Management addresses the challenges, issues, and rewards real-life entrepreneurs encounter when starting and growing a venture in today's complex world. Using its innovative "Roadmap" approach, this practical guide enables students and aspiring entrepreneurs to design, execute, and maintain their business plan—covering every essential step of the entrepreneurial process, from turning an idea into a business model to securing funding and managing resources. To support student venture development and faculty facilitation of associated topics, the authors have added over 30 worksheets that serve as prompts to help students focus on what should be considered at each stage of venture development. For each chapter, specific "Best Practices" associated with each worksheet have been included to help students understand the theory and/or rationale behind the prompts, helping the student connect the work with where they are in the venture process. The authors draw from their extensive experience launching new ventures and educating thousands of students globally to provide a unique hands-on approach to developing the skills required to start and build a company in the modern business environment. Discussions focus on the real-life challenges facing startup founders: important issues such as how to drive continuous innovation and how to create a company culture that maximizes success.

Watkins,2014-09-15 Every year, 6 million companies and more than 100,000 products are launched. They all need an awesome name, but many (such as Xobni, Svbtle, and Doostang) look like the results of a drunken Scrabble game. In this entertaining and engaging book, ace naming consultant Alexandra Watkins explains how anyone—even noncreative types—can create memorable and buzz-worthy brand names. No degree in linguistics required. The heart of the book is Watkins's proven SMILE and SCRATCH Test—two acronyms for what makes or breaks a name. She also provides up-to-date advice, like how to make sure that Siri spells your name correctly and how to nab an available domain name. And you'll see dozens of examples—the good, the bad, and the “so bad she gave them an award.” Alexandra Watkins is not afraid to name names.
