Protecting the Dharma through Calligraphy in Tang China Pietro De Laurentis,2021-11-29 This is a study of the earliest and finest collated inscription in the history of Chinese calligraphy, the Ji Wang shengjiao xu 魏王僧繇教習 (Preface to the Sacred Teaching Scriptures Translated by Xuanzang in Wang Xizhi's Collated Characters), which was erected on January 1, 673. The stele records the two texts written by the Tang emperors Taizong (599–649) and Gaozong (628–683) in honor of the monk Xuanzang (d. 664) and the Buddhist scripture Xin jing (Heart Sutra), collated in the semi-cursive characters of the great master of Chinese calligraphy, Wang Xizhi (303–361). It is thus a Buddhist inscription that combines Buddhist authority, political power, and artistic charm in one single monument. The present book reconstructs the multifaceted context in which the stele was devised, aiming at highlighting the specific role calligraphy played in the propagation and protection of Buddhism in medieval China.

Warfare in China Since 1600 Kenneth Swope,2017-05-15 Warfare has shaped the modern history of China more than any other single factor. This book brings together the best recent English language scholarship on warfare in China over the last four centuries and situates warfare within the broader sweep of China's modern historical development.

Establishment of the New China MAO Min, This is Topic 3 of the Selected Topics from The Revival of China. The full book is about the revival of China in the 20th century and the first decade of the 21st century. This topic is about how the People's Republic of China was established, including the establishment of the Communist Party of China (CPC) in the year of 1921, the establishment of the Red Bases in countryside, the Long March of the Red Army, the anti-Japanese fights of the 8th Route Army and the New 4th Army led by CPC, the decisive battles in the civil war between Guomindang Party (GMD) and CPC, and the establishment of the People's Republic of China in the year of 1949.

Good Governance in China - A Way Towards Social Harmony Wang Mengkui,2008-12-03 Good governance is necessary for effective public administration and delivery of public goods and services. This is an important issue for all countries, but in particular for rapidly developing countries such as China where reform of governance and public administration is a key element of the public policy agenda. This book explores the key issues in governance and public administration facing China's policy-makers today. Edited by Wang Mengkui, the former President of the Development Research Center of the State Council, and Chairman of the China Development Research Foundation - one of China's leading think-tanks - it contains 36 papers selected from nearly 300 case studies presented by participants in the China's Leaders in Development Executive Program. The authors are outstanding and experienced officials, and together represent the voice of China's new rising generation of leaders, policy-makers and officials. The cases are based on first-hand information and experiences either from the officials' personal involvement, or their own in-depth investigations. The chapters cover a wide range of issue areas, such as institutional reform, urban construction, social governance, crisis management, resource and ecological environmental management, education and public health, and economic reform and development. Taken together, it provides an invaluable resource for anyone seeking to understand China's own thinking on its governance and public administration.

Occupational Mobility in Developing Countries Anthony F. Heath,Yizhang Zhao,2019 This paper discusses current methods for measuring and analysing occupational mobility, and the way in which methods designed for the analysis of developing countries may need to be modified when applied in other contexts. The paper discusses particular features of some developing societies, such as their large and complex agricultural and informal sectors, and the problem of 'equivalence of meaning', which arises when stratification systems involve rather different institutional arrangements, for example with respect to land tenure. The paper concludes with a discussion of absolute and relative mobility in Chile, China, Egypt, and India, bringing out both the similarities and the differences between these countries in their absolute and relative rates of mobility and intersectionality with gender.

A Companion to Yi jing Numerology and Cosmology Bent Nielsen,2013-04-15 Translations of the Yi jing into western languages have been biased towards the yili ('meaning and pattern') tradition, whereas studies of the xiangshu ('image and number') tradition - which takes as its point of departure the imagery and numerology associated with divination and its hexagrams, trigrams, lines, and related charts and diagrams - has remained relatively unexplored. This major new reference work is organised as a Chinese-English encyclopedia, arranged alphabetically according to the pinyin romanisation, with Chinese characters appended. A character index as well as an English index is included. The entries are of two kinds: technical terms and various other concepts related to the 'image and number' tradition, and bio-bibliographical information on Chinese Yi jing scholars. Each entry in the former category has a brief explanation that includes references to the origins of the term, cross-references, and a reference to an entry giving a more comprehensive treatment of the subject.

The Revival of China, Volume 1 MAO Min, This is Volume 1 of the book entitled The Revival of China. The full book is about the revival of China in the 20th century and the first decade of the 21st century, and has eight parts. This volume contains the first four parts of the full book, and covers the history of overthrowing the Qing Dynasty and the establishment of Republic of China (Part 1) , the establishment of the Red Army in countryside bases (Part 2), the Long March of the Red Army (Part 3) and the war against Japanese invasion (Part 4).

The Revival of China (with Pictures) MAO Min, The book is about the revival of China in the 20th century and the first decade of the 21st century. It has eight parts: (1) The civil revolution in China, (2) The countryside bases, (3) The Long March of the Red Army, (4) The Anti Japanese War, (5) Decisive

civil battles before the establishment of the People’s Republic of China, (6) The Mao Era before the Great Cultural Revolution, (7) The Great Cultural Revolution, and (8) The Reform and opening up. This version of the book is with pictures.

The Political Economy of the Chinese Coal Industry Tim Wright,2012-03-12 Coal mining is one of China’s largest industries, and provides an excellent case study through which to consider the broader issues of China’s transition from socialism to capitalism, focussing on the shift to a market economy, the rise of rural industry and the situation of China’s working class. Coal was one of the pillars of the planned economy but, the author argues, its shift to market-based operations has been protracted and difficult, particularly in moving from the artificially low prices of the planned economy to market prescribed prices - a change that had a major impact on the industry’s financial performance. The book goes on to considers the growth of small rural coal mines as part of the Township and Village Enterprises (TVEs) programme; these small mines have brought prosperity to areas where small manufacturing enterprises are not competitive, but at the same time have been the cause of many social and environmental problems. It also examines the situation of coal miners - arguably one the most vulnerable segments of the Chinese working class - under socialism and under capitalism, paying particular attention to the issue of work safety and coal mine disasters. The book provides a comprehensive and coherent treatment of these issues from the establishment of the People’s Republic up to 2010.
