📖 **Violence** Alex Alvarez,Ronet Bachman,2016-10-14 The third edition of Violence: The Enduring Problem offers an interdisciplinary and reader-friendly exploration of the patterns and correlations of individual and collective violent acts using the most contemporary research, theories, and cases. Responding to the fear of pervasive violence in the world, authors Alex Alvarez and Ronet Bachman address the various legislative, social, and political efforts to curb violent behavior. They expertly incorporate a wide range of the most current cases to help readers interpret the nature and dynamics of a variety of different, yet connected, forms of violence. While most texts of this type simply cover individual acts of violence, this book offers readers a broader perspective, covering more collective violence activities such as terrorism, mob violence, and genocide.

📖 **Sawtooth Sunset Ranch** Naomi Wadsworth,2003-08 This book proposes that a new sense of self is emerging in human beings. It is a divine or Christ sense of self that transcends the current ego sense of self as the Lord of one’s being. It is a change in human nature. Unlike previous evolutionary steps this one happens in human consciousness. When this new sense of self is experienced an individual gains an unprecedented ability to create a life abundantly full of meaning, satisfaction and joy. This new life is characterized by reduced struggle and stress and increased peace of mind. This book presents a proven way to experience this new sense of self through the principles of Evolutionary Spirituality. They are presented as an evolved form of the twelve steps well known to the recovery community. This transformational change in human consciousness is a natural continuum of five billion years of the evolution of life on earth. This evolutionary approach to growth and change is different and more effective than others because it provides a new kind of release from self-condemnation. This release makes it possible for people to break through the denial that is the main stumbling block to authentic transformation. The reader will be able to see how this evolutionary approach makes the teachings of Jesus Christ more understandable, accessible and practical.

📖 **The Landscape of Reform** Ben A. Minter,2006 In The Landscape of Reform Ben Minter offers a fresh and provocative reading of the intellectual foundations of American environmentalism, focusing on the work and legacy of four important conservation and planning thinkers in the first half of the twentieth century: Liberty Hyde Bailey, a forgotten figure in the progressive conservation movement; urban and regional planning theorist Lewis Mumford; Benton MacKaye, the forester and conservationist who proposed the Appalachian Trail in the 1920s; and Aldo Leopold, author of the environmentalist classic A Sand County Almanac . Minter argues that these writers blazed a significant third way in environmental ethics and practice, a more pragmatic approach that offers a counterpoint to the anthropocentrism-versus-ecocentrism—use-versus-preservation—narrative that has long dominated discussions of the development of American environmental thought. Minter shows that the environmentalism of Bailey, Mumford, MacKaye, and Leopold was also part of a larger moral and political program, one that included efforts to revitalize democratic citizenship, conserve regional culture and community identity, and reclaim a broader understanding of the public interest that went beyond economics and materialism. Their environmental thought was an attempt to critique and at the same time reform American society and political culture. Minter explores the work of these four environmental reformers and considers two present-day manifestations of an environmental third way: natural systems agriculture, an alternative to chemical and energy-intensive industrial agriculture; and new urbanism, an attempt to combat the negative effects of suburban sprawl. By rediscovering the pragmatic roots of American environmentalism, writes Minter, we can help bring about a new, civic-minded environmentalism today.
