Louis Vuitton Manufactures Nicholas Foulkes,2022-02-01 Louis Vuitton fosters the idea that an atelier can be a place of fulfillment and individuality. A place where savoir-faire can be learned, respected and transmitted - and innovation nurtured - by artisans who routinely challenge the image of a traditional workshop. In pursuit of regional expertise and artisanal excellence, Louis Vuitton's ateliers span the length and breadth of France and beyond, from Geneva (Switzerland), to Fiesso d'Artico (Italy) and even Texas (USA). Sites of historic interest or outstanding natural beauty will often have a Louis Vuitton workshop nearby: in Normandy, the sea-girt fastness of Mont-Saint-Michel can be seen from the workshop at Ducey, and in Beaulieu-sur-Layon, the light-flooded facility promises low environmental impact.

Unfinished Business Kennelly,2023-11-20 This is the first study systematically to appraise Splendid's, «Elle», and Le Bagne, the three plays by Jean Genet published after his death, both in the context of the dramatist's dramatic canon and with respect to one another. After showing that their unusual publishing history necessarily sets these works apart from Haute surveillance, Les Bonnes, Le Balcon, Les Nègres, and Les Paravents, it argues that from Splendid's to Le Bagne, the question of incompleteness is 'exteriorized' -- moving from a purely thematic to an increasingly formal

context -- and that the status of each posthumously published work differs: Splendid's is a 'completed' play, thematizing incompleteness; «Elle», with its seemingly incomplete form having thematic currency, is a 'properly unfinished' play; and as the intentionally 'fragmentary', purposefully suspended 'beginning' of a play, Le Baigneur is shaped by incompleteness.

Classical Painting Atelier Juliette Aristides, 2011-11-15 Want to paint more like Manet and less like Jackson Pollock? Students of art hailed Classical Drawing Atelier, Juliette Aristides's first book, as a dynamic return to the atelier educational model. Ateliers, popular in the nineteenth century, teach emerging artists by pairing them with a master artist over a period of years. The educational process begins as students copy masterworks, then gradually progress to painting as their skills develop. The many artists at every level who learned from Classical Drawing Atelier have been clamoring for more of this sophisticated approach to teaching and learning. In Classical Painting Atelier, Aristides, a leader in the atelier movement, takes students step-by-step through the finest works of Old Masters and today's most respected realist artists to reveal the principles of creating full-color realist still lifes, portraits, and figure paintings. Rich in tradition, yet practical for today's artists, Classical Painting Atelier is ideal for serious art students

seeking a timeless visual education.

Theatres of Architectural Imagination Lisa Landrum, Sam Ridgway, 2023-05-17

This volume explores connections between architecture and theatre, and encourages imagination in the design of buildings and social spaces. Imagination is arguably the architect's most crucial capacity, underpinning memory, invention, and compassion. No simple power of the mind, architectural imagination is deeply embodied, social, and situational. Its performative potential and holistic scope may be best understood through the model of theatre. *Theatres of Architectural Imagination* examines the fertile relationship between theatre and architecture with essays, interviews and entr'actes arranged in three sections: Bodies, Settings, and (Inter)Actions. Contributions explore a global spectrum of examples and contexts, from ancient Rome and Renaissance Italy to modern Europe, North America, India, Iran, and Japan. Topics include the central role of the human body in design; the city as a place of political drama, protest, and phenomenal play; and world-making through language, gesture, and myth. Chapters also consider sacred and magical functions of theatre in Balinese and Persian settings; eccentric experiments at the Bauhaus and 1970 Osaka World Expo; and ecological action and collective healing amid contemporary climate chaos.

Inspired by architect and educator Marco Frascari, the book performs as a Janus-like memory theatre, recalling and projecting the architect's perennial task of reimagining a more meaningful world. This collection will delight and provoke thinkers and makers in theatrical arts and built environment disciplines, especially architecture, landscape, and urban design.

Animation Under the Swastika Rolf Giesen, J.P. Storm, 2012-08-02 Among their many idiosyncrasies, Adolf Hitler and Joseph Goebbels, the Nazi minister of propaganda, remained serious cartoon aficionados throughout their lives. They adored animation and their influence on German animation after World War II continues to this day. This study explores Hitler and Goebbels' efforts to establish a German cartoon industry to rival Walt Disney's and their love-hate relationship with American producers, whose films they studied behind locked doors. Despite their ambitious dream, all that remains of their efforts are a few cartoon shorts—advertising and puppet films starring dogs, cats, birds, hedgehogs, insects, Teutonic dwarves, and other fairy-tale ensemble. While these pieces do not hold much propaganda value, they perfectly illustrate Hannah Arendt's controversial description of those who perpetrated the Holocaust: the banality of evil.

Heroes and Villains David Hajdu, 2010-11 Heroes and Villains is the first collection of essays by David Hajdu' award - winning author of The Ten - Cent Plague' Positively 4th Street' and Lush Life. Eclectic and controversial' Hajdu's essays take on topics as varied as pop music' jazz' th...

Hagiography and the History of Latin Christendom, 500–1500 , 2019-12-02 The twenty-one essays of Hagiography and the History of Latin Christendom, 500-1500 employ innovative methods to unlock the historical potential of hagiographical sources and reach new discoveries about the medieval world that extend well beyond the study of sanctity.

The Anxieties of a Citizen Class Kiril Petkov, 2014-01-02 In The Anxieties of a Citizen Class Kiril Petkov reveals the uses of religious symbolism and miracle metaphors for the expression and alleviation of the social anxieties accompanying the formation of the cittadini originarii, the upper-middle class of fifteenth-century Venice.

Miraculous Rhymes Tony Hunt, 2007 The first published general study of an unduly neglected writer whose stylistic legacy remains unique in the Middle Ages. The well-connected, northern-French monk and musician Gautier de Coinci (1177/8-1236) occupies an unassailable position as one of the most exceptional vernacular writers of the Middle Ages, concerning whom there is nevertheless no full length study in English. In a meticulously planned and supervised collection of miracles of Our Lady, which survive in a remarkable number of manuscripts, some beautifully illustrated, Gautier deploys his outstanding talents as a composer of songs, an acerbic satirist, an audacious inventor of rich and equivocal rhymes (of a virtuosity unparalleled before the Grands Rhétoriciens on the eve of the Renaissance), a confident lexical innovator, an exuberant exponent of rhetorical wordplay, an incisive observer of contemporary society, and a man of profound personal piety. This study of word-patterning in Gautier seeks to compensate for the dearth of stylistic studies of Old French and to examine in detail the relationship between rhetoric and religion, courtoisie and Mariolatry, aristocratic tastes and the way to spiritual renewal. Gautier's writing strategy is shown to be a means to rise beyond secular, aristocratic values by building on them and transcending them rather than opposing and rejecting them. TONY HUNT is a Fellow of St Peter's College, Oxford.

International LGBTQ+ Literature for Children and Young Adults B.J.

Epstein, Elizabeth Chapman, 2021-08-17 This edited collection explores LGBTQ+ literature for young readers around the world, and connects this literature to greater societal, political, linguistic, historical, and cultural concerns. It brings together contributions from across the academic and activist spectra, looking at picture books, middle-grade books and young adult novels to explore what is at stake when we write (or do not write) about LGBTQ+ topics for young readers. The topics include the representation of sexualities and gender identities; depictions of queer families; censorship; links between culture, language and sexuality/gender; translation of LGBTQ+ literature for young readers; and self-publishing. It is the first collection to expand the study of LGBTQ+ literature for young readers beyond the English-speaking world and to draw cross-cultural comparisons.
