101 Businesses You Can Start with Less Than One Thousand Dollars Heather L. Shepherd, 2007 According to a study by the U.S. Department of Health and Human Services, people starting their working careers will face the following situation when they retire age at age 65: they will have annual incomes between \$4,000.00 and \$26,000.00. According to the Social Security Administration, today's retirees can only count on corporate pensions and Social Security for 61 percent of their income at retirement. The remainder must come from other sources. If the same holds true in the future, today's workers need to accumulate enough in personal savings to make up a 39 percent shortfall in their retirement income. The solution for many after they have played enough golf and caught enough fish will be to start a small part-time business. Detailed in this new book are over 100 business ideas that can be started for very little money and yet may provide retired people with a lot more money than they would earn being paid by the hour. This is a collection of businesses selected especially for retirees who are interested in augmenting their income. These businesses can be started with minimum training and investment and are all capable of producing extra income.
