*Moonman* Kevin Zepper,2018-08-26 Whether Kevin Zepper is writing about boys at a track workout, a daughter he never had, children playing with matches, or a marmoset at the zoo, he is a poet who celebrates the beauty as well as the humor in everyday life. Personal, poignant, sometimes surreal, his poems are always heartfelt, accessible, and entertaining. He is the kind of a poet you will want to read not once, but again and again.-Nin Andrews, author of *Sleeping with Houdini* (American Poets Continuum) and *Miss August* (Notable Voices).

**Kissing the Demons** Kate Ellis,2024-02-01 Thirteen Torland Place was the scene of five terrible murders in the nineteenth century, and also related to the disappearances of two teenage girls. When a student living in the house is found to be brutally murdered, Detective Inspector Joe Plantagenet is left wondering whether her death has anything to do with the house's grim history. As other similar deaths come to light, Joe fears a ruthless killer may be on the prowl - a killer who deprives each victim of one of their five senses. Each of the tragic events seem to have a connection to Obediah Shrowton, an executed murderer whose presence still seems to linger in the house. Could he be the source of evil, or is there an even more sinister explanation yet to be unearthed?

*The Johannine Renaissance in Early Modern English Literature and Theology* Paul Cefalu,2017 The Johannine Renaissance in Early Modern English Literature and Theology argues that the Fourth Gospel and First Epistle of Saint John the Evangelist were so influential during the early modern period in England as to share with Pauline theology pride of place as leading apostolic texts on matters Christological, sacramental, pneumatological, and political. The book argues further that, in several instances, Johannine theology is more central than both Pauline theology and the Synoptic theology of Matthew, Mark, and Luke, particularly with regard to early modern polemicizing on the Trinity, distinctions between agape and eros, and the ideologies of radical dissent, especially the seventeenth-century antinomian challenge of free grace to traditional Puritan Pietism. In particular, early modern religious poetry, including works by Robert Southwell, George Herbert, John Donne, Richard Crashaw, Thomas Traherne, and Anna Trapnel, embraces a distinctive form of Johannine devotion that emphasizes the divine rather than human nature of Christ; the belief that salvation is achieved more through revelation than objective atonement and expiatory sin; a realized eschatology; a robust doctrine of assurance and comfort; and a stylistic and rhetorical approach to representing these theological features that often emulates John's mode of discipleship misunderstanding and dramatic irony. Early modern Johannine devotion assumes that religious lyrics often express a revelatory poetics that aims to clarify, typically through the use of dramatic irony, some of the deepest mysteries of the Fourth Gospel and First Epistle.

*Marx and Education in Russia and China (RLE Edu L)* R F Price,2012-05-04 To many education students, Russian and/or Chinese education is at the same time their introduction to Marxism, and many students go no further. This book sets the record straight by giving a thorough introduction to the writings of Marx himself as they relate to education. It shows what Marxism implies for education, as aim, method and content. It then proceeds to compare educational developments in the former USSR and China in the light of this analysis, attempting to answer the question as to how Marxist this has been, in the schools and

outside them.

**Sacred Politics, Natural Law and the Law of Nations in the 16th-17th Centuries** ,2022-01-10 A fresh look at the importance of natural and international law in the religious politics at the heartlands of the Reformation, from the Low Countries, the German principalities up to Transylvania; from Niels Hemmingsen to Gian Battista Vico; from religious reasons for the universalist claims of natural law to political arguments for the sacred polity, their tension and creative potential.

Church and School in Early Modern Protestantism Jordan Ballor, David Sytsma, Jason Zuidema, 2013-08-08 A great deal of scholarship has too often juxtaposed scholasticism and piety, resulting in misunderstandings of the relationship between Protestant churches of the early modern era and the theology taught in their schools. But more recent scholarship, especially conducted by Richard A. Muller over the last number of decades, has remapped the lines of continuity and discontinuity in the relation of church and school. This research has produced a more methodologically nuanced and historically accurate representation of church and school in early modern Protestantism. Written by leading scholars of early modern Protestant theology and history and based on research using the most relevant original sources, this collection seeks to broaden our understanding of how and why clergy were educated to serve the church. Contributors include: Yuzo Adhinarta, Willem van Asselt, Irena Backus, Jordan J. Ballor, J. Mark Beach, Andreas Beck, Joel R. Beeke, Lyle D. Bierma, Raymond A. Blacketer, James E. Bradley, Dariusz M. **Protestant Scholasticism: Essays in Reassessment** Carl R. Trueman, Scott R. Clark, 2007-10-01 Traditionally, Protestant theology between Luther's early reforming career and the dawn of the Enlightenment has been seen in terms of decline and fall into the wastelands of rationalism and scholastic speculation. In this volume a number of scholars question such an interpretation. The editors argue that the development of Post-Reformation Protestantism can only be understood when a proper historical model of doctrinal change is adopted. This historical concern underlies the subsequent studies of theologians such as Calvin, Beza, Olevian, Baxter and the two Turrentini. The result is a significantly different reading of the development of Protestant Orthodoxy, one which both challenges the older scholarly interpretations and clichés about the relationship of Protestantism to, among other things, scholasticism and rationalism, and which demonstrates the fruitfulness of the new, historical approach. *Die politischen Gesetze des Mose als Vorbild* Markus M. Totzeck, 2019-03-11 In the second half of the sixteenth century, humanists and Calvinists created a unique text genre, the so-called *politia judaica*-literature, that was centered around the model of the ancient Jewish polity and the political laws of Moses. Markus M. Totzeck, for the first time, surveys the beginnings, the first works, and early writers of the *politia judaica*-literature. The author examines the decisive ancient traditions and sources, and shows that the model of the Mosaic polity influenced early-modern political thinking, especially in the seventeenth century. J.F. Gerhard Goeters Award for the History of Reformed Protestantism 2017.
