Distributed Applications and Interoperable Systems Hartmut König,Kurt Geihs,Thomas Preuss,1997-09-30 Distribution and interoperability in heterogeneous computing environments are the key requirements for state-of-the-art information processing systems. Distributed applications are making a critical contribution in many application sectors, such as office automation, finance, manufacturing, telecommunications, aerospace, and transportation. Users demand support for the construction, integration and management of their application systems as well as for the interoperability of independent application components. DAIS '97 provides a forum for researchers, application designers and users to review, discuss and learn about new approaches and concepts in the fields of distributed applications. DAIS '97 will especially focus on the interoperability between different applications and services, different implementations of the same and of different distributed platforms.

Wireless Sensor Networks Holger Karl,Andreas Willig,2004-01-14 This book constitutes the refereed proceedings of the First European Workshop on Wireless Sensor Networks, EWSN 2004, held in Berlin, Germany in January 2004. The 24 revised full papers presented were carefully reviewed and selected from 76 submissions. Wireless sensor networks are a key technology for new ways of interaction between computers and the physical world around us. Compared to traditional networking, wireless sensor networks are faced with a rather unique mix of challenges: scalability, energy-efficiency, self-configuration, constrained computation and memory resources in individual nodes, data centricity, etc. This is one of a very small number of books entirely devoted to the presentation of cutting-edge R & D results in this exciting new area.

The Official Overstreet Comic Book Companion, 11th Edition Robert M. Overstreet,2010 Describes and lists the values of popular collectible comics and graphic novels issued from the 1950s to today, providing tips on buying, collecting, selling, grading, and caring for comics and including a section on related toys and rings.

Ambient Intelligence Werner Weber,Jan Rabaey,Emile H.L. Aarts,2005-12-12 Ambient intelligence is the vision of a technology that will become invisibly embedded in our natural surroundings, present whenever we need it, enabled by simple and effortless interactions, attuned to all our senses, adaptive to users and context-sensitive, and autonomous. High-quality information access and personalized content must be available to everybody, anywhere, and at any time. This book addresses ambient intelligence used to support human contacts and accompany an individual's path through the complicated

modern world. From the technical standpoint, distributed electronic intelligence is addressed as hardware vanishing into the background. Devices used for ambient intelligence are small, low-power, low weight, and (very importantly) low-cost; they collaborate or interact with each other; and they are redundant and error-tolerant. This means that the failure of one device will not cause failure of the whole system. Since wired connections often do not exist, radio methods will play an important role for data transfer. This book addresses various aspects of ambient intelligence, from applications that are imminent since they use essentially existing technologies, to ambitious ideas whose realization is still far away, due to major unsolved technical challenges.

Distributed Applications and Interoperable Systems II Lea Kutvonen, Hartmut König, Martti Tienari, 2013-03-09 Mastering interoperability in a computing environment consisting of different operating systems and hardware architectures is a key requirement which faces system engineers building distributed information systems. Distributed applications are a necessity in most central application sectors of the contemporary computerized society, for instance, in office automation, banking, manufacturing, telecommunication and transportation. This book focuses on the techniques available or under development, with the goal of easing the burden of constructing reliable and maintainable interoperable information systems. The topics covered in this book include: Management of distributed systems; Frameworks and construction tools; Open architectures and interoperability techniques; Experience with platforms like CORBA and RMI; Language interoperability (e.g. Java); Agents and mobility; Quality of service and fault tolerance; Workflow and object modelling issues; and Electronic commerce . The book contains the proceedings of the International Working Conference on Distributed Applications and Interoperable Systems II (DAIS'99), which was held June 28-July 1, 1999 in Helsinki, Finland. It was sponsored by the International Federation of Information Processing (IFIP). The conference program presents the state of the art in research concerning distributed and interoperable systems. This is a topical research area where much activity is currently in progress. Interesting new aspects and innovative contributions are still arising regularly. The DAIS series of conferences is one of the main international forums where these important findings are reported.

The Northeastern Reporter , 1903 Includes the decisions of the Supreme Courts of Massachusetts, Ohio, Indiana, and Illinois, and Court of Appeals of New York; May/July 1891-Mar./Apr. 1936, Appellate Court of Indiana; Dec. 1926/Feb. 1927-Mar./Apr. 1936, Courts of Appeals of Ohio.

Weblogic Server 6.1 Workbook for Enterprise Java Beans Greg Nyberg, 2002-08-28 Although EJB applications themselves are portable, the manner in which developers install and run EJB products varies widely from one vendor to the next. The goal of this WebLogic workbook is to discuss vendor specific requirements and best practices and introduce tools like the WebLogic Administration Console, all in the context of building and running the example programs for O'Reilly's Enterprise JavaBeans, 3rd edition. The Workbook guides you step-by-step, explaining how to build and deploy working solutions in a particular application server, and provides useful hints, tips and warnings. This WebLogic 6.1 Workbook was originally published by Enterprise JavaBeans author Richard Monson-Haefel's Titan Books publishing company. O'Reilly thought so highly of it, we bought the rights to publish it ourselves, in order to give more developers access to this critical information.

Application Development Using ObjectView Steven S. Vicinanza, David M. Arasmith, 1994-12-06 Graphically-based application development tools, such as Visual Basic, and Windows-based client/server applications are among the most important and closely watched technologies today. This tutorial teaches developers everything they need to know to create applications and interfaces using ObjectView.

Java 7 Recipes Josh Juneau, Mark Beaty, Carl Dea, Freddy Guime, John OConner, 2012-03-20 Java 7 Recipes offers solutions to common programming problems encountered every day while developing Java-based applications. Fully updated with the newest features and techniques available, Java 7 Recipes provides code examples involving Servlets, Java FX 2.0, XML, Java Swing, and much more. Content is presented in the popular problem-solution format: Look up the programming problem that you want to solve. Read the solution. Apply the solution directly in your own code. Problem solved! The problem-solution approach sets Java 7 Recipes apart from other books on the topic. Java 7 Recipes is focused less on the language itself and more on what you can do with it that is useful. The book respects your time by always focusing on a task that you might want to perform using the language. Solutions come first. Explanations come later. You are free to crib from the book and apply the code examples directly to your own projects. Covers all-new release of Java: Java 7 Focuses especially on up-and-coming technologies such as Java FX 2.0 Respects your time by focusing on practical solutions you can implement in your own code

The Official Overstreet Comic Book Companion Robert M.
