**Marriage Is Not a Vision It Is a Strategy** Etim Uso,2017-11-07 There is no doubt that the marriage institution has been disrupted in many ways. Infidelity, divorce, domestic violence, and same-sex marriage are some of the visible signs. However, the human and economic tolls arising from this disruption go far beyond what we can readily see. You have probably read or heard all the things the Bible says about marriage; you still remember all the things your parents or your pastor told you about marriage, and maybe, you have also tried out some of the recipes for a happy and successful marriage. Most of what has been written and said about marriage come from good husbands and good wives who are happily married and are too careful to rock the boat. They keep to the beaten track even when it is obvious that things are not working according to the general prescriptions and assumptions. Now, what about those things you have never heard? I mean those things that could contradict some of your cherished doctrines and beliefs? Yes, you believe in marriage vows, you believe in one man one wife marriages; perhaps, you were also given a set of rules on love, submission in marriage, or the formula for a successful marriage. You were probably told the type of people you should marry and those you should not based on their backgrounds. Maybe you know nothing at all about all these. Never mind! Nothing will shield you from the vicissitudes of marriage; there is no absolute guarantee against failure. But you can reduce your odds of failure by acting consciously and proactively, and by taking your time to find out and understand who you are, your purpose and vision in life, before making the strategic decision of who to marry. What is the goal of marriage? And how do the requirements for running a successful business differ from those of having a successful marriage? This book is an attempt to develop a general framework for marriage based on proven business principles and guided by scriptural precepts. The central theme in this book is that marriage should be approached as a strategy for achieving a larger goal means to an end and not an end in itself. And since the success of any strategy depends on two key factors planning and execution the materials in this book can be classified into two broad categories, namely, planning and execution of marriage as a strategy. However, the book comes with some curious icing on the cake: Every love is driven by need, and love that is devoid of attraction is nothing but kindness. Love, though necessary, is not a sufficient condition for marriage. Infidelity is a liberal ground for divorce when compared to some of the evils plaguing marriages in our society today. Adultery is not an extramarital affair. Wedding vows make a deity of marriage and invalidates God's divine grace on marriage. There is nothing sinful about polygamy, and there is no virtue or holiness in celibacy. If you are tired of reading marriage cookbooks written by good husbands and good wives and their hunky-dory marriages, then you will find this book a welcome break. However, the book could set husbands against their wives and wives against husbands, but it has a higher potential to unite sincere husbands and wives around a common vision that can bring lasting happiness and fulfillment to their marriages.

**Bible Vision Book** Edward Gaines,2019-12-28 Habakkuk 2:1-20 ESV / I will take my stand at my watch post and station myself on the tower, and look out to see what he will say to me, and what I will answer concerning my complaint. And the Lord answered me: Write the vision; make it plain on tablets, so he may run who reads it. For still the vision awaits its appointed time; it hastens to the end-it will not lie. If it seems slow, wait for it; it will surely come; it will not delay. Behold, his soul is puffed up; it is not upright within him, but the righteous shall live by his faith. Moreover, wine is a traitor, an arrogant man who is never at rest. His greed is as wide as Sheol; like death, he has never enough. He gathers for himself all nations and collects as his own all peoples. ...

Infinite Vision Pavithra K. Mehta,Suchitra Shenoy,2011 The Aravind Eye Hospital, based in India, is the world's largest provider of high-quality eye care. It is also one of the world's most incredible and revolutionary organizations - delivering surgical outcomes equal to or exceeding those in the developed world at less than one percent of the cost, treating more than half of its patients free of charge, and taking no grants or donations. Aravind's success is so perplexing it has been the subject of a popular Harvard Business School case study. This is the first book to explore Aravind's history and the distinctive philosophies, practices, and commitments that are the keys to its success. Mehta and Shenoy share incredible stories about how Aravind grew from humble beginnings--founded by a retired ophthalmologist with no money or prior entrepreneurial experience--to the world-class organization it is today. They explain the mysteries of a model that integrates innovation with empathy, service with business principles, and inner change with outer transformation. And they show how choices that seem foolish and unworkable can, when executed with compassion and integrity, yield powerful results - results that literally light the eyes of millions.--Provided by publisher.

**The Purpose of My Vision** Jerome G. Wolcott,2011-11 On a sunny and warm Sunday on August 19, 2007 I was kneeling and praying in St. Raymond of Penafort church which lies in the country on a rolling hill in Fall Creek, Wisconsin. The altar in this beautiful church has large windows which overlook a rock formation and a waterfall. Inside the church there is a large stone wall on each side of the altar. While I was praying and looking at the beautiful view the most astounding event of my life occurred. Jesus appeared to me! He was behind the altar on the left side. I was viewing his right side profile. He moved slowly to the right behind the altar and across the opening between the altar and the stone wall. He was dressed in a white gown and his hands were in a praying position. There was an aura all around his profile. Why did this miraculous vision appear to me?

**The King of Taos** Max Evans,2020-06-01 The underground world of con men, winos, prostitutes, laborers, and artists has been an abundant source of material for great writers from Dickens to Bukowski. The underground world of Taos, New Mexico, is no different. In the late 1950s this mountain town was higher, brighter, poorer, and farther removed than London, Paris, or Los Angeles, but it was every bit as rich for the explorations of a young writer. Max Evans, the beloved New Mexican writer of such enduring classics of Western fiction as *The Rounders* and *The Hi-Lo Country*, returns to form with *The King of Taos*. Set in the late 1950s, the novel tells the stories of sharp-witted Zacharias Chacon, aspiring artist Shaw Spencer, and a circle of characters who drink, fight, love, argue, and—mostly—talk. Readers will enjoy this witty and moving evocation of unforgettable characters as they look for work, love, comfort, dignity, and bottomless oblivion.

*Sexless in the City* Kat Harris,2021-04-20 Discover a renewed biblical vision for sex, singleness, and relationships, and transform into an empowered woman of faith equipped to navigate today's dating culture with vision, clarity, and freedom. Let's face it: being single in today's culture as a woman of faith can be a STRUGGLE FEST. But it doesn't have to be. With real talk and straight wisdom, speaker, podcaster, and founder of The Refined Woman Kat Harris says it's time for a new conversation about singleness, sex, and desire. Growing up at the height of the purity movement, Kat knew this much: good Christians don't have sex until marriage. But approaching 30 and thrust into the New York City dating scene, she found a set of rules was not a compelling enough reason to keep her clothes on. Caught between purity culture's rules and popular culture's do what feels good, Kat began a multi-year journey searching for answers to the biggest questions about sexuality and faith: What does the Bible really say about sex? Why does almost everyone deal with some sort of sexual shame? But really--what's a single girl to do with her sexual desire? What if we never get married . . . then what? It turns out Kat was asking questions that countless women were dying to ask but didn't know they had the permission to do so. Hungry for clarity, she researched, wrestled, and discovered a God who wasn't afraid or ashamed of sex and desire as she thought He might be. In actuality, God created sex and desire within humanity and called it very good. Now she believes God desires to restore a generation disillusioned with purity culture and Christian dating, discouraged about their singleness, ashamed of their sexual desire, and uncertain how to practically walk this season out well. Join Kat on her messy, sometimes painful, and always honest journey to discovering God's heart for sexuality, desire, singleness, and our purpose within it all.

*Crashing Through* Robert Kurson,2008-08-19 Mike May spent his life crashing through. Blinded at age three, he defied expectations by breaking world records in downhill speed skiing, joining the CIA, and becoming a successful inventor, entrepreneur, and family man. He had never yearned for vision. Then, in 1999, a chance encounter brought startling news: a revolutionary stem cell transplant surgery could restore May's vision. It would allow him to drive, to read, to see his children's faces. But the procedure was filled with gambles, some of them deadly, others beyond May's wildest dreams. Beautifully written and thrillingly told, *Crashing Through* is a journey of suspense, daring, romance, and insight into the mysteries of vision and the brain. Robert Kurson gives us a fascinating account of one man's choice to explore what it means to see--and to truly live. **The World That Could Have Been** Bijan Anjomi,2010-08-23 What if Adolf Hitler had developed nuclear weaponry by 1941 and had won the war ... and only you had the power to travel back in time to stop him? THE WORLD THAT COULD HAVE BEEN, by Bijan Anjomi, one of America's most successful nonfiction authors in the field of spirituality, tells the story of John Potter, a restaurant owner in Nazi-controlled Orange County, California in the year 1967. John, forty, like others of his generation, has never come to terms with the Nazi takeover of the United States (and the rest of the world), and harbors the deep desire to contribute somehow to the movement that would uproot the Nazi occupation from his beloved country. At the same time, John's father, an intelligence agent who had been sent to Germany by the United States government in the early 1930s, was captured and killed by the Nazis, thus contributing a personal level of dedication on John's part to the anti-Nazi cause. The only problem is that one man can have no effect on the future of world affairs ... especially a man running a restaurant that, like it or not, caters to high officials of the Nazi regime in Southern California. But then it dawns on John: look how much evil one individual, Adolf Hitler, was able to perpetrate in his lifetime (which in the story, never ends, as Hitler celebrates his ninety-first birthday as the story opens). If one man is able to create so much evil in the world, John muses, perhaps one man could create an equal or superior amount of good. John gets his wish when one day he discovers a time travel machine placed in his basement by the "Ancients,"

"*Lazy, Improvident People*" Ruth MacKay,2018-07-05 Since the early modern era, historians and observers of Spain, both within the country and beyond it, have identified a peculiarly Spanish disdain for work, especially manual labor, and have seen it as a primary explanation for that nation's alleged failure to develop like the rest of Europe. In *Lazy, Improvident People*, the historian Ruth MacKay examines the origins of this deeply ingrained historical prejudice and cultural stereotype. MacKay finds these origins in the ilustrados, the Enlightenment intellectuals and reformers who rose to prominence in the late eighteenth century. To advance their own, patriotic project of rationalization and progress, they disparaged what had gone before. Relying in part on late medieval and early modern political treatises about vile and mechanical labor, they claimed that previous generations of Spaniards had been indolent and backward. Through a close reading of the archival record, MacKay shows that such treatises and dramatic literature in no way reflected the actual lives of early modern artisans, who were neither particularly slothful nor untalented. On the contrary, they behaved as citizens, and their work was seen as dignified and essential to the common good. MacKay contends that the ilustrados' profound misreading of their own past created a propagandistic myth that has been internalized by subsequent intellectuals. MacKay's is thus a book about the notion of Spanish exceptionalism, the ways in which this notion developed, and the burden and skewed vision it has imposed on Spaniards and outsiders. *Lazy, Improvident People* will fascinate not only historians of early modern and modern Spain but all readers who are concerned with the process by which historical narratives are formed, reproduced, and given authority.

**3D Imaging, Analysis and Applications** Yonghuai Liu,Nick Pears,Paul L. Rosin,Patrik Huber,2020-09-11 This textbook is designed for postgraduate studies in the field of 3D Computer Vision. It also provides a useful reference for industrial practitioners; for example, in the areas of 3D data capture, computer-aided geometric modelling and industrial quality assurance. This second edition is a significant upgrade of existing topics with novel findings. Additionally, it has new material covering consumer-grade RGB-D cameras, 3D morphable models, deep learning on 3D datasets, as well as new applications in the 3D digitization of cultural heritage and the 3D phenotyping of crops. Overall, the book covers three main areas: ● 3D imaging, including passive 3D imaging, active triangulation 3D imaging, active time-of-flight 3D imaging, consumer RGB-D cameras, and 3D data representation and visualisation; ● 3D shape analysis, including local descriptors, registration, matching, 3D morphable models, and deep learning on 3D datasets; and ● 3D applications, including 3D face recognition, cultural heritage and 3D phenotyping of plants. 3D computer vision is a rapidly advancing area in computer science. There are many real-world applications that demand high-performance 3D imaging and analysis and, as a result, many new techniques and commercial products have been developed. However, many challenges remain on how to analyse the captured data in a way that is sufficiently fast, robust and accurate for the application. Such challenges include metrology, semantic segmentation, classification and recognition. Thus, 3D imaging, analysis and their applications remain a highly-active research field that will continue to attract intensive attention from the research community with the ultimate goal of fully automating the 3D data capture, analysis and inference pipeline.
