**Computers in the Special Education Classroom** Cleborne D. Maddux, Ann C. Candler-Lotven, 1987 Authorities from the fields of education and computers explore the vital issues and concerns related to effectively using available computer technologies in the special education classroom. They thoroughly examine the potential benefits of technology in addressing the needs of the disabled, the limits in the application of technology to the lives of the disabled, and the risks of a person with disabilities becoming too dependent on technology. Timely and practical information is offered for effectively applying available technologies, advocating new technologies, and conducting needed research.

*Cultivating and Keeping Committed Special Education Teachers* Bonnie S. Billingsley, 2005-03-10 Billingsley highlights the problems that drive many special educators out of teaching and outlines practical recommendations that leaders can use to increase retention.

**Special Education in the 21st Century** Margret A. Winzer, 2000 In the late 20th century, a tidal wave of calls for reform and inclusion of special needs students swept over public special education. The current debates over implementing these themes today are authoritatively addressed by 19 distinguished scholars in this thorough volume. Organized into three cohesive sections, it begins with the issues of educational reform and the emerging discourses of disability and integration in the inclusion movement. Respective chapters appraise specific arguments for inclusion and the federal legislation and litigation surrounding and supporting special education. The second part features the thorny issue of assessment, the technological revolution in special education, and the disposition of teacher training. The third section scrutinizes the inclusion of various populations of students with exceptional needs, particularly how teachers can make an easy

transition from ideology to educational practice. Special Education in the 21st Century sets the standard for extrapolating future directions by wisely weighing classroom practices for different groups and the technical problems of resources, management, social groupings, instructional design, and the supposition that teachers will automatically change to accommodate an even greater diversity of learners.

Teaching Students With High-Incidence Disabilities Mary Anne Prater, 2016-12-29 To ensure that all students receive quality instruction, *Teaching Students with High-Incidence Disabilities* prepares preservice teachers to teach students with learning disabilities, emotional behavioral disorders, intellectual disabilities, attention deficit hyperactivity, and high functioning autism. Focusing on research-based instructional strategies, Mary Anne Prater gives explicit instructions and strategies for teaching students with special needs, and includes examples throughout in the form of scripted lesson plans. Real-world classrooms are brought into focus through teacher tips, embedded case studies, and technology spotlights to enhance student learning. The book also emphasizes diversity, with a section in each chapter devoted to exploring how instructional strategies can be modified to accommodate diverse exceptional students.

Cutting Edge in Special Education Ravindra Kumar Kushwaha, Dr. Abhishek Kumar Dubey, Abhishek Tripathi, Ganesh Mishra, 2023-12-17 *Cutting Edge in Special Education* is an insightful and ground-breaking book that delves into the latest advancements and methodologies in the field of special education. This book stands as a crucial resource for educators, parents, and policymakers who are navigating the ever-evolving landscape of educational needs for students with disabilities. **The Intentional IEP** Stephanie DeLussey, 2024-01-24 Learn how to put together IEPs with the power to make a real difference for students *The Intentional IEP* shows special education teachers how to successfully collaborate with all stakeholders—parents or guardians, general ed teachers, therapists, and beyond—to work toward students' success. Too many of us aren't trained to write the Individualized Education Programs that help millions of students with thrive in school. This book fills that training gap, explaining the importance of assembling an IEP team and inviting this team to confront and improve its current processes and habits to make IEP writing simpler and more effective. With all the pressures that educators are under, it's easy to cut corners when it comes time to write IEPs. Writing them in isolation, leaving them to the night before, making decisions without consulting data and research, letting family collaboration fall to the wayside—most special educators have made these mistakes at some point. *The Intentional IEP* equips you with the resources you need to feel confident in approaching IEPs the right way, including prioritizing the

many competing demands you face so you can find the capacity to show up for your students. This book offers: Clear, step-by-step solutions for all IEP members that can easily be implemented at any time during the school year Collaboration strategies for IEP teammates to rely on one another for expert and professional knowledge Tools and reproducibles to strengthen practices and overcome common hurdles Direct advice from a veteran special education teacher who has seen what a difference collaboration in the IEP can make for students The Intentional IEP is a timely resource for special education teachers, general education teachers, and support staff, as well as teacher training programs. Parents and guardians with students will also benefit from this clearly written guide to the IEP.

**Nolo's IEP Guide** Lawrence M. Siegel, 2020-06-01 How to advocate for your child's education Many children have learning disabilities—and it's up to parents and schools to work together to ensure that each child's unique educational needs are met. But what if the school disagrees with your goals for your child? You are at a disadvantage if you don't know the law. This book teaches you to: identify a learning disability understand your child's rights to education untangle eligibility rules and evaluations prepare and make your best case to school administrators develop IEP goals and advocate for their adoption, and explore and choose the best programs and services. Written by an expert who's fought for kids for many years, the 8th edition includes summaries of important court decisions and expanded information on independent evaluations and bullying, and provides the forms, sample letters, resources, and encouragement you need. Subject Areas/Keywords: assessments, curriculum, disabilities, exceptional children, field

work, IEPs, inclusion, instruction, learning, lessons, professional development, special education, special needs, standards, students, teacher preparation programs, teacher training, teachers, teaching Audience: Teacher educators in special education, graduate students preparing to be teacher educators, and school district personnel who provide staff development for special education teachers--

**Breakthrough Teaching and Learning** Tracy Gray, Heidi Silver-Pacuilla, 2011-03-24 The many technology-related educational changes of the past decade have been propelled by even greater changes in the general consumer technology landscape. Education has become increasingly entwined with the digital consumer landscape. We are no longer asking whether digital materials and tools should be integrated into teaching and learning, but how and how well. Meanwhile, the overall academic performance of U.S. students has not kept pace with our international peers. Many policymakers have called for increased attention to students' 21st century skills and work readiness, pointing to the critical role technology should play in educational innovation. These changes mean that many mainstream accessible technologies can be used in the classroom to benefit a diverse population of learners, including students with disabilities and English language learners, reflecting the national shift from separate special education programs to more inclusive classrooms. Changes to policies and standards have pushed assistive and accessible technologies to the forefront, including the Higher Education Opportunity Act of 2008, which requires teacher preparation programs to address educational technology and principles of universal design for learning (UDL), and the National Instructional Materials Accessibility Standard (NIMAS), which creates a public-private infrastructure to provide more timely delivery of digital text to students with physical and print disabilities. This volume represents pioneering ideas that examine how accessible educational

technologies can be harnessed for breakthrough learning for all students. Chapters will cover innovation trends in educational and assistive technologies, cognitive and neuroscience findings on how individual differences impact technology use and choice; the intersection of educational, leisure, health habits and exergaming; the use of social networking tools by students with and without disabilities; the use of social networking for teacher professional learning communities; the future of assessments for decision-making; and an analysis of the habits of mind and work traits of innovators NCTI has interviewed over the past five years.

*A World Away from IEPs* Erin McCloskey, 2022 Step outside of the IEPs and behavioral paperwork currently generated in schools, go where disabled people are thriving today, and see the results in learning, growth, and expression. This authoritative book offers readers alternative ways to think about learning and behavior in special education. Through illustrative case studies and a disability studies lens, author Erin McCloskey uses the voices of people with disabilities to show how these students progress creatively outside the classroom and school building--at the dojo, the riding arena, the theater stage, the music studio, and other community-centered spaces where disabled students can make choices about their learning, their bodies, and their goals. Balancing theory and practice, the book describes alternative learning spaces, demonstrates how disabled students learn there, and passes on the important lessons learned in each space. The ideas apply to students of all ages with a wide variety of disabilities. Book Features: Uses the voices of people with disabilities to promote alternative ways to think about learning and behavior in special education. Presents rich case studies and briefer interludes to illustrate how disabled students are learning and thriving in surprising ways outside of school where they have opportunities to explore. Distills important key takeaways from each case study through chapter sections of lessons learned. Promotes informed

discussion of the concepts in the book with questions at the end of each chapter. Combines theory and practice to help readers put the concepts into action in a variety of settings with a variety of disabled students.

**Common-Sense Classroom Management for Special Education Teachers Grades K-5** Jill

A. Lindberg, Judith Walker-Wied, Kristin M. Forjan Beckwith, 2014-11-04 Special help for special education teachers means special success for students! Do you have too many IEPs on your desk? Is it five o'clock and do you still need to contact parents, social workers, and general education co-teachers? Teachers new to special education often feel overwhelmed at the amount of additional planning and information management required. This practical guide shows you how to shape the structure of the teaching day to ensure that learners with special needs experience success. It includes simple teacher-tested, easy-to-implement strategies needing 5 steps or fewer to:

- Organize students to make the most of the time you have with them
- Use incentive programs and meaningful consequences to achieve desired behaviors
- Coordinate with co-teachers, general education teachers, and staff to maximize your efforts

Special Education teachers face different challenges, paperwork shouldn't be one of them. When the key paperwork is at your fingertips, the lesson plan is prepared, and the to-do list is written, you will find more time in your day for what's most important—your students!
