The Nevada State Constitution Michael W. Bowers, 2014 In this newly revised work, Michael Bowers presents an historical overview of constitutional development in the state of Nevada. The Nevada State Constitution provides a comprehensive section-by-section analysis of the state constitution. In addition, a thorough bibliographic essay notes the seminal works relating to the constitution, and a list of cases enumerates the landmark federal and state court decisions interpreting the state's constitution and the more than one hundred amendments to it. This one-of-a-kind treatment of the Nevada Constitution is essential reading for those interested in the historical development and contemporary meaning of the Sagebrush State's oldest and most foundational legal document. The Oxford Commentaries on the State Constitutions of the United States is an important series that reflects a renewed international interest in constitutional history and provides expert insight into each of the 50 state constitutions. Each volume in this innovative series contains a historical overview of the state's constitutional development, a section-by-section analysis of its current

constitution, and a comprehensive guide to further research. Under the expert editorship of Professor G. Alan Tarr, Director of the Center on State Constitutional Studies at Rutgers University, this series provides essential reference tools for understanding state constitutional law. Books in the series can be purchased individually or as part of a complete set, giving readers unmatched access to these important political documents.

International Taxation of Banking John Abrahamson, 2020-02-20 Banking is an increasingly global business, with a complex network of international transactions within multinational groups and with international customers. This book provides a thorough, practical analysis of international taxation issues as they affect the banking industry. Thoroughly explaining banking's significant benefits and risks and its taxable activities, the book's broad scope examines such issues as the following: taxation of dividends and branch profits derived from other countries; transfer pricing and branch profit attribution; taxation of global trading activities; tax risk management; provision of services and intangible property within multinational groups; taxation treatment of research and development expenses; availability of tax incentives such as patent box tax regimes; swaps and other derivatives; loan provisions and debt restructuring; financial technology (FinTech); group treasury, interest flows, and thin capitalisation; tax havens and controlled foreign companies; and taxation policy developments and trends. Case studies show how international tax analysis can be applied to specific examples. The Organisation for Economic Co-operation and Development Base Erosion and Profit Shifting (OECD BEPS) measures and how they apply to banking taxation are discussed. The related provisions of the OECD Model Tax Convention are analysed in detail. The banking industry is characterised by rapid change, including increased diversification with new banking products and services, and the increasing significance of activities such as shadow banking outside current regulatory regimes. For all these reasons and more, this book will prove to be an invaluable springboard for problem solving and mastering international taxation issues arising from banking. The book will be welcomed by corporate counsel, banking law practitioners, and all professionals, officials, and academics concerned with finance and its tax ramifications.

Stash and the Adventures of the Coal Cousins Sophie and Natalie Washo, 2014-08-28 About Stash and the Adventures of the Coal Cousins Stash is a wise old dog who lives with two sisters Cece and Lele. They all go on adventures with their cousins and learn important lessons for all kids! The story/authors/Art from the Heart charity The Adventures of the Coal Cousins follows Cece and Lele in fun childhood adventures, where they learn important lessons from Stash the dog. In this story the Coal Cousins find a map and go on adventure to find the mysterious Crystal Mountain! The problem is, they venture out after school, when it starts to get dark outside, and forget to tell their parents where they were going! Follow the sisters and cousins on this exciting adventure, with unexpected twists and turns, as they learn valuable lessons from Stash the dog at the end! The book and illustration concepts are written by Sophie (age 10) and Natalie (age 8) Washo, created in memory of Sophie and Natalie Washo's Grand-Dad Michael Washo, who passed away from heart complications while battling cancer. The stories draw inspiration from 3 generations of Washo's, Malitskys, and Cameron's by combining childhood stories from all generations as if everyone are kids at the same time. In the first book Little Mikey is Grand-Dad Washo, Cece and Lele are

Sophie and Natalie Washo and introducing Krusty based on cousin, TJ Gennaro.. A percentage of the net proceeds will benefit the Michael Washo Art from the Heart charity established to draw awareness to heart risks associated with chemo and radiation treatments to patients battling cancer. The Iran Nuclear Deal Dennis C. Jett, 2017-10-19 This book examines attempts to influence the outcome of the negotiations between Iran and the United States over Iran's nuclear capabilities. In particular, it focuses on struggles within the United States around public and congressional opinion with regard to the accord. Trying to prevent a successful outcome to the talks became a cottage industry in Washington, with the casino billionaire Sheldon Adelson being just one of those who were pouring millions of dollars into the effort. On the pro-diplomacy side, there were a wide range of religious, peace, and arms control groups with some financial support coming from the Ploughshares Fund trying to create the space for a negotiated agreement. The tactics of both sides of the debate are described and analyzed to show how a contentious foreign policy issue can become not just a decision for high-level government decision makers, but a wide-ranging fight that involves scores of nongovernmental organizations, the media, and thousands of activists.

Combating Climate Change Lisa Svensson, 2008 An increasing sense of urgency has pushed climate change to the top of the international agenda. This volume presents an overview of the principal mechanisms to combat climate change, and highlights the need for a broad approach to creating an international policy framework. Furthermore, it outlines current action in Europe and the U.S. and discusses and lessons to be learned from the experience of the European Union in order to advance a transatlantic consensus on climate change. Finally, it offers a roadmap for a post-2012 framework when the Kyoto Protocol expires. This volume is based on discussions and recommendations from a symposium of climate change experts, business leaders, and government officials at a November 2007 California-European Dialogue on Climate Change held in Santa Barbara, California. The report is a practical tool for public understanding of the ongoing debate about climate change.--BOOK JACKET.
