**A Record of the Assembled Immortals and Gathered Perfected of the Western Hills** Richard

Bertschinger, 2018-01-18 In this Tang Classic text from the 9th Century, Daoist practitioner Shi Jianwu describes how through adapting our own breathing to the breath of the universe and daily meditation, one can develop an astral body and 'transcend earthly matters to walk in the divine'. Richard Bertschinger offers the first annotated English language translation of this text with practical guidance for Qigong, meditative practice and personal development. With elements of Daoist tradition and drawing on Mayahana Buddhist influences, this ancient guide aims to bring to the fore perceptions and focus on a natural form of breathing for pure meditation. Much of this Chinese practice has been misunderstood and lost over the years, until now. Richard's thoughtful translation and additional comments serve to distribute Shi Jianwu's original message with open interpretations for the individual reader.

**The Columbia Anthology of Modern Chinese Drama**

Xiaomei Chen, 2010-10-29 The first of its kind in English, this anthology translates twenty-two popular Chinese plays published between 1919 and 2000, accompanied by a critical introduction to the historical, cultural, and aesthetic evolution of twentieth-century Chinese spoken drama. Primarily comprising works from the People's Republic of China, though including representative

plays from Hong Kong and Taiwan, this collection not only showcases the revolutionary rethinking of Chinese theater and performance that began in the late Qing dynasty. It also highlights the formation of Chinese national and gender identities during a period of tremendous social and political change, along with the genesis of contemporary attitudes toward the West. Early twentieth-century Chinese drama embodies the uncertainty and anxiety brought on by modernism, socialism, political conflict, and war. After 1949, PRC theater painted a complex portrait of the rise of communism in China, with the ideals of Chinese socialism juxtaposed against the sacrifices made for a new society. The Cultural Revolution promoted a model theater cultivated from the achievements of earlier, leftist spoken drama, even though this theater arose from the destruction of old culture. Post-Mao drama addresses the socialist legacy and the attempts of a wounded nation to reexamine its cultural roots. Taiwan's spoken drama synthesizes regional and foreign traditions, and Hong Kong's spoken drama sparkles as a hybrid of Chinese and Western influences. Immensely valuable for cross-disciplinary, comparative, and performance study, this anthology provides essential perspective on China's theatricality and representation of political life.

*Corporeal Politics* Katherine Mezur,Emily Wilcox,2020-09-03 In *Corporeal Politics*, leading international scholars investigate the development of dance as a deeply meaningful and complex cultural practice across time, placing special focus on the intertwining of East Asia dance and politics and the role of dance as a medium of transcultural interaction and communication across borders. Countering common narratives of dance history that emphasize the US and Europe as centers of origin and innovation, the expansive creativity of dance artists in East Asia asserts its importance as a site of critical theorization and reflection on global artistic developments in the performing arts. Through the lens of “corporeal politics”—the close attention to bodily acts in specific cultural contexts—each study in this book challenges existing dance and theater histories to re-investigate the performer's role in devising the politics and aesthetics of their performance, as well as the multidimensional impact of their lives and artistic works. *Corporeal Politics* addresses a wide range of performance styles and genres, including dances produced for the concert stage, as well as those presented in popular entertainments, private performance spaces, and street protests.

Online Urbanization Li Zi, 2019-01-04 This book highlights the new urban-rural relationship that has emerged under the influence of e-commerce in China. In this regard, it presents case studies on the Suichang rural e-commerce model and Alibaba's rural strategy, together with analyses of online service in China. Furthermore, by means of a brief review of the urban-rural relationship throughout China's history, and of academic literature on the study of space, it explains the special logic of urbanization in China. As such, the book makes a valuable contribution to the body of literature on the space of flows and grassroots, aspects that are essential to appreciating the complexity of the new urban-rural relationship in underdeveloped areas (including developing countries and underdeveloped areas in developed countries) in the ongoing information era.

Chinese materia medica works. Its description of almost 1,900 pharmaceutically used natural and man-made substances marks the apex of the development of premodern Chinese pharmaceutical knowledge. The Ben cao gang mu dictionary offers access to this impressive work of 1,600,000 characters. This third book in a three-volume series offers detailed biographical data on all identifiable authors, patients, witnesses of therapies, transmitters of recipes, and further persons mentioned in the Ben cao gang mu and provides bibliographical data on all textual sources resorted to and quoted by Li Shizhen and his collaborators.

**The Economic History in Qin and Han Dynasty** Li Shi, The book is the volume of "The Economic History in Qin and Han Dynasty" among a series of books of "Deep into China Histories". The earliest known written records of the history of China date from as early as 1250 BC, from the Shang dynasty (c. 1600-1046 BC) and the Bamboo Annals (296 BC) describe a Xia dynasty (c. 2070-1600 BC) before the Shang, but no writing is known from the period The Shang ruled in the Yellow River valley, which is commonly held to be the cradle of Chinese civilization. However, Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River. These Yellow River and Yangtze civilizations arose millennia before the Shang. With thousands of years of continuous history, China is one of the world's oldest civilizations, and is regarded as one of the cradles of civilization. The Zhou dynasty (1046-256 BC) supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule. The central Zhou government began to weaken due to external and internal pressures in the 8th century BC, and the country eventually splintered into smaller states during the Spring and Autumn period. These states became independent and warred with one another in the following Warring States period. Much of traditional Chinese culture, literature and philosophy first developed during those troubled times. In 221 BC Qin Shi

Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin, marking the beginning of imperial China. However, the oppressive government fell soon after his death, and was supplanted by the longer-lived Han dynasty (206 BC - 220 AD). Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly. In the 21 centuries from 206 BC until AD 1912, routine administrative tasks were handled by a special elite of scholar-officials. Young men, well-versed in calligraphy, history, literature, and philosophy, were carefully selected through difficult government examinations. China's last dynasty was the Qing (1644-1912), which was replaced by the Republic of China in 1912, and in the mainland by the People's Republic of China in 1949. Chinese history has alternated between periods of political unity and peace, and periods of war and failed statehood - the most recent being the Chinese Civil War (1927-1949). China was occasionally dominated by steppe peoples, most of whom were eventually assimilated into the Han Chinese culture and population. Between eras of multiple kingdoms and warlordism, Chinese dynasties have ruled parts or all of China; in some eras control stretched as far as Xinjiang and Tibet, as at present. Traditional culture, and influences from other parts of Asia and the Western world (carried by waves of immigration, cultural assimilation, expansion, and foreign contact), form the basis of the modern culture of China.
