Perspectivas del Comercio Internacional de América Latina y el Caribe 2019 Economic

Commission for Latin America and the Caribbean, 2020-02-12 En 2019 el desempeño del comercio mundial de bienes sería el peor desde la crisis financiera. En esta edición de Perspectivas del Comercio Internacional de América Latina y el Caribe se analiza dicho fenómeno, así como las crecientes tensiones comerciales y las repercusiones en el comercio regional. La fuerte desaceleración del comercio mundial responde tanto a la acumulación de barreras comerciales desde 2018 como a otros factores de más larga data. Entre estos se destacan la menor demanda mundial, la creciente sustitución de importaciones por producción nacional en algunas economías, la menor proporción de la producción china que se destina a la exportación, el retroceso de las cadenas globales de valor y la irrupción de nuevas tecnologías que causan un impacto en la naturaleza misma del comercio. En el capítulo II se analiza la forma en que el comercio internacional puede hacer un mayor aporte a la sostenibilidad ambiental. Los vínculos entre comercio y medioambiente se han hecho más visibles desde los años noventa, como muestra el aumento de las controversias comerciales vinculadas con aspectos ambientales y la creciente incorporación de capítulos ambientales en los acuerdos comerciales. Por último, en el capítulo III se examina la situación de la infraestructura y la logística, aspectos clave para el comercio internacional y la producción. Se concluye destacando la necesidad de reexaminar las políticas públicas en materia de concesiones de infraestructura económica y el rol central de la acción regulatoria del Estado, especialmente en el ámbito de la competencia.

C++17 Peter Pohmann, 2017-05-22 Setzen Sie modernes C++ schon in Ihrer täglichen Arbeit ein? Warum eigentlich nicht? Der neue Standard enthält viele Erweiterungen, die Ihnen das Programmiererleben leichter und Ihre Anwendungen besser machen: Vom Schlüsselwort für undefinierte Zeiger über Lambda-Ausdrücke bis zur Unterstützung paralleler Programmierung. Auch C++ 17 bringt eine Reihe von Erweiterungen mit, welche Ihre Produktivität erhöhen und Ihren Quellcode optimieren können. Die aktuellen Compiler von Microsoft, GNU und anderen unterstützen die neuen Features schon beinahe vollständig. Dieses Buch ist Ihr schneller Weg, von den Neuerungen schon morgen zu profitieren. Es ist kein C++-Grundkurs, sondern beschreibt Thema für Thema die Erweiterungen des modernen C++ von C++ 11 über die Version 14 bis zum aktuellen Stand 17. Peter Pohmann geht es nicht darum, jeden einzelnen Aspekt der letzten drei C++-Updates in allen Details zu beschreiben. Vielmehr bekommen Sie so knapp wie möglich das nötige Wissen und Verständnis an die Hand, die neuen Möglichkeiten sofort einzusetzen. Der Autor lässt dabei alles weg, was Ihnen in der Praxis nicht weiterhilft, zum Beispiel Features, die in keinem verbreiteten Compiler implementiert sind, oder solche, die einem im Programmiereralltag gar nicht auffallen. Dafür gibt es

zu jeder Neuerung Tipps, ob, wie und wann man sie am besten verwendet.

ASP.NET Data Web Controls Kick Start Scott Mitchell,2003 Utilizing the more advanced features of the Data Web Controls has many developers stumped. These controls are fairly simple to use when it comes to simple data display. However, they can do much more than merely present data. For example, the DataGrid Web Control allows for sorting, paging, and editing of data. In addition, these controls allow for templating of data, which can be used to provide more complex views. The DataGrid, DataList, and Repeater forum on the Microsoft ASP.NET Forums received more than 2,100 posts in the first month and a half of use, or over 35 posts per day on average. As the Web master of an ASP.NET Web site, Scott has also received numerous emails from readers and visitors asking questions about these Web Controls. ASP.NET Data Web Controls is likely to be an indispensable item in every ASP.NET developer's toolbox.

Simulated Health Records Simplified DataWeb Inc. Staff,Dataweb Inc.,Jones & Bartlett Learning,Jones and Bartlett Learning Staff,2013-04-17 View a Recorded Webinar Demonstration <http://go.jblearning.com/EHRdemo> Jones & Bartlett Learning is proud to offer Simulated Health Records Simplified, the EHR Learning Portal created and hosted by DataWeb Inc. It is a cloud-based EHR (Electronic Health Record) simulation that allows students access to four different pre-set roles within an ambulatory care setting. Students assume each role to learn all aspects of an EHR and work with patient data to each role's ability and permission level. The unique feature of the system is its ability to provide two seemingly dichotomous functions giving a consistent role-based user experience for all students completing a class assignment and, at the same time, giving the student the ability to uniquely interact with her own patients' records. By interacting with each of these roles the student gains an understanding of how each role impacts Meaningful Use reporting: Office Receptionist - Records a patient's personal and payer information and checks in a patient for an appointment. Certified Nursing or Medical Assistant - Records a patient's vital signs for an encounter (appointment) and other medical history. Doctor, Registered Nurse, Nurse Practitioner, Physician Assistant (other clinicians would use role) - Records and codes a patient's medical procedure history and creates and signs notes and orders. Practice Manager - Reviews patient records for billing/payer purposes. The online EHR simulation program includes the following student activities Create a Patient Record Create an Appointment Check in a Patient Record Patient Vital Signs Record Patient Medications Create a Patient Note Start the Patient Order Process Explore Patient Orders Complete a Patient Order Use Doctor Desktop to Manage Your Patient Care Load Sign Notes and Orders Update Reference Information View Patient Events Each new workbook includes an access code to the online EHR training system. Electronic or eBook formats of the workbook do not include access to the online EHR.

O0IS 2001 Xingxu Wang,Shushma Patel,Ronald Johnston,2012-12-06 Welcome to O0IS'01 and Calgary! This is the 7th International Conference on Object-Oriented Information Systems (O0IS) that focus on Object-Oriented and Web-Based Frameworks for Information Systems. In the last few years

we've seen significant new development in this field, from one-off design technologies to reusable frameworks, and from web applications to bioinformatic systems. We perceive that information processing is one of the most important activities of human beings. Object-orientation and frameworks have been the main-stream technologies for design and implementation of large-scale and complex information systems. Recent research advances and industrial innovations in information systems modeling and Internet applications have explored the new trends in shifting information system vendors from component and system developers to services providers. Users of information systems are increasingly demanding higher performance, mobility, and personalization in order to realize the dream to access and obtain necessary information anywhere and anytime. The new development requires the investigation of new architectures, frameworks, processes, and inter-connectivity of information systems at society, organization, team, and personal levels. The OOS'01 Proceedings has put together a program of 53 papers from leading researchers and practitioners in the field of object technology and information systems.
