**Korean Masculinities and Transcultural Consumption** Sun Jung,2010-11-01 This book investigates transcultural consumption of three iconic figures – the middle-aged Japanese female fandom of actor Bae Yong-Joon, the Western online cult fandom of the thriller film *Oldboy*, and the Singaporean fandom of the pop-star Rain. Through these three specific but hybrid context, the author develops the concepts of soft masculinity, as well as global and postmodern variants of masculine cultural impacts. In the concluding chapter, the author also discusses recently emerging versatile masculinity within the transcultural pop production paradigm represented by K-pop idol boy bands.

**E-Learning in Europe - Learning Europe** Michael Kindt, Ullrich Dittler, Helge Kahler, This book contains contributions about the past, present and future of e-learning in twelve European countries. The papers are written by experts about their respective countries, together with one paper that deals with the subject from a transnational perspective. The main question treated and answered in this book is how digital media has contributed to Higher Education Development in different national contexts. Beyond a mere description of the situation in different countries, the socio-technical approach adopted in this book also offers the opportunity to make comparisons and thus fosters understanding between experts from different disciplines and cultures. This book takes stock of a decade of digital media in Higher Education in Europe by presenting a first comparative approach and encouraging discussion by adopting a relativist rather than a generalist approach. Readers are thus stimulated to envisage how e-learning might have developed in their own work and learning context and to shape how it may do so.

*Social Media Is Bullshit* B. J. Mendelson,2012-09-04 A provocative look at social media that dispels the hype and tells you all you need to know about using the Web to expand your business If you listen to the pundits, Internet gurus, marketing consultants, and even the mainstream media, you could think social media was the second coming. When it comes to business, they declare that it's revolutionizing advertising, PR, customer relations—everything. And they all agree: it is here to stay. In this lively, insightful guide, journalist and social critic B.J. Mendelson skillfully debunks the myths of social media. He illustrates how the notion of social media first came to prominence, why it has become such a powerful presence in the marketing field, and who stands to benefit each time it's touted in the press. He shows you why all the Facebook friends and Twitter followers in the world mean nothing to you and your business without old-fashioned, real-world connections. He examines popular tales of social media success, and reveals some unsettling truths behind the surface. And he tells you how to best harness the potential of the Internet—without spending a fortune in the process. Social media is bullshit. This book gives the knowledge and tools you really need to connect with customers and grow your brand.

**Art beyond Borders** Jérôme Bazin,Pascal Dubourg Glatigny,Piotr Piotrowski,2016-01-01 This book presents and analyzes artistic interactions both within the Soviet bloc and with the West between 1945 and 1989. During the Cold War the exchange of artistic ideas and products united Europe's avant-garde in a most remarkable way. Despite the Iron Curtain and national and political borders there existed a constant flow of artists, artworks, artistic ideas and practices. The geographic borders of these exchanges have yet to be clearly defined. How were networks, centers, peripheries (local, national and international), scales, and distances constructed? How did (neo)avant-garde tendencies relate with officially sanctioned socialist realism? The literature on the art of Eastern Europe provides a great deal of factual knowledge about a vast cultural space, but mostly through the prism of stereotypes and national preoccupations. By discussing artworks, studying the writings on art, observing artistic evolution and artists' strategies, as well as the influence of political authorities, art dealers and art critics, the essays in *Art beyond Borders* compose a transnational history of arts in the Soviet satellite countries in the post war period.

**Offerings** Michael ByungJu Kim, 2020-03-24 The national bestseller that Gary Shteyngart has called, A potent combination of a financial thriller and a coming-of-age immigrant tale. . . . Offerings is a great book. With the rapidly cascading Asian Financial Crisis threatening to go global and Korea in imminent meltdown, investment banker Dae Joon finds himself back in his native Seoul as part of an international team brought in to rescue the country from sovereign default. For Dae Joon—also known by his American name of Shane, after the cowboy movie his father so loved—the stakes are personal. Raised in the US and Harvard Business School—educated, Dae Joon is a jangnam, a firstborn son, bound by tradition to follow in the footsteps of his forebears. But rather than pursue the path his scholar-father wanted, he has sought a career on Wall Street, at the epicenter of power in the American empire. Now, as he and his fellow bankers work feverishly with Korean officials to execute a sovereign bond offering to raise badly needed capital, he knows that his own father is living on borrowed time, in the last stages of a disease that is the family curse. A young woman he has met is quietly showing the way to a different future. And when his closest friend from business school, a scion of one of Korea's biggest chaebol, asks his help in a sale that may save the conglomerate but also salvage a legacy of corruption, he finds himself in personal crisis, torn by dueling loyalties, his identity tested.

**Communication in Mission** Marcus Dean, Scott Moreau, Sue Russell, Rochelle Scheuermann, 2022-10-07 Communicating the Gospel—To All People, By All Means Communication has always been the heartbeat of God's interaction with humankind, and without thoughtful communication, mission is not fully effective. With the rise of technology and social media, the church faces a unique set of opportunities. At the same time, our shrinking world presents challenges and requires an increased sensitivity to social, cultural, and geopolitical triggers. With case studies that span the globe from Australia and Asia to the Black church and Muslim youth diaspora in the United States, this book closely considers what is working in the twenty-first century and what isn't. From post-colonial contexts to creative-access countries, this collection doesn't shy away from today's complex issues. Communication in Mission pulls together diverse voices—some seem like shouts and others like gentle whispers—but each has an important contribution for all who will listen and learn. This synthesis of personal experiences from field practitioners and theoretical concepts from scholars lays a foundation for application, calling for careful and intentional communication in the ongoing work of missions. Full of hope, this book looks forward to the gospel being received as Good News around the globe.
