urban environments. Today, as gentrification transforms American cities economically and demographically, the twin narratives structure our thinking about urban life. A Bronx native, Peter L'Official draws on literature and the visual arts to recapture the history, people, and place beyond its myths and legends. Both fact and symbol, the Bronx was not a decades-long funeral pyre, nor was hip hop its lone cultural contribution. L'Official juxtaposes the artist Gordon Matta-Clark's carvings of abandoned buildings with the city's trompe l'oeil decals program; examines the centrality of the Bronx's infamous Charlotte Street to two Hollywood films; offers original readings of novels by Don DeLillo and Tom Wolfe; and charts the emergence of a "global Bronx" as graffiti was brought into galleries and exhibited internationally, promoting a symbolic Bronx abroad. *Urban Legends* presents a new cultural history of what it meant to live,

work, and create in the Bronx.

Urban Pastoral Timothy Gray, 2010-10-28 We knew Koch, Guest, O'Hara, Ashbery, and Schuyler thrived on the gritty, buoyant clank of city life, but that they drew from a secret fountain there only the Brill Building really let on, until now. In seven crisply argued, essayistic chapters, Gray lets us see and feel the invisible paradise glowing within the visible form of the subway, the skyscraper, the tenement bank, the tattoo parlor, a heaven growing in the street/right up through the concrete, but soft and sweet and dreaming.--- Kevin Killian, Author, Little Men --Book Jacket.

**Media Art and the Urban Environment** Francis T. Marchese, 2015-04-01 This text formally appraises the innovative ways new media artists engage urban ecology. Highlighting the role of artists as agents of technological change, the work reviews new modes of seeing, representing and connecting within the urban setting. The book describes how technology can be exploited in order to create artworks that transcend the technology's original purpose, thus expanding the language of environmental engagement whilst also demonstrating a clear understanding of the societal issues and values being addressed. Features: assesses how data from smart cities may be used to create artworks that can recast residents' understanding of urban space; examines transformations of urban space through the reimagining of urban information; discusses the engagement of urban residents with street art, including collaborative community art projects and public digital media

installations; presents perspectives from a diverse range of practicing artists, architects, urban planners and critical theorists.

**Refracted Visions** Karen Strassler, 2010-04-20 A young couple poses before a painted backdrop depicting a modern building set in a volcanic landscape; a college student grabs his camera as he heads to a political demonstration; a man poses stiffly for his identity photograph; amateur photographers look for picturesque images in a rural village; an old woman leafs through a family album. In *Refracted Visions*, Karen Strassler argues that popular photographic practices such as these have played a crucial role in the making of modern national subjects in postcolonial Java. Contending that photographic genres cultivate distinctive ways of seeing and positioning oneself and others within the affective, ideological, and temporal location of Indonesia, she examines genres ranging from state identification photos to pictures documenting family rituals. Oriented to projects of selfhood, memory, and social affiliation, popular photographs recast national iconographies in an intimate register. They convey the longings of Indonesian national modernity:

nostalgia for rural idylls and “tradition,” desires for the trappings of modernity and affluence, dreams of historical agency, and hopes for political authenticity. Yet photography also brings people into contact with ideas and images that transcend and at times undermine a strictly national frame. Photography’s primary practitioners in the postcolonial era have been Chinese Indonesians. Acting as cultural brokers who translate global and colonial imageries into national idioms, these members of a transnational minority have helped shape the visual contours of Indonesian belonging even as their own place within the nation remains tenuous. *Refracted Visions* illuminates the ways that everyday photographic practices generate visual habits that in turn give rise to political subjects and communities.
