**The Original Blues** Lynn Abbott,Doug Seroff,2017-02-27 With this volume, Lynn Abbott and Doug Seroff complete their groundbreaking trilogy on the development of African American popular music. Fortified by decades of research, the authors bring to life the performers, entrepreneurs, critics, venues, and institutions that were most crucial to the emergence of the blues in black southern vaudeville theaters; the shadowy prehistory and early development of the blues is illuminated, detailed, and given substance. At the end of the nineteenth century, vaudeville began to replace minstrelsy as America's favorite form of stage entertainment. Segregation necessitated the creation of discrete African American vaudeville theaters. When these venues first gained popularity ragtime coon songs were the standard fare. Insular black southern theaters provided a safe haven, where coon songs underwent rehabilitation and blues songs suitable for the professional stage were formulated. The process was energized by dynamic interaction between the performers and their racially-exclusive audience. The first blues star of black vaudeville was Butler String Beans May, a blackface comedian from Montgomery, Alabama. Before his bizarre, senseless death in 1917, String Beans was recognized as the blues master piano player of the world. His musical legacy, elusive and previously unacknowledged, is preserved in the repertoire of country blues singer-guitarists and pianists of the race recording era. While male blues singers remained tethered to the role of blackface comedian, female coon shouters acquired a more dignified aura in the emergent persona of the blues queen. Ma Rainey, Bessie Smith, and most of their contemporaries came through this portal; while others, such as forgotten blues heroine Ora Criswell and her protégé Trixie Smith, ingeniously reconfigured the blackface mask for their own subversive purposes. In 1921 black vaudeville activity was effectively nationalized by the Theater Owners Booking Association (T.O.B.A.). In collaboration with the emergent race record industry, T.O.B.A. theaters featured touring companies headed by blues queens with records to sell. By this time the blues had moved beyond the confines of entertainment for an exclusively black audience. Small-time black vaudeville became something it had never been before--a gateway to big-time white vaudeville circuits, burlesque wheels, and fancy metropolitan cabarets. While the 1920s was the most glamorous and remunerative period of vaudeville blues, the prior decade was arguably even more creative, having witnessed the emergence, popularization, and early development of the original blues on the African American vaudeville stage.

*Buddhism, the Internet, and Digital Media* Gregory Price Grieve,Daniel Veidlinger,2014-09-19 Buddhism, the Internet and Digital Media: The Pixel in the Lotus explores Buddhist practice and teachings in an increasingly networked and digital era. Contributors consider the ways Buddhism plays a role and is present in digital media through a variety of methods including concrete case studies, ethnographic research, and content analysis, as well as interviews with practitioners and cyber-communities. In addition to considering Buddhism in the context of technologies such as virtual worlds, social media, and mobile devices, authors ask how the Internet affects identity, authority and community, and what effect this might have on the development, proliferation, and perception of Buddhism in an online environment. Together, these essays make the case that studying contemporary online Buddhist practice can provide valuable insights into the shifting role religion plays in our constantly changing, mediated, hurried, and uncertain culture.
