Roger Munting

Vegas Vampires William Hill, 2005-12 Since San Francisco's origins as a Gold Rush town, vampires have secretly owned a world-wide chain of casinos. Come the first nightfall of winter, the Gaming Guild will hold the 25th Dark World Gambling Games. Dirk DeVault is obsessed with winning and returning the guild to its former glory.

Better Betting with a Decent Feller Carl Chinn, 2004 Today, branches of chains such as William Hill and Ladbrokes are familiar sights in high streets across Britain, and betting takes place on all sorts of events - from horse-racing to general elections, from football-match results to the likelihood of snow falling on Christmas Day. Yet until 1961 street bookmakers were illegal, and old prejudices are slow to fade away. A stigma is still attached to bookmaking, and for many people bookmakers remain disreputable and shady lot. This book sets out to examine why this is the case. Social historian Carl Chinn was himself a bookmaker, like his father and grandfather before him, and therefore brings his own unique perspective to this lively and highly readable account of the profession's history, from its origins among the sharpsters who hoodwinked punters at racecourses, to the illegal street bookies who offered the working class a tantalising escape from poverty, to the growth of leisure empires such as Coral and William Hill to legalisation, to gambling on the internet and betting on 'virtual' horse races.

20/20 Sports Betting Logan Fields, 2020-10-20 Of the millions of recreational sports gamblers, only a few achieve long-term positive results. Logan Fields is one such bettor and in *20/20 Sports Betting*, he shares his expertise. Fields placed his first sports bet online in 1999 and soon recognized that sports betting was his life's calling. Only four months later, he left his day job and has been wagering on sports ever since. Logan takes readers

through those early years and chronicles how he managed to steadily build his bankroll and quickly transition to become a full-time pro. Baseball, football, golf, NASCAR, hockey, horse racing-name the sport and Fields tells you how to beat it. The author also provides guidance on where sports bettors should play, making money in today's markets, what the future of sports betting has in store, and how anticipated rule changes will affect sports betting markets nationwide. Most importantly, 20/20 Sports Betting details how you need to think and operate to be a winning player in this beatable gambling arena.

Monsieur X Jamie Reid, 2018-03-08 SHORTLISTED FOR THE TELEGRAPH SPORTS BIOGRAPHY OF THE YEAR AWARD 2019 Monsieur X is a dazzling tale of glamour, riches, violence and ultimately tragedy. Patrice des Moutis was a handsome, charming and well-educated Frenchman with an aristocratic family, a respectable insurance business, and a warm welcome in the smartest Parisian salons. He was also a compulsive gambler and illegal bookie. Between the late 1950s and the early 1970s, Des Moutis made a daring attempt to beat the French state-run betting system. His success so alarmed the authorities that they repeatedly changed the rules of betting in an effort to stop him. And so a battle of wills began, all played out on the front pages of the daily newspapers as the general public willed Des Moutis on to ever greater triumphs. He remained one step ahead of the law until finally the government criminalised his activities, driving him into the arms of the underworld. Eventually the net began to close, high-profile characters found themselves the target of the state's investigation, and people began turning up dead...

An Economic and Social History of Gambling in Britain and the USA Roger Munting, 1996 A comparative

history of gambling in Britain and the USA

Gambling Strangest Moments Graham Sharpe, 2015-07-30 Whether it be one pound on the National Lottery or a million pounds on the turn of a card, the instinct to bet is the same. Over the centuries there have been many strange gamblers – and even more strange gambles – and in this unique collection of punts and punters, Graham Sharpe reveals fearless, flamboyant and fantastic flutters. Some of the most extraordinary bets include the male gambler who had a boob job to win a big bet; the gambler who set off to walk round the world wearing an iron mask to land a wager; the man who could genuinely dream winners. Sharpe is also haunted by a couple of ghostly gambles, and looks at the betting propensities of US Presidents – including one who gambled away the White House's finest china. Celebrities who indulge in strange betting practices are unmasked, too – the Marx Brothers, Ben Affleck, James Bond, Kerry Packer, Richard Burton, Oscar Wilde, Professor Stephen Hawking, to name a few. This painstakingly researched, original and unusual offering is an overdue addition to the ever-popular 'Strangest' series – and you can bet on that!

Fortune's Formula William Poundstone, 2010-06-01 In 1956, two Bell Labs scientists discovered the scientific formula for getting rich. One was mathematician Claude Shannon, neurotic father of our digital age, whose genius is ranked with Einstein's. The other was John L. Kelly Jr., a Texas-born, gun-toting physicist. Together they applied the science of information theory—the basis of computers and the Internet—to the problem of making as much money as possible, as fast as possible. Shannon and MIT mathematician Edward O. Thorp took the Kelly formula to Las Vegas. It worked. They realized that there was even more money to be made in the stock market. Thorp used

the Kelly system with his phenomenally successful hedge fund, Princeton-Newport Partners. Shannon became a successful investor, too, topping even Warren Buffett's rate of return. Fortune's Formula traces how the Kelly formula sparked controversy even as it made fortunes at racetracks, casinos, and trading desks. It reveals the dark side of this alluring scheme, which is founded on exploiting an insider's edge. Shannon believed it was possible for a smart investor to beat the market—and William Poundstone's Fortune's Formula will convince you that he was right.

William Hill's Bizarre Bets Graham Sharpe, 1994

Millions of people enjoy a flutter every day, but most

punters are betting on the races or the match - or are they? In his time at William Hill, author Graham Sharpe has seen people willing to bet money on the most outrageous propositions, and has gathered stories of odds, oddities and weird wagers from all over the world. One punter has taken odds of 500/1 that Michael and Latoya Jackson are one and the same person. Completely barmy? Well, Graham thought so until he checked the records and found that there is no record of Latoya before 1987 and that Michael and his sister have never been photographed together.

Soccermatics David Sumpter,2016-05-05 'Football

looked at in a very different way' Pat Nevin, former Chelsea and Everton star and football media analyst

Football – the most mathematical of sports. From shot statistics and league tables to the geometry of passing and managerial strategy, the modern game is filled with numbers, patterns and shapes. How do we make sense of them? The answer lies in the mathematical models applied in biology, physics and economics. Soccermetrics brings football and mathematics together in a mind-bending synthesis, using numbers to help reveal the inner workings of the beautiful game. This new and expanded edition analyses the current big-name players and teams using mathematics, and meets the professionals working inside football who use numbers and statistics to boost performance. Welcome to the world of mathematical modelling, expressed brilliantly by David Sumpter through the prism of football. No matter who you follow – from your local non-league side to the big boys of the Premiership, La Liga, the Bundesliga, Serie A or the MLS – you'll be amazed at what mathematics has to teach us about the world's favourite sport.

The Essential Gambler Graham Sharpe, 1995 Graham Sharpe has gathered the wit and wisdom of writers, celebrities, non-entities, pro-gamblers, and anti-gamblers into this delightful collection. William Hill Graham Sharpe, Mihir Bose, 2014-09 This is the story of how a working class boy born into a family of 13 children in pre-First World War Birmingham grew up to revolutionise the world of betting and bookmaking.

Gambling For Life Harry Findlay, 2017-09 Imagine what it would be like to turn your back on the nine-to-five drudgery of normal working life and risk everything you've

ever had on the fate of a horse race or the outcome of a ball game. In the gambling fraternity, Harry Findlay has earned legendary status. He has been skint dozens of times, won over £20 million and spent just as much. But he will not change. Fearless and formidable, bullish and bombastic, there is no one in the gambling game who can match Harry's style and seismic impact. When he first ran a betting slip through his fingers as a 16-year-old, Harry said he had been handed the keys to the Magic Kingdom. Gambling has taken him all around the globe, enjoying five-star travel and a gourmet indulgence at the world's biggest sporting events. In his much-awaited book, Harry recounts the mind-boggling tales behind the thousand and million pound multi-sport bets that will make ordinary punters shudder including the day he wagered £2.5 million on a rugby match. It is a remarkable life story of ups and downs. Aged 21 years old, he served nearly a year in some of Her Majesty's toughest jails. Who'd have thought he would go on to own Big Fella Thanks, winner of the Derby at Clonmel and the most famous dog to come out of Ireland and be part owner of the legendary racehorse Denman, who carried his colours to Gold Cup glory. Harry's subsequent controversial disqualification from racing destroyed him, despite the ruling being overturned on appeal. Most fascinating of all, Harry tells how he has survived and continues to work his magic in the gambling world, and still believes in his own special talent to read sports events and to continue to stay one step ahead of the internet companies that flood our minds with the temptation to risk so much. Harry Findlay: Gambling For Life reflects one man's extraordinary passion for gambling. How he cannot live without it. And how he knows that, even if he loses all of his money, he can never be a loser.
