Marginalities in India Asmita

Bhattacharyya, Sudeep Basu, 2017-09-20 This volume engages with the renewed focus on various forms of persisting and new marginalities in globalising India. The persistence of hunger in pockets of India; forcible land acquisitions and their impact on deprived sections of society; the effects of urban relocations; material deprivation of minority groups and tribes as a result of conflicts; continuing caste discrimination; reported cases of atrocities against lower castes and tribes; regional disparities; gendered forms of exclusion and those related to disability and many other conditions suggest the need to rethink notions and practices of marginality and exclusion in India. This volume critiques the principal ways

of thinking about marginalities, which primarily consist of a focus on normative principles, and brings into focus the chasm between such principles and subjective notions and experiences of marginality and injustice. The uniqueness of this edited volume is that it connects theoretical perspectives with empirical case studies and discussions, and cases of exclusion are discussed within an overall inclusive and integrated framework. This is a valuable resource for researchers, scholars, students, public policy formulators and for social innovators from private sectors and non-government organisations.

Civilian Protective Agency in Violent Settings, 2023-09-07 More than half the world's population live in violent settings, such as civil wars, communal conflicts, cities plagued by gang violence, and entire areas governed by criminal organizations. Living exposed to diverse forms of violence, individuals and communities have found innovative-and sometimes counterintuitive-ways to protect themselves and others. *Civilian Protective Agency in Violent Settings* establishes the study of civilian agency and its protective dimension across various violent settings as a systematic and unified field of research. It brings together researchers spanning several social science disciplines to study civilian protective agency in different violent settings, including civil war, genocide, communal violence, and organized crime, and in various geographical locations, from Syria to Mozambique, Sri Lanka to Mexico, Iraq to Colombia and Western Europe. The volume offers conceptual foundations, new theoretical insights, and detailed empirics that advance our understanding of civilian protective agency and promote future research on the topic that is comparable, tractable, and cumulative.

A Sanskrit-English Dictionary Monier Monier-Williams, 1899 This new edition includes numerous

printed Sanskrit texts and works and three Indian journeys the author had undertaken. All the words are arranged etymologically and philologically with special reference to cognate Indo-European languages.

The Treasury of Good Sayings Bkra-śis-rgyal-mtshan (Śar-rdza), 2005 The Legs bshad mdzod, which is here edited and translated into English for the first time, is a history of Tibetan religion known as Bon. It gives a full account of this ancient religion, its origins and development, its struggles against the later imported Buddhism, and its fight for survival in spite of persecution and even abolition on two occasions. the reassembly of the scriptures dispersed at these times is major object of attention. In his introduction the editor makes an assessment of the historical value of the work and considers the extent of its reliability and factual accuracy. He has also, here and in the footnotes to the translation, indicated its sources which are extremely numerous and varied. The transliteration of the Tibetan text is followed by two indices of names and a short glossary of rare terms.
