**Cultivating Qi** Jun Wang, Ph.D., C.M.D.,2011-01-25 While Chinese acupuncture and herbalism enjoy widespread popularity in the West, traditional Chinese exercise techniques—with the exception of qi gong—have rarely been taught outside China. This book is designed to change that. Written by Jun Wang, a doctor of Chinese medicine, Cultivating Qi draws on classic Chinese texts to introduce these body-mind healing exercises to Western readers. In simple, accessible language, Wang presents three specific qi exercises: the Yijin Jing, a popular form of calisthenics associated with both Chinese Buddhist and Daoist traditions; Taiji Neigong, a series of 34 movements adapted from the Wu-Hao style of Taiji Quan; and the “Six Healing Breaths,” which combines spoken sounds with movements associated with the six major vital organs of Chinese medicine. Written for beginning students of Chinese medicine as well as laypersons, healthcare practitioners, and martial artists, Cultivating Qi includes clear explanations of Chinese medical terminology—and provides the original Chinese characters for more advanced students—as well as step-by-step instruction in the three exercises. Accompanied by 100 photographs, these exercises are suitable for all ages and activity levels, and most of them take no more than 10 to 15 minutes to complete.

Lee's middle grade debut about a lonely Hmong girl who discovers she's a powerful shaman warrior in this fantasy inspired by Southeast Asian mythology. I love the adventures Pahua has in this book. **Memory, Subjectivity and Independent Chinese Cinema** Qi Wang,2014-09-19 Memory, Subjectivity and Independent Chinese Cinema provides a historically informed examination of independent moving image works made between 1990 and 2010 in China. Showcasing an evolving personal mode of narrating memory, documenting reality, and inscribing subjectivity in over sixteen selected works that range from narrative film and documentary to experimental video and digital media (even including a multimedia avant-garde play), this book presents a provocative portrait of the independent filmmakers as a peculiarly pained yet active group of historical subjects of the transitional, post-socialist era. Through a connected investigation of cultural and cinematic concepts including historical consciousness, personal memory, narrative, performance, subjectivity, spatiality, and the body, Wang weaves a critical narrative of the formation of a unique post-socialist cultural consciousness that enables independent cinema and media to become a highly significant and effective conduit for historical thinking in contemporary China. Covering directors such as Zhang Yimou, Chen Kaige, Jia Zhangke, Jiang Wen, Lou Ye, Meng Jinghui, Wang Bing, Wang Guangli, Duan Jinchuan, Cui Zi'en, Shi Tou, and Tang Danhong, this book is essential reading for all students and scholars in Chinese film.

**Wang Fuzhi's Reconstruction of Confucianism** Mingran Tan, 2021-09-17 Wang Fuzhi (1619-1692), a Ming loyalist, was forced to find solutions for both cultural and political crises of his time. In this book Mingran Tan provides a comprehensive review of Wang Fuzhi's understanding of historical events and his interpretation of the Confucian classics. Tan explains what kind of Confucian system Wang Fuzhi was trying to construct according to his motto, "The Six Classics require me to create something new". He sought a basis for Confucian values such as filial piety, humanity and ritual propriety from political, moral and cosmological perspectives, arguing that they could cultivate a noble personality, beatify political governance, and improve social and cosmological harmony. This inspired Wang Fuzhi's attempt to establish a syncretic blend of the three branches of Neo-Confucianism, i.e., Zhu Xi's (1130-1200) philosophy of principle, Wang Yangming's (1472-1529) philosophy of mind and Zhang Zai's (1020-1077) philosophy of qi (material force). The most thorough work on Wang Fuzhi available in English, this study corrects some general misunderstanding of the nature of Wang Fuzhi's philosophy and helps readers to understand Wang Fuzhi from an organic perspective. Building upon previous scholars' research on Wang Fuzhi's notion of moral cultivation, Tan gives a comprehensive understanding of how Wang Fuzhi improves social and cosmological harmony through compliance with Confucian rituals.

*Remembering and Forgetting Early Childhood* Qi Wang, Sami Gülgöz, 2020-05-21 This book brings together scholarship that contributes diverse and new perspectives on childhood amnesia – the scarcity of memories for very early life events. The topics of the studies reported in the book range from memories of infants and young children for recent and distant life events, to mother-child conversations about memories for extended lifetime periods, and to retrospective recollections of early childhood in adolescents and adults. The methodological approaches are diverse and theoretical insights rich. The findings together show that childhood amnesia is a complex and malleable phenomenon and that the waning of childhood amnesia and the development of autobiographical memory are shaped by a variety of interactive social and cognitive factors. This book will facilitate discussion and deepen an understanding of the dynamics that influence the accessibility, content, accuracy, and phenomenological qualities of memories from early childhood. This book was originally published as a special issue of *Memory*.

Memory Online Qi Wang, 2022-12-30 This book presents cutting-edge research on memory in the age of the Internet and social media. The empirical studies reported in the ten chapters address the influence of the digital age on remembering in three broad areas: offloading memory and the associated costs, benefits, and boundary conditions; autobiographical memory online; and false memory at a time of fake news and misinformation. These studies employ innovative and rigorous methodological approaches that are ecologically valid in the online context. Their findings reveal complex and dynamic characteristics of human memory in a digitally mediated world that shapes our learning, our sense of self, and our beliefs and decision making. Collectively, the chapters in this volume provide rich theoretical insights into the workings and functions of memory. This book ushers in a new era of research on memory in the age of digitization. *Memory Online* will be a beneficial read for students and scholars of Psychology, Cognitive Science, Communication, and Media Studies. The chapters in this book were originally published as a special issue of *Memory*.

Research on the Chinese Work Unit Society Han Lin Li,Qi Wang,1996 The book concentrates on the problem of the phenomena of the Chinese work unit. In this book we try to answer the question why the Chinese society can be treated as a work unit society. How do the work unit organizations influence the every day life of Chinese people? What are their social functions? Where do they come from? How does the work unit organization affect the social integration and social control in the Chinese society? Part one is a general literature review about the work unit organization which is concerned with the problem of how it motivates people. Part two is a cognitive description of the current work unit organization: its characteristics, its historical roots, and its development. Part three is a historical study about the Chinese traditional clan system. It argues that striking similarities exist between the Dan Wei organization and the clan system. Part four and five are case studies about this work unit society from a different point of view, based on the surveys in 1987 and 1993.

**Revisiting Gender Inequality** Qi Wang,Min Dongchao,2016-04-08 One of the widely acknowledged consequences of the economic reforms in China over the past four decades has been widened social-gender gap and hence increased gender inequalities. In recent years, there is a rising concern of inequality in China and a mounting intellectual reflection and critique of the growth-focused development path China has followed so far. This collection can be seen as a part of this critique, but the focus is on gender and various forms of inequality pertaining to gender and gender relations. The book shows how various gender inequality issues are approached and analysed in the location of China by Chinese gender/social science scholars and how studies of gender inequality constitutes an astute critique of the neo-liberal capitalist development in China. The book brings forth a distinctive gender perspective to the Chinese intellectual and political analysis of social inequality and a Chinese perspective to the bulks of international scholarship on gender inequality in China.
