Penne for Your Thoughts Simone C. Greene,2022-11-03 Penne for Your Thoughts is a cookbook full of information to help one understand the difference between food allergy and food intolerance as well as provoke thoughts on nutrition. Many of the wide array of recipes are typical everyday dishes converted to be free from common allergens--such as wheat gluten, casein (dairy), soy, corn, egg, and nuts--by substituting various ingredients for more natural/organic allergy-safe ingredients. It is designed so one can draw from it what they need. The reality is that there are a lot of people that have food allergies/intolerances. Many have multiple sensitivities and do not realize it. The real challenge is trying to eliminate common allergens because they are everywhere. Based on a person's level of sensitivity, a reaction can be mild to severe, or even life-threatening. For many, it is not possible to buy french fries at the food court, snack on cheeseballs while on a playdate, or sit beside someone else eating peanut butter. This is not just another gluten-free cookbook. It is a map of a mom's journey, where through perseverance she stayed the course and found ways to make life better for her son. At first, the goal was just to make gluten-free pancakes and bread. However, throughout the process, she found grocery shopping frustrating since many gluten-free items were not corn-free. If it were dairy-free, it was not soy-free. If it were nut-free, it was still manufactured in a facility that processed gluten, dairy, soy, nuts, etc. Quickly she found gluten-free flour very different from regular flour and that eliminating dairy and eggs would also be challenging. As a result of her determination and willpower, Penne for Your Thoughts is hereby presented to you with Max's favorite shaped pasta, a whole array of information, and recipes to ponder.

**Pcd Has Nothing on Me!** Chloe Fernandez,2016-03-28 Getting sick when you're a kid is no fun. You can't always do what other kids can do, or go to school like they do. Sometimes it means spending lots of time in the hospital. She sees the nurses in the hospital almost more than her friends. It can be scary, frustrating and boring. Chloe R Fernandez knows this all too well! When she was just six years old, she was diagnosed with chronic obstructive lung disease due to underlying Primary Ciliary Dyskinesia (PCD). PCD is a genetic disorder. A body with PCD can't clear its own airway secretions. She's faced many scary moments when she couldn't draw a breath and has endured painful and embarrassing treatments. But throughout it all, Chloe has remained positive and upbeat. During her hospitalizations Chloe befriends the nurses, doctors, staff and acts as the Resident doctor on call. One of her strongest beliefs is that life is what you make it, and her most avid advice is stay faithful always. Children of all ages, grappling with any kind of illness or condition, will find both an understanding and comfortable friend in Chloe.
