Big Media, Big Money Ronald V. Bettig, Jeanne Lynn Hall, 2012 Big Media, Big Money is a lively and scathing critique of the contemporary communications industry, examining how media ownership and the profit-making motive affect the messages we receive in alarming ways. Through close readings of recent news events and critical examination of corporate influence, Bettig and Hall conclude that current interconnections among media, big business, government, and education pose a serious threat to democratic communications. The second edition includes three new chapters, covering the contemporary Hollywood film industry; the changing landscape of the music industry; and ad creep, the proliferation of advertising into previously ad-free venues such as schools and children's television programming.

Summary of Pat Conroy's The Water Is Wide Everest Media, 2022-03-09T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 The superintendent is the remote deity of the southern school system. He hires and fires, manipulates the board of education, and maintains the status quo. #2 Yamacraw is an island off the South Carolina mainland not far from Savannah, Georgia. It is populated with black people who depend on the sea and their small farms for a living. Several white families live on the island in a paternalistic but symbiotic relationship with their neighbors. #3 The parable of Yamacraw is a story of how the black people of an island supported themselves well, worked hard, and lived up to the sacred tenets of the Protestant ethic. Then a villain came and contaminated the creeks, which led to the oysters dying and the people dying with them. #4 I was a nomad growing up, moving constantly with my military father. I loved the smooth-watered fifties, when I worried about the top-ten tunes and the homecoming queen.

Summary of Ron Adner's The Wide Lens Everest Media, 2022-05-28T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 In a world of stand-alone projects, where outcomes are determined by how well you and your team deliver on your initiative, the answer is success. But over the past two decades, we have seen a shift away from independent success. Now, your success depends on your collaborators' efforts as well. #2 In the early 1990s, Michelin was in an enviable position. It was the largest tire maker in the world and the most innovative. It saw the run-flat as a revolutionary growth engine not only for the company but for the entire tire industry. #3 When your success depends on others, as it did for Michelin, execution is not enough. You must also have a well-thought-out innovation strategy. #4 The PAX System was designed to eliminate the danger of underinflated tires and flats, which were both common and dangerous. It was a completely new approach.

Summary of Mark Leibovich's Big Game Everest Media, 2022-03-04T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 The membership is not pleased with the changes, and want heads to roll. The kids are running through the lobby in bathing suits, and the owners are not fans of the resort or the club. #2 The NFL's winter meetings should take place about an hour north of Miami. The Breakers in Palm Beach is the league's first choice, but it's not close enough to the water. As tycoons, they consider themselves pillars of their communities. #3 The NFL's annual meetings, as well as the league's overall success, convey a sense of the organization's permanence. The league's owners, the Membership, are a disparate group of Roman-like figures who view themselves as noble stewards of their communities. #4 The NFL also has meetings between the Super Bowl and the NFL Draft, which are the first official events of the new NFL year. The Shield, which stands for big notions like Respect, Resiliency, and Integrity, is a symbol of almost mystical power.

Summary of Jennifer Taub's Big Dirty Money Everest Media,2022-09-12T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 There's a lot more crime going on than we think, and the data we have on it are skewed. Sutherland's lecture on the criminal class was not well received, to say the least. He took a beating. The leading experts in the field had little patience for his ideas. -> Sutherland's lecture on the criminal class was not well received, to say the least. They myopically focused on such crimes as murder, assault, burglary, robbery, larceny, sex offenses, and drunkenness. #2 Sutherland's theory was that crime was not concentrated among the poor, but rather was rampant among professionals and businessmen. #3 Sutherland's lecture on the criminal class was not well received, and the leading experts in the field had little patience for his ideas. He believed that crime was not concentrated among the poor, but rather was rampant among professionals and businessmen. #4 Sutherland's lecture on the criminal class was not well received, and the leading experts in the field had little patience for his ideas. They believed that crime was concentrated among the poor, not professionals and businessmen.

Media Bias and the Role of the Press Eamon Doyle,2018-07-15 In a democratic society, the role of the press is usually characterized by neutrality and the necessity of an informed electorate. The journalist's ethic is to present facts with minimal interpretation. Over the decades, however, this strict code has evolved and opened up, and thanks to the internet, an alternative media has risen. This has led to accusations of media bias and condemnation of certain media outlets by powerful elected leaders. The viewpoints in this volume explore the obligations of the media, the rise of satirical news outlets, and how to interpret news in a post-fact era.

Big Media, Little Media Wilbur Schramm,1973

Summary of Bo Burlingham's Finish Big Everest Media,2022-03-13T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 Ray Pagano, the founder of Videolarm, had a life after business when he decided to think about leaving in 2004. He had other interests and passions that he wanted to pursue, and he had a limited number of years to pursue them. #2 Pagano knew he had to extract himself from the company in order to get a good deal. He knew that as long as he was essential to the company's operation, he would not be able to acquire other companies. He had to remake the company so that it could function without him if he wanted to get a good deal. #3 Pagano began giving everyone in the company a tangible reason to take on more responsibility by giving them phantom stock, which would allow them to benefit from any increase in Videolarm's equity value without having to acquire real stock. #4 After the sale, Pagano was able to look back and see how much he had changed the company. He had set up an incentive program for the entire workforce, based on achieving certain profit targets for the company and specific goals for each department. The targets were ambitious, but Pagano kept raising the bar.

Summary of Irene Aldridge & Marco Avellaneda's Big Data Science in Finance Everest Media, 2022-03-01T21:00:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 Radio-Frequency Identification, or RFID, chips are embedded in almost every product you can buy, and are used to collect data about your shopping preferences, habits, and lifestyle. #2 Big Data is not just affecting financial organizations, but all corporations. The amount of data generated by financial institutions is at a record-setting number, and yet few portfolio managers have the skills to process it. #3 Big Data Finance is not just opening doors to a select group of data scientists, but also an entire industry that is developing new approaches to harness these data sets and incorporate them into mainstream investment management. #4 The demand for Big Data scientists is growing, as companies realize the importance of efficient Big Data operations. According to Business Insider, US bank J. P. Morgan has spent nearly \$10 billion dollars just in 2016 on new initiatives that include Big Data science.

Migrating Large-Scale Services to the Cloud Eric Passmore, 2016-06-03 This book reveals the technical challenges and successful implementation details of migrating MSN, Microsoft's consumer content portal--a business with 450 million worldwide users--into the Cloud. Following a technique long used in aviation, medicine, and other fields, MSN's Chief Technical Officer, Eric Passmore, describes the set of release, deployment, monitoring, and mitigation checklists used to build cloud services supporting hundreds of millions of users on Azure, Microsoft's Public Cloud. An undertaking of this scale--involving services supported by a large team of engineers--involves unique challenges and

risks. This book demonstrates through personal experience how to cut through the theory and provides checklists as a surprisingly simple antidote to the competing methodologies. This book works at two levels. At a fundamental level, businesses need to be successful in the cloud if they want to seize new opportunities and transform their business to compete successfully. This book provides a framework for success by identifying the hidden work as part of moving to the cloud. At a more practical, level there is an incredible hunger for simple to follow, how-to information on Cloud migration. This book is a reference guide to reduce risk and achieve success without requiring the busy reader to wade through theory. It contains simple to follow, how-to information on cloud migration. It is a reference guide to achieving success, and any team can modify these tasks to fit the needs of their own organization. Who This Book is For: Technology professionals who deploy services in the cloud or are thinking of moving to the cloud. Professionals in the DevOps and Cloud services fields need these skills to succeed in their current jobs or advance their careers.
