Joseph,2023-01-03 Structural heart disease encompasses a wide range of abnormalities involving noncoronary structures like the heart's valves, walls, and chambers. The last decade emphasized the burden of the disease and revolutionized the treatment strategies. The number of percutaneous structural heart interventions constantly increases worldwide. While some parts of the world acquire experience with various intervention treatments, techniques, and devices, others are paving their first steps. **Complex Cases in Structural Heart Interventions** provide a descriptive and highly illustrative insight into unique clinical situations managed by one of the world's most experienced and innovative teams. Each case study contains a clinical presentation, imaging analysis, procedural dilemmas, and resulting outcome. A detailed explanation of the technique used, key points and tips were highlighted, and a literature review covered broad knowledge on each topic. The authors shared their knowledge and distinctive solutions from over a decade of experience to ensure an educational adventure for the medical community and a roadmap for interventional heart teams.

Vivek and I Mayur Patel,2010 'Vivek was all I wanted. I was ready to do anything for him. He reminded me of Krishna, the love that I had lost and yet he was so different-young, innocent, totally oblivious to the ills of the world, unmindful of my deep desire to possess him, make him my own. It was all consuming, this need,this craving . . . 'A brokenhearted Kaushik arrives in the small, sleepy town of Valai, leaving his disturbing past behind. And even as Valai proves to be anything but slow and laid back, with all its scandals and

rumour mongering, Kaushik falls in love again-this time with Vivek. However, the rush of love he feels for this young, innocent village boy is not without its dilemmas-is it the right thing to do? Would Vivek understand if Kaushik tells him the truth about his sexuality? As his love becomes an obsession, life turns into a game of manipulation for Kaushik. Until destiny intervenes and takes him on a course that he neither has any control over nor is he able to change.

Odysseus Abroad Amit Chaudhuri, 2015-10-14 In this highly acclaimed novel, Amit Chaudhuri tells us the story of one unremarkable July day in 1980s’ London. Ananda, student of poetry, is lonely, and somewhat fraught, as he grapples with the big questions of literature. His uncle, Radhesh, a bachelor leading an early retired life in a Belsize Park bedsit, is self-involved, eccentric. On this day, they find uncertain companionship as they circle around their past and take stock of their place in the city. Ananda and Radhesh both provide a foil to each other and yet remain apart, as Chaudhuri shows why he is considered his generation’s best chronicler of acutely

observed life.

Granta 130 Ian Jack, 2015-01-29 For a long time - too long - the mirror that India held to its face was made elsewhere. 'What writer about the country would you recommend I read?' first-time travellers to India would ask, and in the late twentieth century the answer was still Forster or Naipaul or even the long-dead Kipling. In fiction, that changed with Rushdie. Now it has changed in all kinds of non-fiction. Narrative history, reportage, memoir, biography, the travel account: all have their gifted exponents in a country perfecting its own frank gaze. In this special issue, Aman Sethi's 'Love Jihad' gives us insight into the riots, religious fractiousness, mob mentality and political manipulations that have come to define day-to-day life in Uttar Pradesh; Samanth Subramanian investigates the legacy of postcolonialism among Mumbai's elite at one of the city's oldest exclusive clubs; Raghu Karnad reveals the secret and terrible history of a great Delhi monument; Amitava Kumar brings us with him into a richly detailed world of grief at his mother's funeral pyre on the banks of the Ganges; and Sam Miller follows Gandhi's footsteps through Victorian London. Photographer Gauri Gill and artist Rajesh Vangad take a fresh look at an Indian village and embellish its present with its past, and Katherine Boo introduces the photographs that helped her write *Behind the Beautiful Forevers*. Hari Kunzru imagines an Indian future where inequality is taken to an all-too-

imaginable extreme; the 'English Summer' of 1985 is brought to life in an excerpt from Amit Chaudhuri's *Odysseus Abroad*; and Anjali Joseph invites us into the mind of an ageing cobbler as he splices together the loose strands of his memories. *Granta* 130: India features more fiction by Upamanyu Chatterjee, Deepti Kapoor, Kalpana Narayanan, Vivek Shanbhag, Neel Mukherjee; a story by one of India's finest - and unduly neglected - prose writers, Arun Kolatkar; and poetry by Tishani Doshi, Anjum Hasan, Vinod Kumar Shukla and Karthika Nar.

Novel Drug Delivery Technologies Ambikanandan Misra, Aliasgar Shahiwala, 2020-02-12 The application of drug delivery is a valuable, cost-effective lifecycle management resource. By endowing drugs with new and innovative therapeutic benefits, drug delivery systems extend products' profitable lifecycle, giving pharmaceutical companies competitive and financial advantages, and providing patients with

improved medications. Formulation development is now being used to create new dosage forms for existing products, which not only reduces the time and expense involved in new drug development, but also helps with regard to patent protection and bypassing existing patents. Today's culture demands convenience, a major factor determining adherence to drug therapy. Over the past few years, patient convenience-oriented research in the field of drug delivery has yielded a range of innovative drug-delivery options. As a result, various drug-delivery systems, including medicated chewing gums, oral dispersible tablets, medicated lozenges and lollipops, have now hit the market and are very popular. These dosage forms offer a highly convenient way to dose medications, not only for special population groups with swallowing difficulties, such as children and the elderly, but for the general populace as well.
