The Safety Muscles Guide was written for anyone that has pain, or wants to improve muscle or postural balance. This book was created by former Olympic provider Allison Ishman, who developed these exercises over 25 years of clinical massage, personal training and Pilates practice. Having worked with pre-Olympic athletes throughout her career, and Olympic Athletes competing in racquet sports at the 1996 Games in Atlanta, she has applied these successfully to thousands of patients and clients to balance posture, relieve pain, and empower people to live injury and pain free. Everyday Exercises plus Health & Fitness Professional Support! Exercises in the book are written for everyone to understand, and include a special section after each exercise for health and fitness professionals. Knee Pain, Ankle Pain or Plantar Fasciitis - Fibromyalgia or Chronic Pain When and How to Use Safety Muscle Exercises Safety Muscle Exercises are excellent starting exercises for a new exercise program, as well as for recovering from pain or injury during the building and maintenance stages. Enjoy a reduced risk of injury from workouts and activities! Strengthen 2-3 times per week for two weeks, you will notice better muscle balance and may enjoy the relief of pain and tightness throughout the body. Exercises are shown with pictures and written descriptions for the everyday exerciser. Additional detailed information is included for health professionals or anatomy enthusiasts who want to know more about balancing Abdominals with Lat muscles (also known as latissimus dorsi), Gluteal muscles, Posterior Deltoids and Rotator Cuff muscles including the

Supraspinatus, Infraspinatus, Teres Major and Teres Minor, with the Rhomboids and Trapezius muscles, and Adductors with Abductors in the thigh. Empower yourself to live a pain free life! Proactively use the exercises before strenuous activities such as helping you or a friend move, and see how little soreness settles in the next day when you have strong core and safety muscle strength! This type of exercise takes only 10 minutes a day to offer exceptional results that protect your back, neck and legs from strain, pain or injury. Double-Minded Madness from the Pulpit to the Door Melissa Ishman, 2007-09 The church has come to a devastating place. Most of the messages that are preached are about finance and romance. Rarely is the gospel of Christ preached. While the church continues to shrink back, the spirits of the age have become more and more aggressive. Distinction between the saved and the unsaved has become difficult. The sin that has infiltrated the church must be exposed in order to put an end to this adouble-minded madness.a
