Motive Jonathan Kellerman, 2015-12-29 NEW YORK TIMES BESTSELLER • Don't miss the excerpt of Jonathan Kellerman's The Murderer's Daughter in the back of the book! Jonathan Kellerman writes razor-sharp novels that cut to the quick. Now comes Motive, which pits psychologist Alex Delaware and homicide cop Milo Sturgis against a vicious criminal mind—the kind only Kellerman can bring to chilling life. Even having hundreds of closed cases to his credit can't keep LAPD police lieutenant Milo Sturgis from agonizing over the crimes that don't get solved—and the victims who go without justice. Victims like Katherine Hennepin, a young woman strangled and stabbed in her home. A single suspect with a solid alibi leads to a dead end—one even Alex Delaware's expert insight can't explain. The only thing to do is move on to the next murder case—because there's always a next one. This time the victim is Ursula Corey: a successful, attractive divorcée who's been gunned down—not a robbery but an execution, a crime that smacks of simple, savage revenge. And along with that theoretical motive come two strong contenders for the role of perp: the dead woman's business partner/ex-husband and her divorce lawyer/secret lover. But just as Alex and Milo think they're zeroing in on the most likely suspect, a bizarre new clue stirs up eerie echoes of the unsolved Hennepin murder. And the discovery of yet another crime scene bearing the same taunting signature raises the specter of a serial killer on a mission, whose twisted method is exceeded only by his manipulative and cunning madness. Praise for Motive “Jonathan Kellerman has mastered the art of lean, evocative prose [in] a series that grows stronger with each volume.”—New York Journal of Books “One of [Kellerman's] best works to date . . . Motive is wonderfully made, equally well-driven by plot and character, and shouldn't be missed.”—Bookreporter “[Motive] will even keep genre veterans guessing. . . . The twists are both shocking and logical, and the byplay between the leads entertaining.”—Publishers Weekly Praise for Jonathan Kellerman “Jonathan Kellerman's psychology skills and dark imagination are a potent literary mix.”—Los Angeles Times “A master of the psychological thriller.”—People “The combination of Alex Delaware [and] Detective Milo Sturgis . . . makes for the most original whodunit duo since Watson and Holmes.”—Forbes

Introducing Android Development with Ice Cream Sandwich Shane Conder,Lauren Darcey,2011-10-31 The Android platform continues to aggressively grow in market share against competing mobile platforms, such as Apple iOS and BlackBerry. Android's latest major platform update, Android 4.0, frequently called by its code-name, Ice Cream Sandwich or just ICS merges the smartphone-centric Android 2.3.x (Gingerbread) and the tablet-centric Android 3.x (Honeycomb) platform editions into a single SDK for all smart-devices, be they phones, tablets, televisions, or toasters. This short e-book provides an overview from the authors on the importance of Ice Cream Sandwich as well as key preview content from the upcoming book, Android Wireless Application Development, Third Edition, Volume I. This preview content provides some essential references, updated for Android SDK 4.0, for those interested in jumping into Android application development at this exciting time. To use this e-book most effectively, you need to download the Android development SDK and tools, install them on your development machine, and configure them using the development environment of your choice. You can find instructions for installing and configuring your computer for Android software development on the Android Developer website at <http://d.android.com/sdk/>.

Reality Echo James Axler,2010-02-01 Earth remains the volatile prize of aeons of war and domination by two panterrestrial races. Returning the fight to these inhuman overlords, the Cerberus rebels are the champions of the planet's postapocalyptic dark ages. They spark a uniquely human resilience and courage to stand down the forces of infinitely powerful, perhaps unstoppable entities in the ongoing war to retake Earth for humanity. The Bluegrass range, ripe with secrets and magic, hides the operating base of a race of monstrous genetic mutations, faithful servants of an ancient overlord. As Kane and the rebels stage their reconnaissance, the shocking new face of an old nemesis enters the fray. As this cross-spatial cyborg replicates himself as Kane and breaches humanity's last defense, he may well succeed in wiping the mountains—and their inhabitants—off the face of Earth permanently.
