Another World: The Transcendental Painting Group Michael Duncan,2021-07-06 Abstract painting

meets theosophical spirituality in 1930s New Mexico: the first book on a radical, astonishingly prescient episode in American modernism Founded in Santa Fe and Taos, New Mexico, in 1938, at a time when social realism reigned in American art, the Transcendental Painting Group (TPG) sought to promote abstract art that pursued enlightenment and spiritual illumination. The nine original members of the Transcendental Painting Group were Emil Bisttram, Robert Gribbroek, Lawren Harris, Raymond Jonson, William Lumpkins, Florence Miller Pierce, Agnes Pelton, Horace Towner Pierce and Stuart Walker. They were later joined by Ed Garman. Despite the quality of their works, these Southwest artists have been neglected in most surveys of American art, their paintings rarely exhibited outside of New Mexico. Faced with the double disadvantage of being an openly spiritual movement from the wrong side of the Mississippi, the TPG has remained a secret mostly known only to cognoscenti. Another World: The Transcendental Painting Group aims to address this slight, claiming the group's artists as crucial contributors to an alternative through-line in 20th-century abstraction, one with renewed relevance today. This volume provides a broad perspective on the group's work, positioning it within the history of modern painting and 20th-century American art. Essays examine the TPG in light of their international artistic peers; their involvement with esoteric thought and Theosophy; the group's sources in the culture and landscape of the American Southwest; and the experience of its two female members.

The Day the World Came to Town Jim DeFede, 2011-07-12 The True Story Behind the Events on 9/11 that Inspired Broadway's Smash Hit Musical Come from Away, Featuring All New Material from the Author When 38 jetliners bound for the United States were forced to land at Gander International Airport

in Canada by the closing of U.S. airspace on September 11, the population of this small town on Newfoundland Island swelled from 10,300 to nearly 17,000. The citizens of Gander met the stranded passengers with an overwhelming display of friendship and goodwill. As the passengers stepped from the airplanes, exhausted, hungry and distraught after being held on board for nearly 24 hours while security checked all of the baggage, they were greeted with a feast prepared by the townspeople. Local bus drivers who had been on strike came off the picket lines to transport the passengers to the various shelters set up in local schools and churches. Linens and toiletries were bought and donated. A middle school provided showers, as well as access to computers, email, and televisions, allowing the passengers to stay in touch with family and follow the news. Over the course of those four days, many of the passengers developed friendships with Gander residents that they expect to last a lifetime. As a show of thanks, scholarship funds for the children of Gander have been formed and donations have been made to provide new computers for the schools. This book recounts the inspiring story of the residents of Gander, Canada, whose acts of kindness have touched the lives of thousands of people and been an example of humanity and goodwill.

The Global Findex Database 2017 Asli Demirguc-Kunt, Leora Klapper, Dorothe Singer, Saniya Ansar, 2018-04-19 In 2011 the World Bank—with funding from the Bill and Melinda Gates Foundation—launched the Global Findex database, the world's most comprehensive data set on how adults save, borrow, make payments, and manage risk. Drawing on survey data collected in collaboration with Gallup, Inc., the Global Findex database covers more than 140 economies around the world. The initial survey round was followed by a second one in 2014 and by a third in 2017. Compiled using nationally representative surveys of more than 150,000 adults age 15 and above in over 140 economies, *The Global Findex Database 2017: Measuring Financial Inclusion and the Fintech Revolution* includes updated indicators on access to and use of formal and informal financial services. It has additional data on the use of financial technology (or fintech), including the use of mobile phones and the Internet to conduct financial transactions. The data reveal opportunities to expand access to financial services among people who do not have an account—the unbanked—as well as to promote greater use of digital financial services among those who do have an account. The Global Findex database has become a mainstay of global efforts to promote financial inclusion. In addition to being widely cited by scholars and development practitioners, Global Findex data are used to track progress toward the World Bank goal of Universal Financial Access by 2020 and the United Nations Sustainable Development Goals. The database, the full text of the report, and the underlying country-level data for all figures—along with the questionnaire, the survey methodology, and other relevant materials—are available at www.worldbank.org/globalfindex.

America in the World Robert B. Zoellick, 2020-08-04 America has a long history of diplomacy—ranging from Benjamin Franklin, Alexander Hamilton, and Thomas Jefferson to Henry Kissinger, Ronald Reagan,

and James Baker—now is your chance to see the impact these Americans have had on the world. Recounting the actors and events of U.S. foreign policy, Zoellick identifies five traditions that have emerged from America's encounters with the world: the importance of North America; the special roles trading, transnational, and technological relations play in defining ties with others; changing attitudes toward alliances and ways of ordering connections among states; the need for public support, especially through Congress; and the belief that American policy should serve a larger purpose. These traditions frame a closing review of post-Cold War presidencies, which Zoellick foresees serving as guideposts for the future. Both a sweeping work of history and an insightful guide to U.S. diplomacy past and present, *America in the World* serves as an informative companion and practical adviser to readers seeking to understand the strategic and immediate challenges of U.S. foreign policy during an era of transformation.

Psyche and the Social World Dennis Brown, 2000 'This book contains a stimulating diversity of chapters that explore the development of Foulkesian ideas - [it is] a fine exposition of group analysis.' - Group Analysis 'This is essential contemporary reading.' - British Journal of Psychiatry In this examination of the legacy of Foulkes, the theoretical foundations of group psychotherapy are applied to a range of groups, including family therapy, institutional dynamics and educational therapy. Contributors to this volume include distinguished group analysts, such as Pines and De Mar , and more junior analysts selected for their original thinking. The complexity of creating a coherent theory of group analysis is underlined by the multiple authorship of a single volume compiled and edited along group principles. Editors Brown and Zinkin also had access to the preliminary notes of a proposed book on group theory, cut short by Foulkes's

death, which cover topics as wide-ranging as psychoneurosis, social inheritance and the Oedipus complex.

World Bank Group Support to Public-Private Partnerships World Bank World Bank, 2015-12-01 Public-private partnerships (PPPs) are long-term contracts between a private party and a government agency that strive to provide a public asset or service in which the private party bears both some risk and some management responsibility. If implemented well, PPPs can help overcome inadequate infrastructure that constrains economic growth, particularly in developing countries. The use of PPPs has increased in the last two decades; they are now used in more than 134 developing countries, contributing about 15-20 percent of total infrastructure investment. The World Bank Group has expanded its support to PPPs through a wide

range of instruments and services. During the last 10 years, its support has increased about threefold, to nearly \$3 billion per year. The Independent Evaluation Group (IEG) assesses how effective the World Bank Group has been in helping countries use PPPs. In the evaluation, IEG examines the relevance of Bank Group support, how successful projects were, how the Bank Group coordinated support among its business lines (support to the public sector versus the private sector), and how it compares with the experience of other multilateral development banks with PPP support. IEG distills lessons to apply to the Bank Group's support of PPPs. Finally, IEG presents six recommendations that apply to both the organizational and the operational aspects of this work.

The 356th Fighter Group in World War II Kent D. Miller,2003 Here for the first time is the story of the 356th Fighter Group which flew in the European Theater of Operations during the Second World War. This 9th Air Force unit spent over two years in England, occupying the airfield at Martlesham Heath, in the county of Suffolk. Originally entering combat flying P-47 Thunderbolts, and later switching to P-51 Mustangs, the 356th dispatched its aircraft on 407 missions across the Channel. Between the time of the first, on October 15, 1943, and the final mission on May 7, 1945, the 356th was credited with destroying 277 enemy planes. As the principle of bomber escort was strictly adhered to by the 356th's leaders, pilots of the group often had to pass up opportunities to engage enemy fighters and increase their scores. While this fact helped earn the 356th a reputation as being a hard luck outfit, due to their low victory to loss ratio, the gratitude and praise from the bomber crews more than offset this misnomer.
