Dying: A Memoir Cory Taylor, 2017-08-01 Bracing and beautiful . . . Every human should read it. —The New York Times A New York Times Book Review Editors' Choice At the age of sixty, Cory Taylor is dying of melanoma-related brain cancer. Her illness is no longer treatable: she now weighs less than her neighbor's retriever. As her body weakens, she describes the experience—the vulnerability and strength, the courage and humility, the anger and acceptance—of knowing she will soon die. Written in the space of a few weeks, in a tremendous creative surge, this powerful and beautiful memoir is a clear-eyed account of what dying teaches: Taylor describes the tangle of her feelings, remembers the lives and deaths of her parents, and examines why she would like to be able to choose the circumstances of her death. Taylor's last words offer a vocabulary for readers to speak about the most difficult thing any of us will face. And while *Dying: A Memoir* is a deeply affecting meditation on death, it is also a funny and wise tribute to life.

Top Five Regrets of the Dying Bronnie Ware, 2019-08-13 Revised edition of the best-selling memoir that has been read by over a million people worldwide with translations in 29 languages. After too many years of unfulfilling work, Bronnie Ware began searching for a job with heart. Despite having no formal qualifications or previous experience in the field, she found herself working in palliative care. During the time she spent tending to those who were dying, Bronnie's life was transformed. Later, she wrote an Internet blog post, outlining the most common regrets that the people she had cared for had expressed. The post gained so much momentum that it was viewed by more than three million readers worldwide in its first year. At the request of many, Bronnie subsequently wrote a book, *The Top Five Regrets of the Dying*, to share her story. Bronnie has had a colourful and diverse life. By applying the lessons of those nearing their death to her own life, she developed an understanding that it is possible for everyone, if we make the right choices, to die with peace of mind. In this revised edition of the best-selling memoir that has been read by over a million people worldwide, with translations in 29 languages, Bronnie expresses how significant these regrets are and how we can positively address these issues while we still have the time. *The Top Five Regrets of the Dying* gives hope for a better world. It is a courageous, life-changing book that will leave you feeling more compassionate and inspired to live the life you are truly here to live.

Dying Pat McNees, 1998-08-01 In this treasury of life-affirming passages, more than 40 celebrated writers, thinkers, and religious figures from various faiths speak eloquently on the nature of dying and provide words of comfort for those left behind.

Dying in America Institute of Medicine, Committee on Approaching Death: Addressing Key End-of-Life Issues, 2015-03-19 For patients and their loved ones, no care decisions are more profound than those made near the end of life. Unfortunately, the experience of dying in the United States is often characterized by fragmented care, inadequate treatment of distressing symptoms, frequent transitions among care settings, and enormous care responsibilities for families. According to this report, the current health care system of rendering more intensive services than are necessary and desired by patients, and the lack of coordination among programs increases risks to patients and creates avoidable burdens on them and their families. *Dying in America* is a study of the current state of health care for persons of all ages who are nearing the end of life. Death is not a strictly medical event. Ideally, health care for those nearing the end of life harmonizes with social,

psychological, and spiritual support. All people with advanced illnesses who may be approaching the end of life are entitled to access to high-quality, compassionate, evidence-based care, consistent with their wishes. *Dying in America* evaluates strategies to integrate care into a person- and family-centered, team-based framework, and makes recommendations to create a system that coordinates care and supports and respects the choices of patients and their families. The findings and recommendations of this report will address the needs of patients and their families and assist policy makers, clinicians and their educational and credentialing bodies, leaders of health care delivery and financing organizations, researchers, public and private funders, religious and community leaders, advocates of better care, journalists, and the public to provide the best care possible for people nearing the end of life.

Things I've Learned from Dying David R. Dow, 2014-01-07 Every life is different, but every death is the same. We live with others. We die alone. In his riveting, artfully written memoir *The Autobiography of an Execution*, David Dow enraptured readers with a searing and frank exploration of his work defending inmates on death row. But when Dow's father-in-law receives his own death sentence in the form of terminal cancer, and his gentle dog Winona suffers acute liver failure, the author is forced to reconcile with death in a far more personal way, both as a son and as a father. Told through the disparate lenses of the legal battles he's spent a career fighting, and the intimate confrontations with death each family faces at home, *THINGS I'VE LEARNED FROM DYING* offers a poignant and lyrical account of how illness and loss can ravage a family. Full of grace and intelligence, Dow offers readers hope without cliché and reaffirms our basic human needs for acceptance and love by giving voice to the anguish we all face--as parents, as children, as partners, as friends--when our loved ones die tragically, and far too soon.

On Death and Dying Elisabeth Kübler-Ross, 2009 Focuses on the patient as a human being and a teacher, able to impart knowledge about the final stages of life. Examines the attitudes of the dying and the factors that contribute to society's anxiety over death.

Being with Dying Joan Halifax, 2009-11-17 The Buddhist approach to death can be of great benefit to people of all backgrounds—as has been demonstrated time and again in Joan Halifax's decades of work with the dying and their caregivers. Inspired by traditional Buddhist teachings, her work is a source of wisdom for all those who are charged with a dying person's care, facing their own death, or wishing to explore and contemplate the transformative power of the dying process. Her teachings affirm that we can open and contact our inner strength, and that we can help others who are suffering to do the same.

Brother, I'm Dying Edwidge Danticat, 2007 In a personal memoir, the author describes her relationships with the two men closest to her--her father and his brother, Joseph, a charismatic pastor with whom she lived after her parents emigrated from Haiti to the United States.

Caring for the Dying Henry Fersko-Weiss, 2017-03-01 *Caring for the Dying* describes a whole new way to approach death and dying. It explores how the dying and their families can bring deep meaning and great comfort to the care given at the end of a life. Created by Henry Fersko-Weiss, the end-of-life doula model is adapted from the work of birth doulas and helps the dying to find meaning in their life, express that meaning in powerful and beautiful legacies, and plan for the final days. The approach calls for around-the-clock vigil care, so the dying person and their family have the emotional and spiritual support they need along with guidance on signs and symptoms of dying. It also covers the work of reprocessing a death with the family afterward and the early work of grieving. Emphasis is placed on the space around the dying person and encourages the use of touch, guided imagery, and ritual during the dying process. Throughout the book Fersko-Weiss tells amazing and encouraging stories of the people he has cared for, as well as stories that come from doulas he has trained and worked with over the years. What is unique about this book is the well-conceived and thorough approach it describes to working skillfully with the dying. The guidance

provided can help a dying person, their family, and caregivers to transform the dying experience from one of fear and despair into one that is uplifting and even life affirming. You will see death in a new light and gain a different perspective on how to help the dying. It may even change the way you live your life right now.

Dying to Be Me Anita Moorjani, 2022-03-08 THE NEW YORK TIMES BESTSELLER! I had the choice to come back ... or not. I chose to return when I realized that 'heaven' is a state, not a place. In this truly inspirational memoir, Anita Moorjani relates how, after fighting cancer for almost four years, her body began shutting down—overwhelmed by the malignant cells spreading throughout her system. As her organs failed, she entered into an extraordinary near-death experience where she realized her inherent worth . . . and the actual cause of her disease. Upon regaining consciousness, Anita found that her condition had improved so rapidly that she was released from the hospital within weeks—without a trace of cancer in her body! Within this enhanced e-book, Anita recounts—in words and on video—stories of her childhood in Hong Kong, her challenge to establish her career and find true love, as well as how she eventually ended up in that hospital bed where she defied all medical knowledge. In *Dying to Be Me*, Anita Freely shares all she has learned about illness, healing, fear, being love, and the true magnificence of each and every human being!

Living Is Dying Dzongsar Jamyang Khyentse, 2020-03-31 An insightful collection of teachings about death and dying to help face life's greatest mystery calmly and with equanimity. Lifetimes of effort go into organizing, designing, and structuring every aspect of our lives, but how many people are willing to contemplate the inevitability of death? Although dying is an essential part of life, it is an uncomfortable topic that most people avoid. With no idea what will happen when we die and a strong desire to sidestep the conversation, we make all kinds of assumptions. *Living Is Dying* collects teachings about death and the bardos that have been passed down through a long lineage of brilliant Buddhist masters, each of whom went to great lengths to examine the process in minute detail. Renowned author and teacher Dzongsar Jamyang Khyentse responds to the most common questions he's been asked about death and dying—exploring how one prepares for death, what to say to a loved one who is dying, and prayers and practices to use as a handhold when approaching the unknown territory of death. Whether you are facing death today or decades from now, preparing for it can help to allay your worst fears and help you appreciate what it means to be truly alive.

Death and Dying Lauri S. Scherer, 2014-04-14 This collection of essays explores issues related to death and dying. Each essay takes a pro or con stance on each topic, so that readers benefit from more than one thoughtful viewpoint. Readers will explore end-of-life care, and the economics and end-of-life care decisions. They will evaluate government involvement, and the rights of terminally ill people. Hospice care, and the relationship between technology and life spans are also debated.

Elyse and Me John R. Hanson, 2016-11-28 What's it like for a child to find out they have a life-threatening illness? What would they think and feel? They might know that they could die from this illness, but do they really understand what dying is? Do they wonder what happens to them if they actually die? This tender story is about a nine-year-old girl who has cancer. Her name is Elyse and this story follows her journey through the wide-ranging thoughts and emotions of a child faced with the possibility of dying. What if her chemotherapy doesn't work? She knows that could happen. She doesn't know what to trust. She alternately feels great hope and terror. What if she dies? What does that even mean? Elyse's parents talk about going to heaven and being with God forever. Does that sound appealing to a nine year old? Absolutely not. Leave her parents forever? Leave all her friends, neighborhood, school and favorite things forever? Comfort seems to be out of reach for Elyse. But what if God himself were to show up and actually speak with Elyse? What if he would answer all of her questions and present the experience of heaven as enjoyable and fun? That sounds helpful, but would God actually do that? One night Elyse's parents told her that her doctors were worried that the chemotherapy might not work anymore. Elyse was grief-stricken. She was scared and angry. She and her parents all hugged each other and cried together. Elyse finally cried herself to sleep. In the middle of the night Elyse was woken up by something very puzzling and yet amazing. She didn't know it at the time, but her discovery would completely turn things around for her. She was about to start on a new adventure that could lead her into death ... and beyond.
