Beetle: the Autobiography of a Virtual Girl Michael Wescott Loder,2019-11-26 Lanie Whitehead, a smartass, interfering but compassionate virtual girl, attempts to insure a future for her nerdy creator and his girlfriend during their last year on a university campus. How do paranoid administrators and a possessive former boyfriend deal with a person who does not really exist, can walk through any wall, listen to any conversation, but cannot ever leave campus or actually touch anything inanimate? And what is she to do if her computer shuts off, and when someone turns it back on, it's a dozen years later, and every person she knows is gone? Being a super-smart virtual girl, she investigates, discovers the truth and kicks butt. A bitter-sweet, often funny story of courage, growth, love and finding understanding.

We Are Anonymous Parmy Olson,2012-06-05 A thrilling, exclusive expose of the hacker collectives Anonymous and LulzSec. WE ARE ANONYMOUS is the first full account of how a loosely assembled group of hackers scattered across the globe formed a new kind of insurgency, seized headlines, and tortured the feds-and the ultimate betrayal that would eventually bring them down. Parmy Olson goes behind the headlines and into the world of Anonymous and LulzSec with unprecedented access, drawing upon hundreds of conversations with the hackers themselves, including exclusive interviews with all six core members of LulzSec. In late 2010, thousands of hacktivists joined a mass digital assault on the websites of VISA, MasterCard, and PayPal to protest their treatment of WikiLeaks. Other targets were wide ranging-the websites of corporations from Sony Entertainment and Fox to the Vatican and the Church of Scientology were hacked, defaced, and embarrassed-and the message was that no one was safe. Thousands of user accounts from pornography websites were released, exposing government employees and military personnel. Although some attacks were perpetrated

by masses of users who were rallied on the message boards of 4Chan, many others were masterminded by a small, tight-knit group of hackers who formed a splinter group of Anonymous called LulzSec. The legend of Anonymous and LulzSec grew in the wake of each ambitious hack. But how were they penetrating intricate corporate security systems? Were they anarchists or activists? Teams or lone wolves? A cabal of skilled hackers or a disorganized bunch of kids? WE ARE ANONYMOUS delves deep into the internet's underbelly to tell the incredible full story of the global cyber insurgency movement, and its implications for the future of computer security.
