**George Dienhart**

**Through the eyes of an American** George Dienhart, Through the eyes of an American is a collection of newspaper columns and essays from popular Atlanta area author George Dienhart. Dienhart takes on a variety of subjects. Education, National Defense, American History and the last two presidencies are covered by Dienhart's often witty take on American culture. Mr. Dienhart's direct and thoughtful ideas should be required reading for public servants, from congress to city council. If you have interest not only what has gone wrong in American history, but also what has gone right, this is a must read book.

**Reshaping Fatherhood** Anna Dienhart, 1998-05-27 Current research on fatherhood often focuses on minimal changes men have made in their participation in family life. Anna Dienhart argues that men have indeed made significant changes to their family roles, but those changes are often masked in existing discourses on fatherhood. In Reshaping Fatherhood, Dienhart's qualitative study of 18 shared parenting couples explores both men's and women's resourcefulness and shows how these couples have deliberately co-created alternatives to traditional parenting roles. Using these narrative accounts, Dienhart offers several options for creating a family structure that allows both mothers and fathers to participate actively in parenting. Dienhart emphasizes that tag-team parenting, a common technique that couples use to juggle the responsibilities of a hectic family life, relies on both the interchangeability of parental tasks as well as the specialization by preference. Dienhart compares shared parenting to a dance that demands continuous revision of the perceptions and activities of fatherhood and motherhood. She challenges family researchers to move beyond deficit and comparative model perspectives about the complexities of gendered family life as she offers alternative ideas about division-of-labor patterns, men's relational capabilities in child care, the preeminence of men's provider role, and traditional notions about

gender and politics in families. This timely book is ideal for professionals and students in family studies, sociology of the family, family psychology, and gender studies.

**The Architecture of Ethical Leadership** John W. Dienhart, Marc A. Cohen,

The Language of Riddles, Humor and Literature John M. Dienhart, 2010 This is a selection of essays in stylistics by John M. Dienhart (1939-2004) which are now collected for the first time. The essays investigate a variety of linguistic aspects of texts from different genres: from punning riddles and other kinds of humorous text to fictional prose and poetry. The essays are characterised by their pedagogical style and analytical insight and illustrate in an exemplary way how work in stylistics may simultaneously contribute to our understanding of a given text and of a particular linguistic phenomenon. John Dienhart was a dedicated linguist who loved his work and undertook all his projects with great commitment -- a commitment and enthusiasm which are unmistakably evident in the essays of this book.

Karl Barth's Emergency Homiletic, 1932-1933 Angela Dienhart Hancock, 2013-07-20 What does a theologian say to young preachers in the early 1930s, at the dawn of the Third Reich? What Karl Barth did say, how he said it, and why he said it at that time and place are the subject of Angela Dienhart Hancock's book. This is the story of how a preaching classroom became a place of resistance in Germany in 1932 33 -- a story that has not been told in its fullness. In that emergency situation, Barth took his students back to the fundamental questions about what preaching is and what it is for, returning again and again to the affirmation of the Goddess of God, the only ground of resistance to ideological captivity. No other text has so interpreted Barth's Exercises in Sermon Preparation in relation to their theological, political, ecclesiastical, academic, and rhetorical context.

**Psychology** John William Dienhart,1983

*Business, Institutions, and Ethics* John William Dienhart,2000

Business, Institutions, and Ethics: A Text with Cases and Readings is the first text to use the analysis of social institutions to examine business ethics. It explains fundamental concepts in ethics and how to apply them to business and economics. The author shows how social institutions are constituted by an integrated set of ethical, economic, and legal principles, and then uses these principles to study the ethics of commerce at the individual, organizational, and market levels. This unique work features thirty-four cases and articles that are organized into economic categories, providing a conceptual unity and flexibility not found in similar texts. The first half of the text focuses on theory, beginning with a case study that illustrates and unifies the theoretical discussions that follow. It examines market institutions, organizational structure, and individual decision making; interprets moral development as a process within institutional settings; and explains egoism, care, utilitarianism, right, and pluralistic ethical theories. It also discusses how

economic analyses of markets and firms incorporate ethical principles, and argues that law reinforces ethical and economic aspects of social institutions important to the continued existence and well-being of society. The second half of the text consists of cases and articles organized by the economic categories of property, risk-reward relationships, information, and competition. Topics covered include corporate control, workplace dangers, marketing, and manufacturing relocation. Applicable in both business schools and philosophy departments, Business, Institutions, and Ethics shows how ethical principles can help us gather, sort, and interpret information necessary for making sound business decisions. Ideal for courses in business ethics and business and society, it is also a valuable reference for business professionals and philosophers.
