The Poetry of He Zhu (1052-1125) Stuart Howard Sargent, 2007 The Northern Song poet He Zhu is best known for his lyrics (ci) but also produced shi poetry of subtlety, wit, and feeling. This study examines the latter as a response to the options available to a late-eleventh century writer in the pentametrical and heptametrical forms of Ancient Verse, Regulated Verse, and Quatrains. Numerous comparisons are made with Su Shi, Huang Tingjian, Du Fu, and other important writers. In a major advance over previous methodologies, the author uses a clear system of metrical notation to show how sound patterns reveal the poet's artistic and emotional intentions. This innovation and the

author's other meticulous explorations of He Zhu's artistry allow us to experience Chinese poetry as never before. From the reader's report: not just an excellent study of an individual poet but also a model of reading the language of classical Chinese poetry. [...] opens up a world of interpretive territory heretofore seldom explored.

CEO's Pampered Sweetheart Yu Mu, 2020-07-31 For Ning Xianyu, her husband meant that they lived together under the same roof. Other than the fact that they occasionally loved each other in front of their elders and outsiders, they were like strangers that she was most familiar with. However... During the menstrual period, her husband bought 'bread' for her, boiled brown sugar water for her as a warm stove. Wandering in a luxury store was looked down by others, and her husband directly drove her out of A-City. He even let her enter the largest plaza of luxury goods, so she could choose from among them. Not an arranged marriage? Didn't they say that he couldn't be humane in a car accident? Who was the man in her bed, demanding too much from her? If there is one, there is two. If there is one, there is two. If there is one, there is three... Hubby Xie smiled charmingly and pressed over. Just when Ning Xianyu thought that such a marriage wasn't bad, he suddenly turned into the main culprit behind all of this. Divorce! Divorce immediately! She clenched her fists, unable to accept that all of this was a scam.

Heavenly Numbers Christopher Cullen, 2017-11-17 This book is a history of the development of mathematical astronomy in China, from the late third century BCE, to the early 3rd century CE - a period often referred to as 'early imperial China'. It narrates the changes in ways of understanding the movements of the heavens and the heavenly bodies that took place during those four and a half centuries, and tells the stories of the institutions and individuals involved in those changes. It gives clear explanations of technical practice in observation, instrumentation, and calculation, and the steady accumulation of data over many years - but it centres on the activity of the individual human beings who observed the heavens, recorded what they saw, and made calculations to analyse and eventually make predictions about the motions of the celestial bodies. It is these individuals, their observations, their calculations, and the words they left to us that provide the narrative thread that runs through this work. Throughout the book, the author gives clear translations of original material that allow the reader direct access to what the people in this book said about themselves and what they tried to do.

Wild Swans Jung Chang, 2008-06-20 The story of three generations in twentieth-century China that blends the intimacy of memoir and the panoramic sweep of eyewitness history—a bestselling classic in thirty languages with more than ten million copies sold around the world, now with a new introduction from the author. An engrossing record of Mao's impact on China, an unusual window on the female experience in the modern world, and an inspiring tale of courage and love, Jung Chang describes the extraordinary lives and experiences of her family members: her grandmother, a warlord's concubine; her mother's struggles as a young idealistic Communist; and her parents' experience as members of the Communist elite and their ordeal during the Cultural Revolution. Chang was a Red Guard briefly at the age of fourteen, then worked as a peasant, a "barefoot doctor," a steelworker, and an electrician. As the story of each generation unfolds, Chang captures in gripping, moving—and ultimately uplifting—detail the cycles of violent drama visited on her own family and millions of others caught in the whirlwind of history.

Migration and the Media Gaoheng Zhang, 2019-08-22 The first book to analyse cultural dynamics of Chinese migration to Italy, Migration and the Media compares Italian, Chinese migrant, and international media interpretations between 1992 and 2012. From paternalistic tones reducing migrants' motives to poverty or political oppression to fear-

mongering diatribes about illegal business practices, tax evasion, and unfair competition, the Italian and international media covered this large-scale migration extensively during this period. The Chinese community also joined in the media polyphony with articles in their own newspapers and magazines, more likely refuting biased mainstream media coverage or protesting the harsh regulations that seemed to target the Chinese, but sometimes even advising fellow migrants on how to counter the media's criticism. Gaoheng Zhang places the strong media interest in Italian-Chinese migrant relations within relevant economic, political, cultural, and linguistic contexts. Examining how journalists, entrepreneurs, and politicians debated Italy's Chinese, Zhang argues that these stakeholders viewed the migration as a particularly effective example to support or dispute Italy's general stance toward migrant integration and economic globalization.
