Progressives at War Douglas B. Craig,2013-05-01 Craig's study of McAdoo and Baker illuminates the aspirations and struggles of two prominent southern Democrats. In this dual biography, Douglas B. Craig examines the careers of two prominent American public figures, Newton Diehl Baker and William Gibbs McAdoo, whose lives spanned the era between the Civil War and World War II. Both Baker and McAdoo migrated from the South to northern industrial cities and took up professions that had nothing to do with staple-crop agriculture. Both eventually became cabinet officers in the presidential administration of another southerner with personal memories of defeat and Reconstruction: Woodrow Wilson. A Georgian who practiced law and led railroad tunnel construction efforts in New York City, McAdoo served as treasury secretary at a time when Congress passed an income tax, established the Federal Reserve System, and funded the American and Allied war efforts in World War I. Born in the eastern panhandle of West Virginia, Baker won election as mayor of Cleveland in the early twentieth century and then, as Wilson's secretary of war, supervised the dramatic build-up of the U.S. military when the country entered the Great War in Europe. This is the first full biography of McAdoo and the first since 1961 of Baker. Craig points out similarities and differences in their backgrounds, political activities, professional careers, and family lives. Craig's approach in *Progressives at War* illuminates the shared struggles, lofty ambitions, and sometimes conflicted interactions of these figures. Their experiences and perspectives on public and private affairs (as insiders who nonetheless were, in some sense, outsiders) make their lives, work, and thought especially interesting. Baker and McAdoo, in league with Wilson, offer Craig the opportunity to deliver a fresh and insightful study of the period, its major issues, and some of its leading figures.

The Warrior and the Priest John Milton Cooper,1983 The colossal figures who shaped the politics of industrial America emerge in full scale in this comparative biography. A Bound Man Shelby Steele,2007-12-04 An illuminating examination of the complex racial issues that President Barack Obama faced in his race for the White House, a quest that forced a national dialogue on the current state of race relations in America, by the author of the New York Times bestseller and NBCC winner The Content of Our Character. Poverty and inequality are typically the focus of dialogues that take place during presidential elections, but Obama's bid for so high an office pushed the conversation to a more abstract level where race is a politics of guilt and innocence generated by our painful racial history—a kind of morality play between (and within) the races in which innocence is power and guilt is impotence. Steele writes of how Obama was caught between the two classic postures that Blacks have always used to make their way in the white American mainstream: bargaining and challenging. Bargainers strike a “bargain” with white America in which they say, I will not rub America's ugly history of racism in your face if you will not hold my race against me. Challengers do the opposite of bargainers. They charge whites with inherent racism and then demand that they prove themselves innocent by supporting Black-friendly policies like affirmative action and diversity. Steele maintains that, during the race, Obama was too constrained by these elaborate politics to find his own true political voice. Obama has the temperament, intelligence, and background—an interracial family, a sterling education—to guide America beyond the exhausted racial politics that now prevail. And yet he is a Promethean figure, a bound man. Says Steele, Americans are constrained by a racial correctness so totalitarian that we are afraid even to privately ask ourselves what we think about racial matters. Like Obama, most of us find it easier to program ourselves for correctness rather than risk knowing and expressing what we truly feel. Obama emerges as a kind of Everyman in whom we can see our own struggle to accept and honor what we honestly feel about race. In A Bound Man, Steele makes clear the precise constellation of forces that bind Obama and proposes a way for him to break these bonds and find his own

voice. The courage to trust in one's own careful judgment is the new racial progress, the "way out" from the forces that now bind us all.
