Brent Mason: Hot Wired (Guitar TAB) Wise Publications, 2013-01-10 Brent Mason's Grammy Award-nominated album Hot Wired is one of the most feted and influential guitar albums of all time – a benchmark release for fans of Country, Western Swing and Jazz guitar, and essential listening for any Telecaster player. The album's legendary status was sealed when Mercury Records shelved the masters because Mason was reluctant to promote it due to his commitments as a Nashville studio musician. This exclusive songbook presents all 10 tracks from the album meticulously transcribed in standard notation and guitar tab by Dario Cortese following sessions with Brent Mason himself in Nashville. Personally endorsed by Mason, with full track-by-track analysis, this is the definitive Hot Wired guitar book.

Wired Kingdom Rick Chesler, 2010-05-25 When a blue whale tagged with a webcam as part of a hit reality television series broadcasts a brutal murder at sea, an FBI agent with a fear of water, finds herself in a deadly race to reach the animal before an unknown kiler can destroy the digital evidence it carries.

Fathoms Rebecca Giggs, 2020-07-28 Winner of the 2020 Andrew Carnegie Medal for Excellence in Nonfiction * Finalist for the 2020 Kirkus Prize for Nonfiction * Finalist for the PEN/E.O. Wilson Literary Science Writing Award A “delving, haunted, and poetic debut” (The New York Times Book Review) about the awe-inspiring lives of whales, revealing what they can teach us about

ourselves, our planet, and our relationship with other species. When writer Rebecca Giggs encountered a humpback whale stranded on her local beachfront in Australia, she began to wonder how the lives of whales reflect the condition of our oceans. *Fathoms: The World in the Whale* is “a work of bright and careful genius” (Robert Moor, New York Times bestselling author of *On Trails*), one that blends natural history, philosophy, and science to explore: How do whales experience ecological change? How has whale culture been both understood and changed by human technology? What can observing whales teach us about the complexity, splendor, and fragility of life on earth? In *Fathoms*, we learn about whales so rare they have never been named, whale songs that sweep across hemispheres in annual waves of popularity, and whales that have modified the chemical composition of our planet’s atmosphere. We travel to Japan to board the ships that hunt whales and delve into the deepest seas to discover how plastic pollution pervades our earth’s undersea environment. With the immediacy of Rachel Carson and the lush prose of Annie Dillard, Giggs gives us a “masterly” (*The New Yorker*) exploration of the natural world even as she addresses what it means to write about nature at a time of environmental crisis. With depth and clarity, she outlines the challenges we face as we attempt to understand the perspectives of other living beings, and our own place on an evolving planet. Evocative and inspiring, *Fathoms* “immediately earns its place in the pantheon of classics of the new golden age of environmental writing” (Literary Hub).

Urban Wildlife Management Clark E. Adams, 2018-09-03 Winner of the 2018 TWS Wildlife Publication Awards in the authored book category Urban development is one of the leading worldwide threats to conserving biodiversity. In the near future, wildlife management in urban landscapes will be a prominent issue for wildlife professionals. This new edition of Urban Wildlife Management continues the work of its predecessors by providing a comprehensive examination of the issues that increase the need for urban wildlife management, exploring the changing dynamics of the field while giving historical perspectives and looking at current trends and future directions. The book examines a range of topics on human interactions with wildlife in urbanized environments. It focuses not only on ecological matters but also on political, economic, and societal issues that must be addressed for successful management planning. This edition features an entirely new section on urban wildlife species, including chapters on urban communities, herpetofauna, birds, ungulates, mammals, carnivores, and feral and introduced species. The third edition features Five new chapters 12 updated chapters Four new case studies Seven new appendices and species profiles 90 new figures A comprehensive analysis of terrestrial vertebrate locations by state and urban observations Each chapter opens with a set of key concepts which are then examined in the following discussions. Suggested learning experiences to enhance knowledge conclude each chapter. The species profiles cover not only data about the animal concerned but also detail significant

current management issues related to the species. An updated and expanded teaching tool, *Urban Wildlife Management*, Third Edition identifies the challenges and opportunities facing wildlife in urban communities as well as factors that promote or threaten their presence. It gives both students and professionals a solid grounding in the required fundamental ecological principles for understanding the effects of human-made environments on wildlife.

The Irish Milliner Cynthia Neale,2017-06-02 It is New York City and the Civil War is brewing. Norah McCabe, an Irish immigrant who escaped the Famine as a child, is now a young widow with a daughter. She is a milliner, struggling to survive in tumultuous times. Norah meets Abraham Lincoln, befriends the extraordinary African-American woman Elizabeth Jennings, and assists the Underground Railroad. She falls headlong in love with Edward M. Knox, son of the famous hat-maker Charles Knox, but he is lace curtain Irish and she is shanty Irish. Edward joins the 69th regiment and leaves for battle. Can their love endure through class differences and war? This is a story of survival, intrigue, romance, as well as, exploring the conflict of Irish immigrants thrust into a war that threatened to destroy a nation. It is about an Irish-American woman who could be any immigrant today, any woman today, seeking to create beauty and make sense of her life. p.p1 {margin:

Birds and Birding at Cape May Clay Sutton, Pat Sutton, 2006-12-15 First-ever birding guide to this celebrated site. Insider advice on 33 popular places and lesser-known hot spots. Describes birding opportunities any time of the year.

Urban Ornithology P. A. Buckley, Walter Sedwitz, William J. Norse, John Kieran, 2018-12-15 Urban Ornithology is the first quantitative historical analysis of any New York City natural area's birdlife and spans the century and a half from 1872 to 2016. Only Manhattan's Central and Brooklyn's Prospect Parks have preliminary species lists, not revised since 1967, and the last book examining the birdlife of the entire New York City area is now more than fifty years old. This book updates the avifaunas of those two parks, the Bronx, and other New York City boroughs. It treats the 301 bird species known to have occurred within its study area—Van Cortlandt Park and the adjacent Northwest Bronx—plus 70 potential additions. Its 123 breeding species are tracked from 1872 and supplemented by quantitative breeding bird censuses from 1937 to 2015. Gains and losses of breeding species are discussed in light of an expanding New York City inexorably extinguishing unique habitats.

Educated Evans Edgar Wallace,2021-11-09 The twelve stories of the Educated Evans combine Wallace's gift of humor with the characteristic themes of the detective novel. Evans' story is full of amusing episodes of love and adventure set amidst the hustle and bustle of the racecourse. There are bets, bookmakers, horses, tips, winners, journalists and women. There are jokes, humor and plenty of fun along the way. Evans will appeal not only to racing fans, but also to life lovers themselves. Experience the stories as only Edgar Wallace could tell them!
