**Shadow Libraries** Joe Karaganis,2018-05-04 How students get the materials they need as opportunities for higher education expand but funding shrinks. From the top down, Shadow Libraries explores the institutions that shape the provision of educational materials, from the formal sector of universities and publishers to the broadly informal ones organized by faculty, copy shops, student unions, and students themselves. It looks at the history of policy battles over access to education in the post-World War II era and at the narrower versions that have played out in relation to research and textbooks, from library policies to book subsidies to, more recently, the several “open” publication models that have emerged in the higher education sector. From the bottom up, Shadow Libraries explores how, simply, students get the materials they need. It maps the ubiquitous practice of photocopying and what are—in many cases—the more marginal ones of buying books, visiting libraries, and downloading from unauthorized sources. It looks at the informal networks that emerge in many contexts to share materials, from face-to-face student networks to Facebook groups, and at the processes that lead to the consolidation of some of those efforts into more organized archives that circulate offline and sometimes online—the shadow libraries of the title. If Alexandra Elbakyan's Sci-Hub is the largest of these efforts to date, the more characteristic part of her story is the prologue: the personal struggle to participate in global scientific and educational communities, and the recourse to a wide array of ad hoc strategies and networks when formal, authorized means are lacking. If Elbakyan's story has struck a chord, it is in part because it brings this contradiction in the academic project into sharp relief—universalist in principle and unequal in practice. Shadow Libraries is a study of that tension in the digital era. The Populist Radical Right and Health Michelle Falkenbach,Scott L. Greer,2021-09-07 This contributed volume is the first in-depth analysis of the health policies of populist radical right (PRR) parties worldwide and their actual involvement in health care. The prominence of authoritarian, nationalistic, and populist parties is expanding steadily. However, it is often difficult to discern what kind of policies they really stand for, particularly with regard to the welfare state and public health, where research remains sparse. This book fills this critical gap. The text connects PRR parties and leaders with actual health and social policy effects in Eastern and Western Europe as well as in the United States, Brazil, and the Philippines. The chapters highlight ten individual country case studies authored by young scholars and professors with political science and health experts: The Austrian Freedom Party in Government: A Threat to Public Health? The Alternative for Germany (AfD) and Health Policy: Normalization or Containment of Populist Radical Right Tendencies? Populist Radical Right Influence on Health Policy in the Netherlands: The Case of the Party for Freedom (PVV) The Evolution of the Populist Radical Right and Their Impact on Health in Italy The Populist Radical Right and Health in Hungary Is the Polish 'Law and Justice' (PiS) a Typical Populist Radical Right Party? A Health Policy Perspective The Case of the United Kingdom Independence Party (UKIP) Rhetoric and Reality in the United States of America: Trump, Populism, and Health Policy Ruling Through Chaos in Brazil: Bolsonaro's Authoritarian Agenda for Public Health An Authoritarian Reaction to COVID-19 in the Philippines: A Strong Commitment to Universal Health Care Combined with Violent Securitization The Populist Radical Right and Health

is exceptionally timely and essential reading for political science and health colleagues researching and writing about PRR parties and leaders; students and faculty in public health, health and social policy, and political science; and anyone interested in learning more about this topic.

**Mission Ukraine** Maciej Olchawa, 2017-10-04 On a February night in Kyiv in 2013, former president of Poland Aleksander Kwaśniewski turned to his friend Pat Cox, the former president of the European Parliament, and joked, 'They've got a lot of empty space on this square--an ideal location to put up statues of you and me. Over a year and a half, the two visited Ukraine 27 times, negotiating the release of former Prime Minister Yulia Tymoshenko, which would allow Ukraine to sign the Association Agreement with the European Union. The Cox-Kwaśniewski mission was part of the EU's final effort to save the Agreement and give millions of Ukrainians the hope of a European future. All the while, Russia was using a trade embargo to draw Ukraine into the Eurasian Union. After an intricate game of lies, bluffing and blackmail, Viktor Yanukovich backed out of closer relations with Europe. Feeling betrayed, Ukrainians took to the streets and a wave of civil unrest was born.

**Contesting Europe** Pieter De Wilde, Asimina Michailidou, Hans-Jörg Trenz, 2013 This book investigates the way politicians and citizens evaluated the European Union and the process of European integration in public debates during the 2009 European Parliament elections. It presents detailed and rigorous content analysis of online media where citizens directly and voluntarily responded to news stories posted by journalists. New evidence is presented about the dynamic nature of contestation about Europe on the internet and the degree of convergence towards Euroscepticism across EU member states. Such convergence poses new challenges for democratic representation in the EU and provides insight into the public basis for a legitimate European Union. 'In this book European contestation has come of age. Pieter de Wilde, Asimina Michailidou and Hans-Jörg Trenz deliver a tour de force in mapping the multifaceted debate about Europe among parties and citizens in twelve countries. Informed by rich media data they convincingly argue that opposition as well as support for Europe comes in different shades: it can be partial, conditional, or temporal. This is a wonderfully nuanced book for scholars, students and policy makers concerned about Europe's future.' Liesbet Hooghe, W. R. Kenan, Jr. Distinguished Professor, University of North Carolina and Chair in Multilevel Governance, VU University of Amsterdam

**Poland, Germany and State Power in Post-Cold War Europe** Stefan Szwed, 2018-09-29 This book examines the post-Cold War Polish-German relationship and the puzzling rise of foreign and security policy differences between the two states during the 2000s. Through an investigation of four policy issues – NATO's out-of-area mandate, European Constitution and the division of voting power in the Council, relations with Russia and the eastern neighbours, as well as EU energy policy – the author identifies the roots of their conflict in a structure of material, spatial and temporal asymmetries. Rather than treat them as currency, however, he explores the less conspicuous ways in which power is exercised and structure matters inside a community governed by shared rules and norms. In pursuing its research question, theoretical work, historical reconstructions and empirical analyses, the book combines security studies, transatlantic relations, European integration, and Polish and German politics with general theorizing and conceptual grounding in international relations and political science.

**Poland's Foreign and Security Policy** Ryszard Zięba, 2019-11-06 This book analyses determinants and the evolution of Poland's foreign and security policy in the changing international order. By studying historical, geopolitical and domestic factors, the author offers a better understanding of Poland's national interests and sheds new light on its foreign relations with the USA, Russia and the European Union. Furthermore, the author

also discusses Poland's cooperation within international organisations, such as NATO and the EU.

Plunkett, 2007-07 The cell phone is the fastest-selling consumer electronic in the world. On a global basis, over 800 million cellular telephones are sold yearly. More camera-equipped cell phones are sold each year than stand alone digital cameras. Rapid development of new technologies is leading to ever more versatile, multipurpose mobile devices, including 3G Internet-enabled cell phones and PDAs. Telematics, intelligent transportation systems (ITS) and satellite radio will soon create an entertainment, navigation and communications revolution within automobiles and trucks. Meanwhile, RFID (radio frequency identification) will revolutionize wireless tracking, inventory and logistics at all levels, from manufacturing to shipping to retailing. These developments are creating challenges for legacy companies and opportunities for nimble marketers and managers. Plunkett's Wireless, Wi-Fi, RFID & Cellular Industry Almanac 2008 covers such sectors. Our coverage includes business trends analysis and industry statistics. We also include a wireless and cellular business glossary and a listing of industry contacts, such as industry associations and government agencies. Next, we profile hundreds of leading companies. **Religion, Populism, and Modernity** Atalia Omer, Joshua Lupo, 2023-09-15 In this timely book, an interdisciplinary group of scholars investigates the recent resurfacing of White Christian nationalism and racism in populist movements across the globe. Religion, Populism, and Modernity examines the recent rise of White Christian nationalism in Europe and the United States, focusing on how right-wing populist leaders and groups have mobilized racist and xenophobic rhetoric in their bids for political power. As the contributors to this volume show, this mobilization is deeply rooted in the broader structures of western modernity and as such requires an intersectional analysis that considers race, gender, ethnicity, nationalism, and religion together. The contributors explore a number of case studies, including White nationalism in the United States among both evangelicals and Catholics, anti- and philosemitism in Poland, the Far Right party Alternative for Germany, Islamophobia in Norway and France, and the entanglement of climate change opposition in right-wing parties throughout Europe. By extending the scope of these essays beyond Trump and Brexit, the contributors remind us that these two events are not exceptions to the rule of the normal functioning of liberal democracies. Rather, they are in fact but recent examples of long-standing trends in Europe and the United States. As the editors to the volume contend, confronting these issues requires that

we not only unearth their historical precedents but also imagine futures that point to new ways of being beyond them. Contributors: Atalia Omer, Joshua Lupo, Philip Gorski, Jason A. Springs, R. Scott Appleby, Richard Amesbury, Geneviève Zubrzycki, Geneviève Zubrzycki, Yolande Jansen, Jasmijn Leeuwenkamp, Sindre Bangstad, and Ebrahim Moosa.

Resurrecting the Jew Geneviève Zubrzycki, 2022-09-27 An in-depth look at why non-Jewish Poles are trying to bring Jewish culture back to life in Poland today Since the early 2000s, Poland has experienced a remarkable Jewish revival, largely driven by non-Jewish Poles with a passionate new interest in all things Jewish. Klezmer music, Jewish-style restaurants, kosher vodka, and festivals of Jewish culture have become popular, while new museums, memorials, Jewish studies programs, and Holocaust research centers reflect soul-searching about Polish-Jewish relations before, during, and after the Holocaust. In *Resurrecting the Jew*, Geneviève Zubrzycki examines this revival and asks what it means to try to bring Jewish culture back to life in a country where 3 million Jews were murdered and where only about 10,000 Jews now live. Drawing on a decade of participant-observation in Jewish and Jewish-related organizations in Poland, a Birthright trip to Israel with young Polish Jews, and more than a hundred interviews with Jewish and non-Jewish Poles engaged in the Jewish revival, *Resurrecting the Jew* presents an in-depth look at Jewish life in Poland today. The book shows how the revival has been spurred by progressive Poles who want to break the association between Polishness and Catholicism, promote the idea of a multicultural Poland, and resist the Far Right government. The book also raises urgent questions, relevant far beyond Poland, about the limits of performative solidarity and empathetic forms of cultural appropriation.

Geopolitical and Humanitarian Aspects of the Belarus-EU Border Conflict Elżbieta Kuźlewska, Agnieszka Kasińska-Metryka, Karolina Pałka-Suchojad, Agnieszka Piekutowska, 2024-02-16 This book provides a broad geopolitical and legal analysis of the longer-term dispute between the Belarusian regime and the European Union, played out through conflict on the Polish-Belarusian border, which started in 2021. Although Poland finds itself at the center of this conflict, the book covers all countries whose territorial integrity has been affected, revealing a Belarusian regime taking advantage of the refugee crisis as a tool of hybrid warfare for destabilizing the political situation. As such, it also examines the role of Russia and its influence by means of its Belarusian neighbor, exposing the underlying motivations and mechanisms used by the Lukashenko regime towards the European community. This book will be of key interest to scholars and students of Central and Eastern European politics, EU politics, migration politics/studies, global governance, human rights, crisis management and, more broadly, to international relations, security studies, and international law. Chapter 5 of this book is freely available as a downloadable Open Access PDF at [www.taylorfrancis.com](http://www.taylorfrancis.com), has been made available under a Creative Commons Attribution-Non-Commercial-No Derivative Licence (CC-BY-NC-ND) 4.0 license.

**Criminality and Criminal Justice in Contemporary Poland** Konrad Buczkowski, Beata Czarnecka-Działuk, Witold Klaus, Anna Kossowska, Irena Rzeplińska, Dagmara Woźniakowska-Fajst, Dobrochna Wójcik, 2016-03-09 Criminality has accompanied social life from the outset. It has appeared at every stage of the development of every community, regardless of organisation, form of government or period in history. This work presents the views of criminologists from Central Europe on the phenomenon of criminality as a component of social and political reality. Despite the far advanced homogenisation of culture and the coming together of the countries that make up the European Union, criminality is not easily captured by statistics and simple comparisons. There can be huge variation not only on crime reporting systems and information on convicts but also on definitions of the same crimes and their formulations in the criminal codes of the individual European countries. This book fills a gap in the English-language

criminological literature on the causes and determinants of criminality in Central Europe. Poland, as the largest country in the region, whose political post-war path has been similar to the other countries in this part of Europe, is subject to an exhaustive and original look at criminality as part of the political and social reality. The authors offer a contribution to the debate in the social and criminal policy of the state over the problems of criminality and how to control it.

The new politics of Poland Jaroslaw Kuisz, 2023-12-05 The election of populist far-right party Law and Justice in 2015 marked a shocking break in Polish politics. A period of stability was brutally interrupted as Jaroslaw Kaczynski and his allies took over public media and launched a controversial 'reform' of the judiciary. How was this illiberal turn possible after years of democratic development? Jaroslaw Kuisz, one of Poland's leading liberal thinkers, digs deep into Polish history to propose an original analysis of the crisis. He reveals how centuries of statelessness have left Poles with a 'post-traumatic' attitude to sovereignty, making them wary of powerful foreign blocks, be it the EU, the Soviet Union or present-day Russia. This is a phenomenon populists have proved adept at exploiting. Providing a brilliant account of Europe's largest illiberal democracy, *The new politics of Poland* shines a light on the broader situation in East and Central Europe, offering valuable lessons for other countries experiencing the rise of populist right-wing movements.

**Nations in Transit 2014** Freedom House, 2014-09-24 Since 1995, Freedom House's Nations in Transit series has monitored the status of democratic change from Central Europe to Eurasia, pinpointing the region's greatest reform opportunities and challenges for the benefit of policymakers, researchers, journalists, and democracy advocates alike.

The Media in Europe Mary Kelly, Gianpietro Mazzoleni, Denis McQuail, 2004-01-31 Completely rewritten, the Third Edition of this successful guide to European media systems has also been expanded to include Central and Eastern Europe as well as Western Europe. Covering 23 countries, the volume highlights and explains key issues of debate and current tendencies in media policy.

*Polish Estrada Music* Ewa Mazierska, 2023-09-01 Polish estrada music dominated Polish popular music throughout the state socialist period but gained little attention from popular music scholars because it was regarded as being of low quality and politically conformist. Ewa Mazierska carefully examines these assumptions, considering those institutions which catered for the needs of estrada artists and their fans, the presence of estrada in different media and the careers and styles of the leading stars, such as Mieczysław Fogg, Irena Santor, Violetta Villas, Anna German, Jerzy Połomski, Maryla Rodowicz, Zdzisława Sośnicka, Zbigniew Wodecki and Krzysztof Krawczyk. Mazierska also discusses the memory and legacy of estrada music in the post-communist period. The book draws on Poland's cultural and political history and the history of Polish popular music and media, including television and radio. Mazierska engages with concepts such as genre, stardom and authenticity in order to capture the essence of Polish estrada music and to provide a comparison with popular music produced in other countries.

Europe at the Crossroads Pieter Bevelander, Ruth Wodak, 2020-10-01 The far right is on the rise. And there are signs that part of the political mainstream in Europe, the US, and beyond is considering accommodating far-right populist parties and their divisive, ethno-nationalist programs. *Europe at the Crossroads* is an urgent scholarly response to the sociopolitical challenges that far-right programs pose to the idea of a more egalitarian world. It offers an interdisciplinary analysis and critique of the dynamics of the far right in Europe from Poland to the UK, from Sweden to Greece. The authors present pertinent alternatives when tackling the exclusionary rhetoric and the politics of resentment. Each contributor investigates the current advance of far right populism and the threat to liberal democracy. Their texts address the historical roots and activities of the ideologies behind

Orbanism or Brexit for example. The slogan 'Fortress Europe' once a pejorative term now appeals to large numbers of voters. The authors analyze the power balance in the European Parliament, particularly in connection with the elections in the spring 2019.
