Into the Heart of the Whore Jacques Pauw,2017-12-14 The ongoing assassinations of anti-apartheid activists led to rumours that some kind of third force must be responsible. The South African government flatly denied any involvement. All investigations of the matter were met with stony silence. The first crack in the wall came with the publication by the Vrye Weekblad newspaper of the extraordinary story of Dirk Coetzee, former Security Branch Captain. His tale of murder, kidnapping, bombing and poisoning provided corroboration of the shocking confessions made by Almond Nofemela on death row. Slowly the dark secret started unravelling under the probing of determined journalists. In the Heart of the Whore introduces the reader to the secret underworld of the death squads. It explains when and why they were created, who ran them, what methods they employed, who the victims and perpetrators were. Jacques Pauw was more closely involved with the subject than any other person outside the police and armed forces. In this groundbreaking work he looks at the devastating effect of the secret war on the opponents of apartheid as well as the corrosive effects on the people who committed these crimes.

3D Virtual Treatment Planning of Orthognathic Surgery Gwen Swennen,2016-11-01 This color atlas and manual provides clinicians with systematic, standardized, but also individualized step-by-step guidance on 3D virtual diagnosis, treatment planning, and outcome assessment in patients undergoing orthognathic surgery for maxillofacial deformities. Drawing on 20 years of experience, the authors elucidate the clinical potential of the approach while also highlighting current pitfalls and limitations. The opening two chapters discuss the 3D imaging workflow and its integration into daily clinical routine and comprehensively describe cone-beam CT virtual diagnosis. The stepwise 3D virtual planning of orthognathic surgery and transfer of the 3D virtual treatment plan to the patient in the operating room are then thoroughly explained, and the unprecedented potential of 3D virtual evaluation of treatment outcome, documented. Finally, after provision of all this essential background information, the closing chapter illustrates the application of the 3D virtual approach in different types of maxillofacial deformity. Orthodontists and orthognathic and orthofacial surgeons will find 3D Virtual Treatment Planning of Orthognathic Surgery to be a superb guide and resource.

Gender, Sexuality and Identities of the Borderlands Suzanne Clisby,2020-05-26 Drawing on border thinking, postcolonial and transnational feminisms, and queer theory, Gender, Sexuality and Identities of the Borderlands brings an intersectional feminist and queer lens to understandings of borderlands, liminality, and lives lived at the margins of socio-cultural and sexual normativities. Bringing together new and contemporary interdisciplinary research from across diverse global contexts, this collection explores the lived experiences of what Gloria Anzaldúa might have called

‘threshold people’, people who live among and in-between different worlds. While it is often challenging, difficult, and even dangerous, inhabiting marginal spaces, living at the borders of socio-cultural, religious, sexual, ethnic, or gendered norms can create possibilities for developing unique ways of seeing and understanding the worlds within which we live. This collection casts a spotlight on the margins, those ‘queer spaces’ in literary, cinematic, and cultural borderlands; postcolonial and transnational feminist perspectives on movement and migration; and critical analyses of liminal lives within and between socio-cultural borders. Each chapter within this unique book brings a critical insight into diverse global human experiences in the 21st Century.

Peace Leadership Ebben Van Zyl,2018-10-01 In our progressively changing environment, it is of crucial importance to deepen our understanding of peace between people and how leadership can enhance that by 'leading for peace'. This book proposes a useful framework for all leaders (including business, political leaders and peace developers) on how to attain peace between people. The book is presented in four sections: 1. Peace leadership in perspective: Discussions on the nature and meaning of peace leadership, important building blocks for peace leadership (emotional, social and communal intelligence), and a peace leadership-in-action model (which forms the basis of the book). 2. Implementation strategies focus on lead self, lead with others and lead communities. Lead self includes: leading peace through self, others and the community, the role of wisdom and spirituality in leading self and others, and individual, social and cultural inertia preventing humanity from attaining peace. Lead others includes: leadership theories which support peace leadership, the improvement of cultural intelligence amongst peace leaders, and women's role in peace building. Lead communities includes: peace leadership in the public and private sectors, healthcare for the vulnerable and its meaning and contribution towards peace leadership, and working from helplessness to serving the community. 3. Tools and initiatives to become a highly effective peace leader, including information and communication technological innovations for peace leaders and sport as a tool for peace building. 4. Concluding thoughts. Concluding thoughts are given, with the emphasis on what we have learned and looking ahead. This editorial book provides a significant contribution within the emerging peace leadership discipline as the international community, non-governmental organisations, and the public and private sectors struggle to formulate sustainable peace initiatives at the tribal, local and communal societal level.
